Part 1. Introduction

The Washington state Office of Superintendent of Public Instruction (OSPI) is pleased to announce the release of the 21st Century Community Learning Centers (21st CCLC) FY19 Request for Proposal (RFP). This document contains the guidelines that should be followed when applying for a sub-grant under this program. These guidelines, including all required supporting materials, may be found on the 21st CCLC website at 21st Century Community Learning Centers.

The 21st CCLC program is authorized under Title IV, Part B of the Elementary and Secondary Education Act of 1965 (ESEA), as amended by the Every Student Succeeds Act (ESSA) of 2015.

OSPI anticipates awarding approximately $5 million, to support implementation of 21st CCLC programs in high-poverty, low-performing communities providing services consistent with the intent and purpose of the federal 21st CCLC statute and guidance. Prospective applicants are encouraged to attend a Bidders’ Conference for guidance and technical assistance on developing and submitting a program proposal. The 21st CCLC grants awards are up to five years, contingent upon federal funding. Programs must show progress in implementing the project goals and activities as approved in their original grant proposal. No grant is less than $100,000, and no grant will exceed $500,000.

21st CCLC proposals must be submitted using OSPI’s online iGrants system. Instructions for gaining access to the iGrants system are provided here: iGrants. Submission will include an online application, upload of the proposal narrative, and supporting documentation.

This is a highly competitive competition and in the past we have only been able to fund approximately one third of eligible applicants. We will be offering an interactive, online Bidders’ Conference that is scheduled for Wednesday April 10, 2019, 8:30am–10:30am; where you may receive additional information. 21st CCLC funds cannot be expended or reimbursed to prepare this application.
Part 2. Timeline Request for Proposal (RFP) and Award

RFP becomes available on OSPI's 21st CCLC website week of: April 2, 2019

RFP will be available in iGrants: May 1, 2019

Bidders’ Conference; Webinar (online): April 10, 2019

8:30am–10:30am. Join Zoom Meeting (https://zoom.us/j/800425187)

Applications must be fully submitted via iGrants by 4 p.m., May 30, 2019
(Note: Please be aware that the iGrants system will close at 4 p.m., May 30, 2019. If you have not fully submitted your application, it will not be accepted in the “draft” format.)

Grantees will be notified by: July 8, 2019

Funds will be available for year one: July 8, 2019

Program operations may begin: July 8, 2019

New afterschool programs must start no later than: September 30, 2019

First fiscal year: July 8, 2019 to August 31, 2020

The second through the fifth fiscal year: September 1 through August 31
(Years 2–5 are dependent upon federal funding and past grantee performance.)

Please be aware that all awarded grant proposals are public records. Awarded proposals will be posted on the OSPI website. Please do not add any personal information you do not wish to have posted.

If you have questions regarding these guidelines, please contact Heidi Schultz, OSPI 21st CCLC Program Supervisor, at heidi.schultz@k12.wa.us or 360-725-6049.

Resources – Please review before preparing an application.

12. **Regional Educational Service Districts** - Offer consulting and financial services to school districts

A. Purpose (ESSA, Sec. 4201)
   (a) PURPOSE.—The purpose of this part is to provide opportunities for communities to establish or expand activities in community learning centers that—
   (1) provide opportunities for academic enrichment, including providing tutorial services to help students, particularly students who attend low-performing schools, to meet the challenging state academic standards;
   (2) offer students a broad array of additional services, programs, and activities, such as youth development activities, service learning, nutrition and health education, drug and violence prevention programs, counseling programs, arts, music, physical fitness and wellness programs, technology education programs, financial literacy programs, environmental literacy programs, mathematics, science, career and technical programs, internship or apprenticeship programs, and other ties to an in-demand industry sector or occupation for high school students that are designed to reinforce and complement the regular academic program of participating students; and
   (3) offer families of students served by community learning centers opportunities for active and meaningful engagement in their children’s education, including opportunities for literacy and related educational development.

B. Definitions (ESSA, Sec. 4201 (b)(1))
   (1) COMMUNITY LEARNING CENTER.—The term ‘community learning center’ means an entity:
      (A) assists students to meet the challenging state academic standards by providing the students with academic enrichment activities and a broad array of other activities (such as programs and activities described in subsection (a)(2)) during non-school hours or periods when school is not in session (such as before and after school or during summer recess) that—
         (i) reinforce and complement the regular academic programs of the schools attended by the students served, and
         (ii) are targeted to the students’ academic needs and aligned with the instruction students receive during the school day; and
      (B) offers families of students served by such center opportunities for active and meaningful engagement in their children’s education, including opportunities for literacy and related educational development.
   (2) EXPANDED LEARNING PROGRAM ACTIVITIES. (ESSA, Sec. 4202 (A)(2))—A state that receives funds under this part for a fiscal year may use funds under section 4202(c)(1) to support those enrichment and engaging academic activities described in section 4205(a) that—
      (A) are included as part of an expanded learning program that provides students at least 300 additional program hours before, during, or after the traditional school day;
      (B) supplement but do not supplant regular school day requirements; and
      (C) are carried out by entities that meet the requirements of subsection (i). OSPI is not implementing Expanded Learning Time Programs during this application cycle, pending guidance from the U.S. Department of Education.
   (3) ELIGIBLE ENTITY.—The term “eligible entity” means a local educational agency, community-based organization, Indian tribe or tribal organization (as such terms are defined in section 4 of the
Indian Self-Determination and Education Act (25 U.S.C. 450b)), another public or private entity, or a consortium of 2 or more such agencies, organizations, or entities.

