21APR
TA WEBINAR X
October 20, 2016
3pm-4pm ET
WHAT IS THE NAME OF THE FEDERAL SYSTEM?

21APR is the official name of the federal data collection system for the 21\textsuperscript{st} CCLC program.
WHERE CAN I FIND DEFINITIONS?

21APR Data Guide

21APR Data Guide is a user-friendly resource with expanded information on each data element in 21APR.

The purpose of the guide is to provide non-technical guidance on the data elements and definitions for those responsible for data entry at the State and Grantee level.
21APR Data Dictionary

The Data Dictionary is a technical document for technical users, particularly those working with other data systems or investigating how to best gather data at the state level.
WHERE CAN I FIND THE GUIDE AND DICTIONARY?

Both the 21APR Data Guide and Data Dictionary can be downloaded for viewing or printing at:

https://21apr.ed.gov/support
21apr.ed.gov is a LIVE site. The data entered into this system will be used to report to Congress.

If you have any test grantees or centers in this system, delete them before you certify your data. Test entries skew data for your state.
If you are not an authorized user, you need to contact your State Education Agency (SEA) representative for authorization and creation of an account. You can find their contact info at https://21apr.ed.gov.

- Only SEAs have the ability to create accounts for users in their particular state.

- This is a federally secured system for authorized users only – HELP DESK AGENTS ARE NEITHER AUTHORIZED TO CREATE ACCOUNTS FOR NOR ASSIST UNAUTHORIZED USERS.
HOW DO I RESET MY FORGOTTEN PASSWORD?

• If you need to reset your password, please go to the following url: https://21apr.ed.gov/forgot

• You will need to answer your challenge question you had set when activating your account.

• If you are unable to answer your challenge question correctly, you will need to have your account deleted and recreated by your SEA. If you are the SEA Super User and find yourself in this position, you will need to contact ED. Only ED can create an SEA Super User account.

• When an account is deleted and recreated, all data entered previously remains safe and secure.
FAQs, Quick Guides, and Downloads are available for authorized users at:
