Executive Summary

Background

Article 7 of the State Constitution and chapter 84.52 RCW gives school districts authority to levy local property taxes. The voters of the school district must approve such levies. School district levies are four fund types:

Excess general fund levies are one to four year levies used for day to day operations of the school. Such levies are also known as “maintenance and operation” (M&O) levies.

Debt service fund levies are multi-year levies used to pay principal and interest on general obligation bonds sold to finance school construction and remodeling. Voter approval of a bond issue authorizes the sale of bonds and the levy of taxes over the life of the bonds, which is often 15 to 30 years. Tax revenues are deposited in the debt service fund.

Transportation vehicle fund levies are one-or two-year levies used to pay for school buses or other school transportation needs.

Capital project fund levies are one-or six-year levies used to pay for school construction or remodeling.

School districts may run a levy for a particular fund only two times in a calendar year. Unsuccessful levies may be resubmitted in subsequent years.

Local effort assistance is state money paid to eligible districts to match excess general fund levies. These payments help school districts with above-average tax rates due to low property valuations.

Levy History 1990–2017

Tables and graphs on pages 7–12 summarize school levy history since 1990. Tables 1–3 summarize excess general fund levies. Table 4 summarizes bond issue election results. Table 5 summarizes levy authority, rollbacks, and local effort assistance history.

Table 1 - The number of districts passing 2017 excess general fund levies increased to 288 districts. No districts tried but failed to pass a levy. The total dollar amount of approved levies is \$2.528 billion.

Table 2 - The statewide average excess general fund levy rate per \$1,000 decreased from \$2.51 the prior year to \$2.39. The levy per student increased from \$2,298 in the prior year to \$2,329.

Table 3 - This table displays excess general fund levies as a percent of total school district revenues. The percent decreased from 18.49 percent in 2015–16 to 18.30 percent in 2016–17.

Table 4 - Bond issue levy submissions and approvals increased from \$2.762 billion in submissions the prior year to \$5.264 billion and increased from \$1.696 billion in approvals the prior year to \$3.628 billion.

Table 5 - Levy authority increased 3.0 percent from \$2.735 billion in the prior year to \$2.827 billion. The number of districts eligible for local effort assistance (LEA) remained at 217 and the eligible amount increased from \$387 million to \$415 million. The districts receiving LEA remained at 212, and the amount received increased 7.0 percent from \$384 million to \$413 million.

Levy Election Results

The Report 1463 series shows detailed election results for the four fund types.

Comments on Report 1463-GF

Report 1463-GF shows results of elections held in 2012, 2013, 2014, 2015, and 2016 for excess general fund levies collectible in 2017.

Voter approval requires a majority of “yes” votes.

The number of districts submitting levies was 288. The number of districts with successful levies was 288. The number of districts not submitting an excess general fund levy to the voters was six.

Levy election data for these reports came from county auditors’ reports. The tax rate shown in “dollars per thousand” was an estimate when the election was held. Actual tax rates are shown in Report 2010.

Comments on Report 1463-BI

Report 1463-BI shows the results of bond issue elections held in 2016. Voter approval of a bond issue permits the school district to issue general obligation bonds, which will be repaid by debt service fund levies made over the life of the bonds. For example, a bond issue approved in 2016 may result in debt service levies in calendar year 2017 through 2042.

Voter approval requires at least 60 percent “yes” votes and total votes of at least 40 percent of votes cast in the last general election.

Bond issues totaling \$5.264 billion were submitted and \$3.628 billion (61 percent) received voter approval. Of the 43 districts submitting bond issues, 26 district (69 percent) were successful.

Comments on Report 1463-TVF

Report 1463-TVF shows the results of transportation vehicle fund levy elections held in 2016.

Transportation vehicle fund levies are deposited in the transportation vehicle fund and used for purchase and repair of pupil transportation vehicles (mostly school buses). Voter approval requires a majority of “yes” votes.

In 2016, three districts submitted transportation vehicle fund levies totaling \$5.4 million. Two districts passed levies totaling \$2.3 million for collection in 2018.

Comments on Report 1463-CP

Report 1463-CP shows the results of capital project levy elections held in 2016 for collection in 2017 through 2023.

Capital project levies must be used for construction, modernization, or remodeling of school facilities, costs associated with implementing technology systems, major equipment repair, painting of facilities, and other major preventive maintenance purposes. Capital project levies for up to six years may be approved at a single election. Voter approval requires a majority of “yes” votes.

In 2016, 31 districts submitted capital project levies totaling \$1.013 million. Twenty-nine districts passed levies totaling \$1.010 million for collection in 2017 through 2023.

Actual 2017 Levies by Fund

Report 2010 shows actual tax rates and levy amounts certified for collection in 2017 for all four types of levies. The state average and highest tax rates are as follows:

	<u>Total</u>	<u>General Fund</u>	<u>Debt Service</u>	<u>Transport. Vehicle</u>	<u>Capital Projects</u>
Average Tax Rate (\$/1,000)	\$4.05	\$2.39	\$1.16	\$0.00	\$0.49
Highest Tax Rate (\$/1,000)	\$9.10	\$9.10	\$3.27	\$0.51	\$2.32

The tax rates shown on this report are actual rates used by county assessors as reported to the Department of Revenue. Certified levy amounts are those certified to county commissioners in the fall of 2016 for collection in calendar year 2017.