4) EXTERNAL ORGANIZATION.—The term “external organization” means— (A) a nonprofit organization with a record of success in running or working with before and after school (or summer recess) programs and activities; or (B) in the case of a community where there is no such organization, a nonprofit organization in the community that enters into a written agreement or partnership with an organization described in subparagraph (A) to receive mentoring and guidance in running or working with before and after school (or summer recess) programs and activities.

5) RIGOROUS PEER-REVIEW PROCESS.—The term “rigorous peer-review process” means a process by which—
(A) employees of a state educational agency who are familiar with the programs and activities assisted under this part review all applications that the state receives for awards under this part for completeness and applicant eligibility;
(B) the state educational agency selects peer reviewers for such applications, who shall—
   (i) be selected for their expertise in providing effective academic, enrichment, youth development, and related services to children; and
   (ii) not include any applicant, or representative of an applicant, that has submitted an application under this part for the current application period; and
(C) the peer reviewers described in subparagraph (B) review and rate the applications to determine the extent to which the applications meet the requirements under sections 4204(b) and 4205.

C. Priority (ESSA, Sec 4204 (4)(i))
(A) proposing to target services to—
   (i) students who primarily attend schools that—
   (I) are implementing comprehensive support and improvement activities or targeted support and improvement activities under section 1111(d) or other schools determined by the local educational agency to be in need of intervention and support to improve student academic achievement and other outcomes; and
   (II) enroll students who may be at risk for academic failure, dropping out of school, involvement in criminal or delinquent activities, or who lack strong positive role models; and
   (ii) the families of students served;
(B) submitted jointly by eligible entities consisting of not less than 1—
   (i) local educational agency receiving funds under part A of Title I; and
   (ii) another eligible entity; and
(C) demonstrating that the activities proposed in the application—
   (i) are, as of the date of the submission of the application, not accessible to students who would be served; or
   (ii) would expand accessibility to high-quality services that may be available in the community.

D. Authorized Activities (ESSA, Sec. 4205 (a));
Each eligible entity that receives an award under section 4204 may use the award funds to carry out a broad array of activities that advance student academic achievement and support student success, including:

21ST CCLC REQUEST FOR PROPOSALS 2019–2020
1. academic enrichment learning programs, mentoring programs, remedial education activities, and tutoring services, that are aligned with;

2. the challenging state academic standards and any local academic standards, and

3. local curricula that are designed to improve student academic achievement;

4. well-rounded education activities, including such activities that enable students to be eligible for credit recovery or attainment;

5. literacy education programs, including financial literacy programs and environmental literacy programs;

6. programs that support a healthy and active lifestyle, including nutritional education and regular structured physical activity programs;

7. services for individuals with disabilities;

8. programs that provide after-school activities for students who are English learners that emphasize language skills and academic achievement;

9. cultural programs;

10. telecommunications and technology education programs;

11. expanded library service hours;

12. parenting skills programs that promote parental involvement and family literacy;

13. programs that provide assistance to students who have been truant, suspended, or expelled to allow the students to improve their academic achievement;

14. drug and violence prevention programs and counseling programs;

15. programs that build skills in STEM, including computer science, and that foster innovation in learning by supporting nontraditional STEM education teaching methods; and

16. programs that partner with in-demand fields of the local workforce or build career competencies and career readiness and ensure that local workforce and career readiness skills are aligned with the Carl D. Perkins Career and Technical Education Act of 2006 (20 U.S.C. 2301 et seq.) and the Workforce Innovation and Opportunity Act (29 U.S.C. 3101 et seq.).

E. MEASURES OF EFFECTIVENESS.—(ESSA. Sec. 4205 (b))

(1) IN GENERAL.—For a program or activity developed pursuant to this part to meet the measures of effectiveness, monitored by the state educational agency as described in section 4203(a)(14), such program or activity shall—

(A) be based upon an assessment of objective data regarding the need for before and after school (or summer recess) programs and activities in the schools and communities;

(B) be based upon an established set of performance measures aimed at ensuring the availability of high-quality academic enrichment opportunities;

(C) if appropriate, be based upon evidence-based research that the program or activity will help students meet the challenging state academic standards and any local academic standards;

(D) ensure that measures of student success align with the regular academic program of the school and the academic needs of participating students and include performance indicators and measures described in section 4203(a)(14)(A); and

(E) collect the data necessary for the measures of student success described in subparagraph (D).

F. Periodic Evaluation—(ESSA. Sec. 4205 (b)(2))

a) In general, the program or activity shall undergo a periodic evaluation in conjunction with the state educational agency’s overall evaluation plan as described in section 4203(a)(14), to assess the
program’s progress toward achieving the goal of providing high-quality opportunities for academic enrichment and overall student success.

b) Use of results—the results of evaluations under subparagraph (a) shall be:
   
   (i) used to refine, improve, and strengthen the program or activity, and to refine the performance measures;
   
   (ii) made available to the public upon request, with public notice of such availability provided; and
   
   (iii) used by the state to determine whether a sub grant is eligible to be renewed under section 4204(j).
Part 4. Washington (WA) State Program Requirements

WA State Priorities for Funding
1. Highest levels of poverty, 80 percent or more based on the free or reduced-price lunch eligibility.
2. Schools who are implementing comprehensive support and improvement activities or targeted support and improvement activities.
3. Applicants that do not currently have a 21st CCLC grant as of September 1, 2019.

WA State Requirements for Funding
A previously funded 21st CCLC program whose sub-grant is ending August 31, 2019, is eligible to apply for new grant funds. However, such programs should understand that they will follow the competitive process for determining new subgrant awards and no special consideration will be given for having received a prior sub-grant. In addition, previously funded subgrantees must have resolved all monitoring findings and submitted all program information, end of program reports, Youth Program Quality Intervention (YPQI) and the U.S. Department of Education’s 21st CCLC’s data collections system to capture program characteristics, services, data, outcomes, known as 21 APR, and final budget revisions before new or additional funding can be awarded.

