F-196 Introduction

PURPOSE: The purpose of this chapter is to provide information on submitting the Annual Financial Statements (F-196 Report) for Washington public school districts. The procedure for submitting school districts' annual financial statements is similar to the budget and budget extension process. Once the F-196 is 'Ready for OSPI Review,' the school district and ESDs are able to electronically sign the Certification Page for signing.

School districts will use the EDS platform to run preliminaries of the F-196 Report and run edit reports before submitting the file to their ESD. There are error edits that must be corrected, warning messages that require district response, and informational edits that are provided to alert districts of potential problems.

School districts should refer to the *Accounting Manual for Public School Districts in the State of Washington* for further information relating to expenditure and revenue coding.

When the F-196 data submitted to the ESDs have been reviewed, and the Certification Page has been electronically signed and dated by the district and the ESD, the Supervisor of School District/ESD Financial Reporting will review the data online and will contact the ESD fiscal officer or assistant fiscal officer if there are problems associated with the submission. It is recommended that ESDs retain a copy of the certification page for their files. State Auditors Office (SAO) does not require a copy of the signed Certification Page.

The school district must also submit the following, when appropriate, pursuant to WAC 392-117-050:

1. If total actual expenditures exceed total appropriated expenditures in any fund, an explanation must be sent to OSPI. The explanation should contain a confirmation that the overexpenditure exists and the action taken to circumvent its recurrence.
2. Any comments on computerized error or warning messages.
3. A copy of the State Board of Education waiver approval or a statement covering the reason for a district operating less than 180 days.
4. If ending total fund balance is negative in any fund, an explanation must be sent to OSPI. The explanation should contain a plan which portrays how the district will eliminate the existing deficit fund balance.

Notice is hereby given to school districts and ESDs, in accordance with WAC 392-117-035, that failure to adhere to due dates shall result in a delay of apportionment payments.

ANNUAL FINANCIAL STATEMENT (F-196) **AND DATA COLLECTION CALENDAR**

STATUTORY CITATION: WAC 392-117-035

PURPOSE: This section provides the calendar for preparation and submission of the school district's F-196 Annual Financial Statement and data collection process.

Notice is hereby given to school districts and ESDs, in accordance with WAC 392-117-035, that failure to adhere to the due dates below shall result in a delay of apportionment payments. The final date for filing or forwarding will be considered as having been met if the postmark or other evidence indicates shipment prior to the due date or the next workday if the due date falls on a weekend.

Final Action Date **Action**

October 25 Final date for submission of completed F-196 data from the school district to the local ESD. The data will be electronically submitted, in the OSPI prescribed format.

Districts not able to submit by the October 25 due date, may request a waiver by email or written notice to the ESD.

November 1 Final date for the ESD to review the F-196. The ESD may return the file to the district to make necessary changes. If the ESD approves the F-196 and changes the status to 'Ready for OSPI Review,' the District and ESD are able to electronically sign the Certification Page.

November 8 The signed Certification Page is due from the schooldistrict to the ESD.

November 15 Final date the signed Certification Page is due at OSPI, School Financial Services, from the ESD.

