**PUBLIC INSTRUCTION**

# Equity Statement

Each student, family, and community possesses strengths and cultural knowledge that benefits their peers, educators, and schools.

Ensuring educational equity:

- Goes beyond equality; it requires education leaders to examine the ways current policies and practices result in disparate outcomes for our students of color, students living in poverty, students receiving special education and English Learner services, students who identify as LGBTQ+, and highly mobile student populations.
- Requires education leaders to develop an understanding of historical contexts; engage students, families, and community representatives as partners in decision-making; and actively dismantle systemic barriers, replacing them with policies and practices that ensure all students have access to the instruction and support they need to succeed in our schools.

### 2022-23 Eligible Entity Partnership and Compliance with Program Assurances

#### Determination of Eligible Entity Partnership

**An eligible entity partnership is a requirement for consideration for funding.** The partnership **must** include a school district(s) or Local Education Agency (LEA) with designated high poverty schools that are Title I eligible, and at least one community-based organization. For the purpose of this grant an Educational Service District (ESD) is considered an LEA, and a partnership between an ESD and a school district, or two or more school districts would not be considered an eligible entity partnership, without the inclusion of a community-based organization as a primary partner.

Community-based organizations can include other public and non-profit agencies and organizations, businesses, educational entities (such as vocational and adult education programs, school-to-work programs, faith-based organizations, community colleges or universities), recreational, cultural and community service entities. Proposals must be jointly submitted by school districts and community-based organizations or other private or public entities.

**An eligible entity and/or eligible entity partner may only submit/participate in one application annually.** Partners must have an understanding of the commitment to this project for the next five years. Some rural remote schools may be exempt from the partnership requirement, upon request, and the provision of evidence that this requirement cannot be met within reasonable geographic proximity and would prevent them from applying for this program funding.

To be considered as a viable eligible entity partnership, there must be evidence that

1. The partnership includes at least one Local Education Agency (LEA) or school district (with only designated high poverty, Part A of Title I eligible schools) and at least one community-based

**Budget Narrative**

**Note:** The budget narrative below does not replace the official budget matrix **to be completed at a later date** after finalists have been notified. All Purchased Services need to be clearly delineated in the middle column. The Direct charges to the grant as well as Purchased Services will automatically be totaled for you. Therefore, totals from direct charges and purchased services should equal your total grant amount requested. Detailed descriptions of each category and allowable expenses are in the RFP. Please do not leave any categories blank, if a category does not apply to your program provide a brief rationale. For example, a partner may be providing facilities and/or transportation, include that in the rationale. Please estimate the value of the contribution and include the amount in your budget narrative under Cash Value of Contribution. The budget should reflect costs for a full year of programming, August 2022 through August 2023. Do not include a five-year budget.

**The budget narrative is awarded points, and an accurate and detailed cost calculation for each budget object is required. Cost calculations are reasonable, necessary, and allocable for specific items of expenditure for each category.**
