Overview

ASU Prep Digital is a college prep option where online high school and university courses converge in a unique learning opportunity for all students. This rigorous virtual school program prepares students for college acceptance and encourages them to start earning credit toward college majors and careers in an increasingly interconnected environment. Our flexible program includes rigorous global curriculum and one-on-one instruction in a virtual environment. We leverage the latest ASU learning technologies along with industry leading tools to connect our highly qualified teachers with our students.

Course Offerings

Subjects:

- Arts
- Language Arts
- Lifeskills-Health
- Mathematics
- Science
- Social Studies
- Technology
- World Languages

Levels:

- Honors

- Standard

Students

Our mission is to ensure that all learners can thrive by advancing next generation education models that transcend the traditional boundaries between “high school” and “college” and eliminate barriers based on location, modality, background, and income. We support districts and students around the world. Through the flexibility afforded by the online learning environment, the instructional design, and the course design, we are able to accommodate the needs of a wide variety of students, including students with IEPs, ELLs, gifted/talented, etc. We currently serve a broad demographic in our blended and online model, including schools with low socioeconomic status or high minority populations.

Student-Teacher Contact Requirements

While no physically present, student-teacher contact is required, we placed a high value on personal connections with students. Students must complete regular discussion-based assessments, each with a graded point value, with his/her instructor three times each semester. The teacher is also required to uphold the following contact requirements: welcome email to students and parents/guardians and a welcome phone call. Minimum weekly live lessons, frequent phone calls to students and families, frequent course announcements, and more.