Eligible Entity Partnership Requirements
An eligible entity partnership is a requirement for funding. An eligible entity partner may only submit/participate in one application annually. The partnership must include a school district(s) or Local Education Agency (LEA) with designated high-poverty schools that are providing Part A Title I eligible or serving, and at least one community-based external organization. For the purpose of this grant, an Educational Service District (ESD) is considered an LEA, and a partnership between an ESD and a school district, or two or more school districts would not be considered an eligible entity partnership without the inclusion of a community-based external organization as a primary partner. Some rural remote schools may be exempt from the partnership requirement, if the LEA demonstrates that it is unable to partner with a community-based organization in reasonable geographic proximity and of sufficient quality to meet the requirements.

Please note that a jointly submitted application does not automatically qualify as a partnership. An organization contracted to provide services and applications proposing to subgrant a significant portion of their award is not a partnership. Applications submitted without evidence of an eligible entity partnership demonstrated by a formal signed Memorandum of Agreement (MOA), evidence of partner contributions in the budget narrative, and a separate formal data-sharing agreement will not be considered for funding.

To be considered as an eligible entity partnership, there must be evidence that:
1. The school district administration and at least one community-based external organization collaborated extensively in the planning and design of the program.
2. Each partner organization has substantial roles to play in the implementation of the program; delivery of services, program evaluation, and program improvement plans over the duration of the project.
3. All partner organizations share program resources to carry out their roles, and contributions as reflected in the budget narrative as in-kind or direct support.
4. All partners have significant and ongoing involvement in the management and oversight of the program.
5. The partners and the fiscal agent signed a formal MOA that states the fiscal agent will use fiscal control and fund accounting procedures. To ensure proper disbursement of, and accounting for, federal funds paid to the applicant under the program and in the event of an audit exception, shall repay federal funds upon completion of audit resolution.
6. The MOA also identifies all partner obligations and contributions for cash and in-kind contributions, as well as contracted services, if applicable.
7. Eligible entity partners engage in collective planning, implementation, evaluation, and planning for sustainability.
8. A current signed data-sharing agreement amongst all partners.

**Program Design Requirements – Staffing**

Programs must employ a .5 Full Time Equivalent (FTE) or greater Site Coordinator (responsible for overseeing a site) and a .5 FTE or greater Director (responsible for meeting grant requirements and supervising site coordinator(s)), and salary and benefits must be adequate to employ highly qualified individuals in this role. Applicants with multiple 21st CCLC awards may employ an Assistant to provide supervision and support grant requirements. Single-site applicants may employ a .75 FTE or greater combined Coordinator/Director.

**Intensity and Duration of Services-School Year**

Programs will operate 32 weeks (not inclusive of school breaks) from September through June and/or up to the last week of the regular school year, with a total of 12 hours in a typical week, at least 4 days per week, and at least two hours a day. The 21st CCLC program is not a drop-in program. Students must attend a minimum of 30 days to be considered a regular attendee, and 60 percent of regular attendees are expected to attend 60-90 days or more to benefit significantly from the program. It is expected that 75 percent of enrollees will be regular attendees. Programs are most effective when they target struggling students who attend regularly for significant periods of time.

**Intensity and Duration of Services-Summer**

Programs must develop and implement a summer learning program that operates a minimum of 20 hours a week, for a minimum of 4 weeks, to a targeted population of students that are at risk of summer learning loss. Summer programs should serve regularly attending students for the duration of the four-week program. Ideally, the program will serve the regular attendees of the school year program and collaborate with other programs providing summer services to enhance and expand the offerings for the targeted population.

**Family Engagement and Educational Services Requirement**

Community learning centers are required to offer a minimum of two hours per month to families of students served that provide opportunities for active and meaningful engagement in their children’s education, including opportunities for literacy and related educational development. Family literacy services and related educational development opportunities are defined as services provided to participants on a voluntary basis that are of sufficient intensity in terms of hours, and of sufficient duration, to make sustainable changes in a family.
Family literacy services that may be funded using 21st CCLC funds include, but are not limited to, the following:

1. Parent leadership development that leads to power sharing with school and out of school time leaders,
2. Reading and literacy classes that support and strengthen reading, writing, speaking and listening skills,
3. Adult education classes,
4. GED completion classes,
5. English language literacy classes,
6. Employment and interview support classes,
7. Parent education,
8. Parent engagement workshops taught in the home language(s) of students and families served, and
9. Programs that support the role of community and family trainer-of-trainers model.

Training and Travel Requirements for Program Staff
The Program Director, Site Coordinator, and Evaluator must attend three to four days of YPQI training, depending on their prior training, and Directors and Evaluators must attend two all-day Directors’ meetings. Please review the grantee activity calendar with important dates for in person trainings and webinars.

Program Costs
While the cost of operating a 21st CCLC program varies considerably from location to location, the average cost in 2016–17 was approximately $1,000 per participating student. This is an average, and there was significant variation in both cost per site, cost per student depending on location, activities offered to students and families, and partner contributions.

Carryover Policy
Programs may carryover on an annual basis five percent of their total allocation, if five percent remains unspent from the previous year. Carryover dollars become available in November of the following program year. OSPI may withhold unspent dollars in the subsequent program years if there is an apparent pattern and a return of a large percent of the grant award.