FREQUENTLY ASKED QUESTIONS WITH ANSWERS

- 1. Q) I've tried to enter data but the system is not responding.**
A) The SAFS applications have been developed to be viewed with Microsoft's Edge, Internet Explorer will still work, and however, Edge is preferred. Results may be unpredictable using other browsers.
- 2. Q) I created an extract file but the file has not shown up in EDS.**
A) Districts should contact their vendor for issues with files not reaching EDS. Once the file is in EDS and a district experiences difficulty with the file, the district should contact Supervisor, School District and ESD Financial Reporting at OSPI. Sending an email with a description of the issue is the preferred method, as the email can be shared with IT staff.
- 3. Q) I created an extract file but the file has not shown up in EDS. How long should it take a file to show up?**
A) It should only take a few minutes for an extracted file to show up in the EDS system to import. **If you extracted a file and it has not shown up in EDS please do not continue to try numerous times.** Contact Supervisor, School District and ESD Financial Reporting at OSPI and he can check into it to find out if the issue is on OSPI's side or the district's vendor side. Making numerous attempts over fills the server when it is back up and running. This can cause a backup as all the attempts try to process.
- 4. Q) How can I verify that account code combinations that loaded are correct?**
A) Use the Valid COA Look-Up Tool in the Instructions/Tools section of the SAFS webpage, under Accounting Tools.
- 5. Q) I ran my reports and the calculated totals and/or subtotals do not appear to be correct.**
A) Review the input screens in the EDS F-196 system. If data is missing from the input screen, import the data again or manually enter the data. Click SAVE on the input screen to draw in any amounts that might need to be recalculated. Additionally, running edits will ensure the data recalculates.
- 6. Q) I changed an amount in the F-196 input screen and the report does not reflect the change.**
A) Review the data on the input screen in the EDS F-196 system. If data is missing from the input screen, manually enter the data and Click Save. If data is there but the totals are not correct Click Save; this will recalculate the totals. Return to the Print Report tab to view the report again. Run edits to ensure the data recalculates. If you continue to have an issue contact Supervisor, School District and ESD Financial Reporting at OSPI.

FREQUENTLY ASKED QUESTIONS WITH ANSWERS (continued)

- 7. Q) I cannot enter the ending fund balance.**
A) The ending fund balance is a calculated amount.
- 8. Q) The ending fund balance is not correct or the beginning fund balance is not printing.**
A) Manually enter the beginning fund balance amount on the input screen.
- 9. Q) The F-197 data is not printing correctly on the edits.**
A) The ESD may need to enter data for the month of August.
- 10.Q) My Supplemental Reports are not calculating correctly.**
A) Manual entry on the Supplemental Report input screen should be completed.
- 11. Q) What are the F-196 program timelines?**
A) School Financial Services plans on releasing the F-196 Annual Financial Statements and Supplemental Reports system in September. All files must be submitted by 5:00 PM on November 16th.
- 12.Q) Does the school district need to print a hard copy of the F-196 Report?**
A) It is recommended that districts print out a copy for their files, but a school district may be able to prepare the F-196 Annual Financial Statements and Supplemental Reports without ever having to print a hard copy.
- 13.Q) Does the sum of federal, state, and other resources have to equal the program expenditures for each program on the Resource to Program Expenditure Report?**
A) Yes. The total of federal, state, and other resources assigned to each program **must** equal the expenditure total for each program.
- 14. Q) How is the first column of the Resource to Program Expenditure Report entered?**
A) This column is calculated using the detail expenditure data from matrix pages and supplemental data input. They can only be changed by updating amounts entered in the detail.
- 15. Q) What do Columns 2–4 of the Resource to Program Expenditure Report represent?**
A) Column 2 represents the state resources (revenue accounts 3000–4000); Column 3 represents the federal resources (revenue accounts 5000–6000); and Column 4 represents the other (local, etc.) resources (revenue accounts 1000–2000 & 7000–9000) devoted to each program.

FREQUENTLY ASKED QUESTIONS WITH ANSWERS (continued)

16. Q) What amounts should be entered into the columns on the Resource to Program Expenditure Report?

A) The amounts that should be entered into the columns are as follows:

Column 2, State Resources:

The amount of state resources used for each program listed. The minimum amount that should be entered into this column is the lesser of all direct state revenues provided for the program (less allowable indirect expenditures), or the total program expenditures (if they are less than the direct state revenues, less allowable indirect expenditures). In addition, the district may include general state revenues that have been expended on the program, such as local effort assistance.

Column 3, Federal Resources:

The amount of federal resources used for each program. The minimum amount that should be entered into this column is the direct federal revenues provided for the program (less allowable indirect expenditures). In addition, the district may include general federal revenues that the district has assigned to the program, such as Federal Impact Aid.

Column 4, Other Resources:

The amount of all other resources spent on the program. Such resources include, but are not limited to, the following:

- Interdistrict revenues received for the program.
- Intergovernmental revenues received for the program.
- Revenues from local levies or other local funding sources.
- Any uses of fund balance from the prior year.
- Sufficient amounts to balance revenues to total program expenditures.

