

Graduation Success & Educational Advocacy – What’s the Difference?

Treehouse provides a range of supports to help students in foster care experience success at school and have access to resources and support systems that all kids need to graduate from high school with a plan for the future. It takes all of us in coordination, with consistent positive adult presence and collaboration between foster parents, caseworkers, school staff, mentors, and Treehouse. Treehouse approaches this work with two academic support programs--**Graduation Success** and

Educational Advocacy.