Renewability of Awards Policy
OSPI may renew a subgrant to an eligible entity, based on the eligible entity’s performance during the preceding subgrant period. At this time, OSPI will not implement the renewability clause in ESSA to extend a grant beyond five years, pending non-regulatory guidance from the U.S. Department of Education.

Program Income Policy
The intent of the 21st CCLC program is to establish programs that offer academic assistance and enrichment to students in need and their families. Any activities that result in program income are subject to audit and monitoring of the activities. Before any activities take place that may result in program income the applicant must request in writing, and have approved by the OSPI 21st CCLC program supervisor:
• the anticipated source and amount of proposed income
• the agency’s proposed system of accounting that will accurately track and report on both the collection and expenditure of the income on a periodic basis during the fiscal year
• a description of how the income will be used to support the 21st CCLC program, and an assurance that all income will be used exclusively to fund the 21st CCLC activities as approved in the grant application.

Programs generating income must demonstrate that the cost of operating the program exceeded the amount of the grant award to avoid a reduction in the grant award. 2 C.F.R. Part 200.307 (e)(1) indicates that ordinarily, program income must be deducted from the total allowable costs of the program.

Expanded Learning Time Policy (ELT)
A state may support enrichment and engaging activities as part of an expanded learning program that provides students at least 300 additional program hours before, during, or after the traditional school day. OSPI does not offer an ELT option for 21st CCLC. In order to serve the number of 21st CCLC youth and provide the most impactful out-of-school time programming, OSPI utilizes current 21st CCLC funds to support 21st CCLC applicants and grantees for out-of-school-time programmatic activities only.

Indirect Expenditures
Indirect costs are the expenses incurred by a school district, community-based external organization, or other entity in administering or providing program services that are not easily quantifiable. OSPI following an agreement with the U.S. Department of Education (ED), establishes indirect expenditure rates allowed on federal grants awarded to school districts, community based organizations, and institutions of higher education. This agreement prescribes the method of rate computation and the resulting rates establish the maximum amount of indirect expenditures that may be claimed for a federal grant.

Programs Must be Evidence-Based and Effective
Programs must indicate how they meet the “measures of effectiveness” described in the law. According to statute, programs must engage in an assessment of objective data to determine their need for before-school and after-school programs, and the needs of students and families served. They must establish a set of performance measures aligned with the state’s 21st CCLC performance indicators and their own local goals, and where possible, they must adopt evidence-based practices that have been shown to be effective.

Evidence and Scientifically-Based Practices
This refers to practices that have undergone rigorous evaluation and have been shown to be effective. Such programs have typically been evaluated through experimental trials, and positive outcomes have been published in peer-reviewed journals. For information regarding scientifically-based practices for 21st CCLCs, please view the following websites:
1. You for Youth: You for Youth Website (see free resources, afterschool)
2. Youth Thrive: Youth Thrive Website
3. David P. Weikart Center: http://cypq.org
4. Beyond the Bell at American Institutes for Research: Beyond the Bell Website
5. Expanding Minds and Opportunities: Expanding Minds and Opportunities Website

21st CCLC Local, State, and Federal Accountability
The program is evaluated at the local, state, and federal levels, each with a different evaluation focus and corresponding reporting requirements. Please refer to the following website for detailed information, 21st CCLC Evaluations. The U.S. Department of Education has specified student outcomes and program implementation targets related to the goals of the program. OSPI reports annually on the progress subgrantees are making toward meeting the targets. Successful applicants use student data to design programs to meet student needs, monitor student progress, and measure student outcomes.

Local Evaluation
21st CCLC programs are required to conduct an annual local independent evaluation of the program’s effectiveness and submit an annual evaluation report to OSPI. The evaluation is used to support continuous local program improvement. The evaluation should identify program strengths and used as a resource to identify areas of improvement. The evaluation should measure progress in meeting the program goals and objectives, in meeting the state and federal performance indicators, and progress in increasing student achievement. Programs must procure a local independent evaluator and obtain/document quotes from a reasonable number of qualified sources (at least three quotes per RCW 28A.335.190). Evaluation results must be made public upon request.

State Evaluation
Washington contracts with an independent evaluation firm to evaluate the effectiveness of the 21st CCLC program statewide and to identify specific needs for continuous improvement, professional development, monitoring, and technical assistance. The state evaluation model incorporates data and evaluation results provided by grantees on an annual basis. Grantees will be required to complete annual staff, site coordinator, and student surveys as part of the statewide evaluation activities. Program directors, site coordinators, and evaluators need to become familiar with online reporting systems that are supported by webinar trainings.

In addition, site-level staff will be required to complete the YPQA or School-Age Program Quality Self-Assessment (SAPQA), and program evaluators will be required to complete two respective external assessments for each site. For additional information on Washington’s quality improvement system, see 21st CCLC YPQI.

Federal Data Reporting
The state complies with U.S. Department of Education reporting requirements, including information regarding programs, centers, student characteristics, state activities, and progress in meeting federal performance indicators. The state provides all student assessment data, exported directly from the state student data warehouse, and subgrantees submit the remainder of the data. Federal data is incorporated directly into both the local and state evaluation frameworks to measure progress in program implementation and performance. Data reports are used to monitor program performance and compliance and provide information regarding state and local progress in meeting Washington state 21st CCLC Performance Indicators.
Part 5. Washington state 21st CCLC State Performance Goals and Objectives

Washington has established a set of State Performance Indicators that measures statewide and individual program success. Individual program performance indicators must align with state performance indicators, and additionally, may address local needs and interests.

