

Principal Professional Growth Feedback

CREATING CULTURE: Climate is what we do every day to make our school the best place in the world for our students.

What can I do differently or new in the area of shaping

our climate and culture?

In an effort to constantly challenge myself as the lead learner in our learning organization, I would appreciate your feedback and insight into my impact as your principal. Please take a moment to help me grow in order to lead our building through continuous improvement cycle. Thank you for your time!

Culture is the belief behind our actions.

What should I keep doing in this area?

RIII DING SYSTEMS: What are the systems in our building t	nat support the success of all students (hell schedules
BUILDING SYSTEMS: What are the systems in our building that support the success of all students (bell schedules, decision making, resources, shared leadership, discipline, recognition, assessment data, etc.)?	
decision making, resources, shared leadership, discipline, reco	gillion, assessifient data, etc.,.
What should I keep doing in this area? What systems work well for us that support student success?	What can I do differently or new in the area of improving systems in our building that will lead to increased student achievement?