Total excess general fund levies certified for collections in 2017 are \$67 million less than the amount approved by voters as shown in Report 1463-GF. Differences are shown by district on attached Report 2030. Most of the difference is due to the levy lid that limits the dollar amount of general fund levies.

Tax rates and certified levy amounts for debt service levies are those calculated by county assessors for collection in 2017 for payment of principal and interest on outstanding bonds. Certified 2017 debt service fund levies include levies approved by voters prior to 2016 as well as those shown in Report 1463-BI.

Supplemental Excess General Fund Levy Information

Comments on Report 1061

Report 1061 shows assessed valuations and tax rates for 2017 excess general fund levies as reported by county assessors to the Department of Revenue (DOR).¹ Certified levy amounts were reported to the Office of Superintendent of Public Instruction (OSPI) by educational service districts (ESDs). Additional columns provide analysis of levy valuations and certified levies per full-time equivalent (FTE) student.

¹ Levy assessed valuations include property valuations plus the greater of one-half timber assessed valuations (1/2 TAV) or 80 percent of the 1983 timber roll. Property valuations have been reduced by the amount of senior citizen exemptions.

Comments on Report 2030

Report 2030 shows how the levy lid law (RCW 84.52.0531) affected 2017 levy collections. Twenty-nine districts had to reduce or “rollback” 2017 levies by a total of \$64.6 million due to the levy lid. Six districts voluntarily rolled back their levy by an additional \$2.5 million.

The middle two columns on Report 2030 show each school district’s levy authority percent and actual levy percent. The levy authority percent for 205 districts is 28 percent. There are 90 districts that have been grandfathered at a levy authority between 28 and 38 percent.

The actual levy percent is calculated by adding the district’s certified levy and LEA allocation and dividing the result by the district’s levy base (adjusted for transfers). About 99 percent of all students reside in school districts levying 10 percent or more of their levy base. About 90 percent of all students reside in school districts levying more than 20 percent of their levy base. About 29 percent of all students reside in school districts levying more than 28 percent of their levy base.

Report 2030 also shows 2017 local effort assistance. LEA, also known as levy equalization, is state matching money paid to eligible districts. To be eligible, a district must have a tax rate for a hypothetical 14 percent levy in excess of the statewide average 14 percent levy rate. (This rate is \$1.498/1,000 in 2017.) In determining 14 percent levy rates, assessed values are adjusted to 100 percent of market value using the county-indicated ratios determined by the DOR. The last column on Report 2030 shows each district’s 14 percent levy rate. For the 2017 calendar year, local effort assistance allocations are funded at 100 percent of the formula amount.

Of the state’s 295 school districts as of the 2016–17 school year, 217 are eligible for LEA in 2017. Of the 217 eligible districts, 198 receive the maximum LEA. Fourteen eligible districts

assessed less than \$1.498/1,000 and therefore qualify for only a portion of the maximum possible matching money. Five eligible districts did not pass an excess general fund levy and therefore receive no LEA.

NOTES: In the columns labeled FIRST SUBMISSIONS and SECOND SUBMISSIONS, a district submitting multiple bond issues at the same election may be counted as both voter approved and failed.

In the columns labeled TOTAL APPROVED, a district with both approved and failed submissions is counted as approved.

In the columns labeled TOTAL FAILED, a district with both successful and failed submissions is not included in the number of districts; however, the district's failed submissions are included in the dollar amount of failed submissions (column \$\$\$).

Election results are those reported to OSPI by county auditors.

NOTES: *Levy authority is the maximum excess general fund levy permitted by RCW 84.52.0531, the Levy Lid Law. The levy authority maximum rate was reduced by two percentage points for 1998 levies. This accounts for the reduction in levy authority for 1998.*

Levy rollbacks occur when a district collects less than voters have approved.

Local effort assistance (LEA) is state matching money paid on levies in districts with high tax rates due to low assessed valuations. Districts eligible to receive LEA money must pass a levy in order to receive LEA money. LEA began in 1989 and was only partially funded that year.

Actual levy percentages equal actual excess general fund levies plus LEA allocations as a percent of the levy base adjusted for nonresident transfers.

Levy authority is the maximum excess general fund levy permitted by RCW 84.52.0531, the Levy Lid Law.

Levy rollbacks occur when a district collects less than voters have approved.

Local effort assistance (LEA) is state matching money paid on levies in districts with high tax rates due to low assessed valuations.

* Resident students are 2015–2016 annual average full-time equivalent (FTE) students. High school students residing in nonhigh school districts and students enrolled in interdistrict cooperatives are included in the enrollment of the district in which they reside and are not included in the enrollment of the district in which they are served.