State Goals

1. To establish community learning centers that provide opportunities for academic enrichment, including providing tutorial services to help students, particularly students who attend low-performing schools, to meet the challenging state academic standards.
2. To offer students a broad array of additional services, programs, and activities, such as youth development activities, that align with the regular academic program and needs of participating students.
3. To offer families of students served by community learning centers opportunities for active and meaningful engagement in their children’s education, including opportunities for literacy and related educational development.
4. To offer high-quality expanded learning opportunities that lead to positive outcomes for participants and meet the proposed purpose and requirements for program implementation.

Student Outcomes Objective—Participants in 21st CCLC programs will demonstrate improvement on academic and behavioral school-related outcomes.

¹ Tutorial services to help students, particularly students who attend low-performing schools, to meet the challenging State academic standards.
² Youth development activities, service learning, nutrition and health education, drug and violence prevention programs, counseling programs, arts, music, physical fitness and wellness programs, technology education programs, financial literacy programs, environmental literacy programs, mathematics, science, career and technical programs, internship or apprenticeship programs, and other ties to an in-demand industry sector or occupation for high school that are designed to reinforce and complement the regular academic program of participating students.
Part 6. Application Instructions-Form Package #894

The abstract and the narrative must adhere to the following formatting: 11 point Calibri font, 1.5 spacing, and 1 inch margins, a maximum of 28 pages allowed. Applications must follow the Narrative Outline above including all numbered headings in the order provided.

Applications that are incomplete, do not follow the formatting instructions, are late, have unsigned or outdated assurances, unsigned, incomplete or outdated MOA(s), and data sharing agreement(s), or organizational charts that don’t represent the 21st CCLC Program oversight and management, will not be considered for review. Applications submitted without evidence of an eligible entity partnership, a formal MOA, a 21st CCLC Project Organizational Chart, and a formal Data-Sharing Agreement will not be considered for funding.

Applications, including all required signatures, must be submitted by 4pm on May 30, 2019. Applicants are required to submit proposals using the iGrants system (iGrants user manual: EDS – iGrants User Manual). If you are unfamiliar with iGrants, please give yourself plenty of time to fill out and upload all requested documentation into the iGrants system for a complete application.

PROCEDURES FOR GAINING ACCESS TO iGRANTS
OSPI iGrants and Customer Support staff do not create EDS User Accounts. All NEW users need to create their own EDS account from the main login page by selecting the tab called “Create an Account” and following the instructions. Existing users may login to EDS using their email address as their username and, if the password or username is not known, use the “Forgot your username or password?” link at the bottom of the sign-in page.

School Districts/Schools: After creating your EDS account, contact your District Data Security Manager, and request the iGrants User role for your school or district.

ESD/College/University: After creating your EDS account, have your supervisor email CustomerSupport@k12.wa.us with approval for you to have the iGrants User role at your organization.

All Other Organizations: After creating your EDS account, email CustomerSupport@k12.wa.us with the following information:
  • Your first and last name
  • Your email address
  • Legal name of your organization
  • Street address of your organization, city, state, zip code
  • Business phone (with area code)

Please NOTE: It may take up to 48 hours for Customer Support to respond to your request; please plan accordingly.
PROCEDURES FOR SUBMITTING YOUR FORM PACKAGE IN iGRANTS

Please be aware that the iGrants system will close down at 4pm on May 30, 2019. Allow enough time for your proposal to be routed in-house through the designated iGrants Administrator. Please follow these instructions for final submission.

1. Required Pages– Before the iGrants system will allow submission of any form package, the Required Pages must first be completed. The objective is to get a check mark in the Required Pages icon. To do that, you must open each tab, complete the information, then save and mark the page completed. Click on the Required Pages icon to open up the tabs. Once all tabs are marked completed and display the check mark, the Required Pages icon will also display a check mark.

2. Finish Tab– When you have marked all form package pages completed, click on the Finish tab. You can now move on to the Notify tab or set the form package back to draft. Clicking the Finish tab will change the form package status to Finished.

3. Notify Tab– Clicking the Notify tab brings up an email. Add comments, and click on Send Message.

4. For districts or ESDs– The email will notify the in-house person designated as the iGrants Administrator and will change the form package status to Under Org Review. The final step is for the designated iGrants Administrator to go to their iGrants Administrator Console to submit the form package to OSPI. This step will change the form package status to Requested OSPI Approval.

5. For colleges/universities and other organizations, such as community based organizations– Sending the email from the Notify tab will directly notify the OSPI program contacts of your submission, and change the form package status to Request OSPI Approval.
Part 7. Proposal Requirements

A proposal has seven required sections. The required sections are iGrants pages and uploaded attachments in iGrants. Please read the instructions carefully.

1. **A Contact Page**, completed in iGrants; (required, no points).
2. **An Eligible Entity Partnership and Assurance Page**, completed in iGrants, printed, signed by eligible entity partners, scanned and submitted as an attachment in iGrants; (required, no points).
3. **A Program Profile Page**, which includes site profile information, subject and curriculum information, partnership information, grant amount requested, etc., to be completed in iGrants, and Funding Priorities.
4. **A Program Abstract**, (1 page) submitted as an attachment in iGrants. The abstract is a short and powerful statement that describes the scope of work in the grant application. It may contain, but is not limited to; the purpose, proposed outcomes, populations served, background information, etc. (required, no points).
5. **Proposal Narrative** (28 pages maximum) submitted as an attachment in iGrants, has 5 sections:
   a) Need for Program.
   b) Quality of Project Design.
   c) Management Plan.
   d) Data Collection and Evaluation.
   e) Promise as a Model.
7. **Required appendices** uploaded as attachments in iGrants
   a) Job descriptions.
   b) A 21st CCLC program organizational chart.
   c) Current, signed Memorandum of Agreement (MOA) between eligible entity partners.
   d) Current, signed Data-Sharing Agreement between evaluators, school principle(s), and eligible entity partners.