17. Q) Do I enter an amount for Program 97 on the Resource to Program Expenditure Report?

A) Yes, the resource information must be completed as it is for all other programs.

18. Q) Are negative figures allowed on the Resource to Program Expenditure Report?

A) No, any figure in a resource column must be positive. If program expenditures are less than the total revenue received, the district will only report revenues up to the amount of expenditures. For example, if program expenditures are \$100,000, state revenues are \$75,000, and federal revenues are \$80,000, the district will only report a total of \$100,000 in revenue.

19. Q) I've entered amounts on the Resource to Program Expenditure Report but the totals have not changed.

A) Click the save button. The system does not recalculate until the save button is used.

FREQUENTLY ASKED QUESTIONS WITH ANSWERS (continued)

20.Q) I've entered amounts on a Matrix page but the totals have not changed.

A) Click the save button. The system does not recalculate all fields until the save button is used.

21. Q) I have a negative Ending Total Fund Balance. Does OSPI need an explanation?

A) Yes, districts are asked to send documentation to OSPI explaining the circumstances which created a negative ending total fund balance in any fund. Districts should retain this documentation and be prepared to provide SAO with the explanation.

22.Q) I have discovered an error in my F-196 Annual Financial Statements or Supplemental Reports after the final lock has been run. How can a correction be made?

A) If OSPI has **not** finalized/accepted the F-196 file, and the final date of November 13 has not passed, you can make the corrections as follows:

- (1) Contact your ESD and tell them you wish to make a correction. Your ESD will coordinate with OSPI to return the file to them and the ESD will then return the file to the district.
- (2) After your ESD has returned the F-196 file to you, import or manually correct the data and return the file to your ESD. The ESD will review the corrections and change the status to 'Ready for OSPI Review.' OSPI will then be able to review and finalize the corrected file.
- (3) A "relock" date and time will display on the Certification Page for any F-196 file that has been "unlocked" and returned to the district. OSPI will only accept the electronically signed Certification Page with the "relock" date.

B) If OSPI has finalized/accepted the data file after November 16 you can make the corrections as follows:

- (1) Request the MS Word F-196 document from OSPI, include your ESD in all correspondence when the window for manual corrections open, usually beginning in January. Make manual changes to the data on every page(s) affected by the correction per the instructions sent with the MS Word document. Correct all data including totals, etc., that might change.
- (2) Send the entire corrected F-196 MS Word document, with a brief explanation of the changes, to your ESD and OSPI. (See Chapter VIII, Making Corrections to Report F-196 Annual Financial Statements, of the *Accounting Manual for Public School Districts in the State of Washington*.)
- (3) Corrected amounts are not updated into computer databases maintained at OSPI. The only exception is the federal indirect rate information. We are required to update the database for any federal indirect rate data, in order for the future rates to be calculated correctly. Bulletins or financial reports issued by OSPI will not include the revised amounts.

FREQUENTLY ASKED QUESTIONS WITH ANSWERS (continued)

- (4) The revised F-196 page(s) will be filed at OSPI with the district's original Report F-196.
- (5) Once the revision has been completed, print and re-sign a new Certification Page (click certification page in print reports) with revised noted on the document. Send an original re-signed Certification Page to Supervisor, School District and ESD Financial Reporting at OSPI.

Data Requirements for End-of-Year Reporting to Apportionment and State Recovery Rate
For the Year Ended August 31, XXXX

1. Fire District Payment RCW 52.30.020

Total expenditures paid to fire protection districts for fire protection services.

Item 178

Eligible school districts received reimbursement in the July apportionment payment (Revenue Account 3100) for fire protection services purchased during the calendar year (see Report 1191, line C.7. for the amount of payment). Fire district reimbursement is provided solely for the purpose of paying for fire protection services. Therefore, any such reimbursement not used to pay for fire protection services must be recovered by OSPI. School districts that did not receive payment are not required to make an entry in this item number.