**Proposal Narrative**—which describes in detail the high quality 21st CCLC program you would implement with the funding—needs to respond to the general provisions above and the instructions below.

All narrative pages must be numbered consecutively beginning with number one (1) on the first page of the narrative through to the end. The abstract and the narrative must adhere to the following formatting: 11 point Calibri font, 1.5 spacing, and 1 inch margins, a maximum of 28 pages allowed. Applications must follow the Narrative Outline above including all numbered headings in the order provided.

a) **Need for Program**

Applicants are required to evaluate the community needs and available resources for the community learning center and describe how the program will address those needs (including the needs of working families). For each proposed site, provide objective data supporting the unmet need for
before-school and after-school programs in your community including a summer program. Data should be current and should include community and site specific needs.

1. For each site, provide the number and percent of students who qualify for free and reduced-price lunch, the percent of students scoring below proficiency in math and reading, and the percent of students who are English language learners. For high school sites, please include dropout statistics, Healthy Youth Survey data, and any other compelling objective data demonstrating local unmet need.

2. Describe any during-school programs currently serving your target population, and explain why these services are insufficient to meet identified needs.

3. Describe the academic, social, emotional, cultural, physical health, and development assets and needs of the students and families to be served.

4. If parents and/or youth have been surveyed about their assets, needs and interests, please include a summary of survey results, the number surveyed, and dates that surveys were completed.

b) Quality of Project Design

Programs are required to demonstrate that they will use best practices, including research or evidence-based practices, to provide educational and related activities that will complement and enhance academic performance, achievement, postsecondary and workforce preparation, and positive youth development of the students served.

1. Provide a table that outlines in detail program goals, measureable objectives, activities, measures of student success, timelines and responsible staff. (Identify time and frequency of activities provided, for before and after school hours, days each week, weeks per year, summer school).

2. The applicant includes at least 4 program goals in the table, specifically aligned to the state performance goals for 21st CCLC, regarding improvement in student behavior, academic achievement, and quality program implementation.

3. Describe the measures of student success and how they align with the regular academic program of the school and the academic need of participating students, and how they will be used to plan program activities and monitor student progress.

4. Describe how the activities are expected to improve student academic achievement as well as overall student success and related activities.

5. Describe how the program will use best practices, including research or evidence-based practices, to provide educational and related activities that will complement and enhance academic performance, achievement, postsecondary and workforce preparation, and positive youth development of students.

6. Bonus Points—Describe how the program is implementing Social Emotional Learning strategies to the targeted students described in the application.

The Goals, Measurable Objectives, Measurement Tools, Activities, and Timeframe Table submitted must look like this in landscape format.

Describe at least four program goals in the table, specifically aligned to the state performance goals. At least one goal should measure student academic gains in mathematics and/or reading and/or science.
One goal should measure quality program implementation and improvement strategies. One goal should measure active and meaningful family engagement and educational opportunities.

<table>

<tr>
<th>Goals</th>
<th>Measurable Objectives</th>
<th>Measurement of Student Success</th>
<th>Activities</th>
<th>Timeframe</th>
<th>Responsible Staff</th>
</tr>
</thead>
<tbody>
<tr>
<td>1.1) Example-Students who participate regularly in the afterschool program will show improvement in math and reading.</td>
<td>1.2) Example-75% of regular attendees will meet or exceed proficiently levels on local academic assessments in math and reading.</td>
<td>1.3) Example-STAR Reading/STAR Math scores, etc.</td>
<td>1.4) Example-Targeted Intervention s such as...</td>
<td>1.5) Example-Daily, or Weekly. School year and/or Summer programming.</td>
<td>1.6) Example-Academic Coaches, Para-educators, etc.</td>
</tr>
</tbody>
</table>

Goals (Global Outcomes): Program goals (e.g., “Improve Academic Performance,” “Increase Positive Student Behavior,” and “Increase Family Engagement and Education strategies,” and “Increase Quality Improvement and Program Implementation Strategies”) are very broad, realistic, and directly align with the needs or gaps identified in previous section. Goals must be numbered (i.e., “1,” “2,” “3”). Programs must have at least four broad goals and at least one goal must address adult family member involvement.

Measurable Objectives and Measurement Tools (Specific Outcomes): For each goal, the applicant must include specific objectives with accompanying performance measures that are quantitative and challenging, yet achievable (e.g., “80 percent of regularly participating students) (i.e., students who attend at least 40 percent of operational days–30 days or more) will show improvement in reading comprehension abilities, as demonstrated by measures of significant growth on standardized testing (annual), short-cycle assessments, and report card grades.”). Each student and family-based objective must be performance based and must be able to be continuously measured throughout the year. Objectives must be numbered using a two-number system per the example table. The first number will be the same as the goal to which the objective belongs, and the second number will be the unique number for that objective within the goal (e.g., “1.1,” “1.2,” “2.1,” “2.2,” “2.3”) All goals must have at least two measurable objectives. These measurable objectives will be monitored and continued funding is likely to be dependent on achieving the objectives from evidence of progress and student data.

Measures of Student Success: Measures of student success must align with the regular academic program of the school and the academic needs of participating students and must be used to track student success and improvement over time. For example, state assessment results and other indicators of student success and improvement, such as improved attendance during the school day, better classroom grades, regular (or consistent) program attendance, and on-time advancement to the next grade level. High school students, you may include indicators such as career competencies, successful completion of internships or apprenticeships, or work-based learning opportunities.
Activities /Timeframe/Responsible Staff: Activities are even more specific than objectives. They explain who will do what, when, where, and for how long. Applicants must include specific activities that will clearly allow the program to progress towards the stated objective(s). An applicant shall design and implement its activities based on research or evaluation that provides evidence that the strategies are proven effective in improving student performance. Following each activity, the applicant must indicate the timeframe that each activity will be occurring (e.g., “daily throughout year,” “monthly throughout year,” “weekly during third nine-week semester,” and “daily during summer session”).

Participant Recruitment and Retention
1. Describe how your program will identify, target and recruit both students and their families.
2. Describe how you will inform and engage private schools and eligible private school students, eligible Tribal Compact Schools and eligible Native American Students, and homeschoolers in 21st CCLC Program services. Students that reside within the catchment area of a 21st CCLC program, and meet the targeted students served by the grant are eligible to participate in the afterschool program.
3. Describe the strategies you will use to maintain enrollment over time (utilizing student interests and creativity, leadership, activity-based learning, effective partnerships, etc.).
4. Describe how information about the center and program services will be disseminated to the wider community.

Family Engagement and Education Strategies
1. Describe how the program will offer families opportunities for active and meaningful engagement in their children’s education, including opportunities for literacy and related educational development. To support engagement and family education, strategies must improve families’ educational attainment and civic engagement, and enhance students’ development and academic success. Family engagement strategies should be ongoing and sustained.

Linkages to School and District
1. Describe the ways in which the program will connect to the regular school day; including such things as, regular communication with the principal, teachers, and school support staff, shared staff, membership on the School Improvement Team or other leadership groups, homework policies and practices, and use of space.
2. Describe how the program activities will be targeted to the students’ academic and behavioral needs, and how instruction will be aligned to the curriculum and instruction of the regular school day.

Transportation and Safety
Federal guidance advises that there can be no barriers preventing students’ participation in 21st CCLC. Programs must offer students a means of transport. Applications must include a written transportation plan between partners that includes:
1. Written agreements and/or contracts with transportation providers (i.e., the school district, public transit, etc.),
2. Describe how the program will ensure age-appropriate and safe transportation and how the participants will get to the program, get home from the program, and travel to off-site programs or activities.

3. Describe how you will ensure that the center is a safe and accessible site.

**Notification of Intent to Apply/Dissemination of Information to the Community**

1. Describe how the program will disseminate information about the community learning center (including its location) to the community in a manner that is understandable and accessible.

2. Describe how the community will be given notice of an intent to submit an application and that the application will be available for public review after submission of the application.

**c). Management Plan**

1. Describe your organizational staffing design and attach an organizational chart that clearly shows supervisory responsibilities. Please include the full time equivalent (FTE), percent full-time or hours per week of each staff member paid under 21st CCLC. (For example, the site coordinator may be .8 FTE, or 80 percent full-time, or work 32 hours a week).

2. Describe what qualifications and background or experience you will require of the program director, site coordinator(s), and direct service staff. Include job descriptions and qualifications for directors, site coordinators, and direct service staff (as attachments in iGrants). Describe how the director, site coordinator(s), and direct service staff will fit into the existing structure of the school or organization. The degree to which this person is involved in other districts or organizational capacities, and how and by whom they will be supervised.

3. Identify strategies to recruit and maintain high-quality staff that will facilitate the implementation of student-focused, learning that aligns with the challenging state academic standards and goes beyond the traditional classroom activities.

4. Describe a professional development plan that will support the following:
   a. Implementation of the 21st CCLC goals, objectives, and activities.
   c. How the program will provide ongoing professional development, training, evaluation. Dissemination of promising practices, and coordination of professional development for staff in specific content areas and youth development.
   d. How the program will participate in the required Program Quality Assessment, staff development, training, and program improvement planning.
   e. Provide ongoing opportunities for staff to meet with site coordinators and each other to reflect on progress. Opportunities for staff collaboration are expected to be sustained, coherent, take place at regular times, and part of staff’s professional (paid) responsibilities.
   f. Provide reflective feedback/coaching regarding their practice.

5. Provides a detailed plan and timeline for program implementation, monitoring of progress, and continued planning among the partners the first year of your grant. (Programs are expected to be staffed and operational, providing services to targeted students and families by September 30 of the first year of funding and by the second week of the school year in future years).

6. If you plan to contract for services, name the organization and describe their qualifications to provide the designated services.
d) **Data Collection and Evaluation Plan**

A strong data and evaluation plan will shape the development of the project from the beginning of the grant period. The plan should include strong measurable program goals and objectives that align with Washington 21st CCLC program goals, objectives, and performance indicators. The outcome measures you select to assess the program’s impact on participants should align with the measures identified in the state performance plan.

1. Identify the individual(s), organization(s), or entity(ies) that will conduct the independent local evaluation, including a description of the qualifications of the evaluator, educational background, and experience in evaluating similar programs.
2. Outline specific methods, timelines, responsible staff, and data to be collected for local and state evaluation (including staff, manager and student surveys) of program and participant performance that clearly relates to the intended goals and outcomes of the project.
3. Outline specific methods, timelines, and staff responsible for Youth Program Quality Intervention including preparation and completion of site level team self-assessments, external assessments by the local evaluator, uploading scores in scores reporter, and developing improvement goals and supports.
4. Describe the strategies for using data and evaluation results on an ongoing basis to monitor student and program progress, promote continuous program improvement, provide information to stakeholders, and promote sustainability.
5. Provide a signed data-sharing agreement in the appendices that will be implemented between the school districts, school principals, and agencies providing service to ensure that pertinent student specific data, academic records, student achievement results, and student surveys are collected, shared, and accurately submitted to the federal data reporting system in a timely manner. Data-sharing is an integral and required element of effective program partnerships.

e) **Promise as a Model**

1. Provide data and evidence of previous experience and success of the applicant and/or partners (e.g., positive student academic and behavioral outcomes) in operating out-of-school programs targeting similar youth populations to be served by the proposed 21st CCLC program. The applicant must provide evidence that otherwise demonstrates experience or the promise of success in providing educational and related activities that will complement and enhance the academic performance, achievement, assessment, program monitoring, and positive youth development of the students.
2. Describe the process used to identify partners and collaborators. How they were involved in the development of the application, and how each partner’s contribution(s) will help meet the program’s needs and goals. Identify the specific name of each community partner who has agreed to provide services and/or activities as part of the proposed community-learning center, and a clear description of their contribution to the goals and objectives of the program.
3. Describe how the project will collaborate with other agencies and how 21st CCLC funds may be braided with other federal funds to supplement not supplant (e.g., Title I, Title II, Migrant and Bilingual, Title IV A. Child Nutrition, and Temporary Assistance for Needy Families), state, and local programs to achieve program goals. Summarize the type of contributions (e.g., in-
kind support, staff development, transportation, facilities, equipment, cash) made by each of the local partners, regardless of the contribution amount.

4. Outline a sustainability plan. A sustainability plan must specify how the program will accomplish sustainability after the grant period has concluded. Include a description of current public/private partnerships, the plans to expand these partnerships, and the plans to develop public/private partnerships. The sustainability plan will use effective realistic means to maintain funding and continue the program. The applicant will provide evidence of understanding the commitment of sufficient in-kind/matching funds in years 3 and 4 to continue the original level of service to the original number of students proposed to be served.

f) Budget Narrative
In iGrants, complete the budget narrative in the budget narrative section; you will explain in detail how funds will be spent. Include all categories in the narrative, and provide detailed cost calculations that are reasonable, necessary, and allocable for specific items of expenditure for each of the following categories:

1. **Certificated and Classified Staff**
   For example, a project director is responsible for the overall management of the grant and supervision of site coordinators. A site coordinator is the lead at a community center and may participate in the recruitment and hiring of staff and volunteers, lead the development of the curriculum, and be the site lead for safety. Certificated and classified staff are engaged in direct instruction during afterschool hours, etc.

2. **Benefits and Payroll Taxes**
   For each 21st CCLC employee provide the percentage per FTE for benefits and payroll taxes, and the amounts for certificated and classified staff.

3. **Supplies/Materials**
   Refers to expenses associated with the general operations of the overall program and typically are consumed within a short amount of time (e.g., instructional supplies, postage, office supplies, etc).

4. **Instructional Resources**
   Refers to instructional materials, materials that support youth development activities, curriculum materials, workbooks, audio-visual and electronic devices, etc.

5. **Purchased Services**
   This object is used to record expenditures for services and associated goods from independent contractors or service providers that are rendered to the fiscal agent under expressed or implied contracts.

6. **Travel** (Required to administer the program and for continued funding).
   a) OSPI requires the program director and evaluators to attend two, overnight, in-state director/evaluator meetings—one on the Eastside and one on the Westside. These are required for continued program funding. Budget for the director, site coordinators, and at least two front-line staff to attend a two-day Summer Institute that is alternately on the Eastside and the Westside.
   b) Plan for staff (director, evaluator, site coordinators, and one front-line staff from each center) to attend three days of YPQI training. These trainings will be provided by OSPI,
School's Out Washington (SOWA), and the Weikart Center. 21st CCLC staff that are trained in YPQI are not required to attend duplicative trainings.

c) All travel sanctioned under this grant is specifically for 21st CCLC support and does not permit non-21st CCLC staff to travel under these funds.

7. **Transportation**
   Include the cost of transporting students to and from the after-school program. If a partner provides transportation, please estimate the value of the contribution and include the amount in your budget narrative under Cash Value of Contribution. Provide specific information in the budget for the costs of events such as a field trip.

8. **Professional Development**
   Provide the costs associated with the regular and ongoing professional development activities you will offer your 21st CCLC staff.

9. **Evaluation**
   Provide the hourly or daily rate X number of hours/days anticipated, including federal data reporting assistance, local evaluation report costs, travel, YPQI observations, lodging, etc. associated with the costs of an independent evaluator. Please budget for your evaluator to attend approximately three days of OSPI meetings/training. Allow no more than ten percent of the budget for evaluation.

10. **Conferences**
    Provide the costs associated with conference attendance—travel, registration, hotel, per-diem to improve the 21st CCLC staff’s professional development. All travel sanctioned under this grant is specifically for 21st CCLC support and does not permit non-21st CCLC staff to travel under these funds. Please limit out of state travel for conferences per staff member to one per year. Occasionally the U.S. Department of Education offers a Summer Institute for 21st CCLC grantees, if offered you may attend two out of state conferences per year.

11. **Facilities**
    Provide the cost associated with facilities rental or lease agreements to house the project.

12. **Youth Program Quality Intervention/Assessment (YPQA) materials**
    Programs are required to purchase a box set of materials and required training directly from the David P. Weikart Center. Programs may also be responsible for purchasing additional trainings through SOWA. New Sites will need to allocate $1,200 per site for guidebooks, handbooks, posters, registrations for webinars and live trainings. Programs may be responsible for purchasing additional trainings and materials from the Weikart Center or Schools Out WA. Services, materials and trainings that will be included in each box set for a team per site.

g) **Required Appendices** submitted as attachments in iGrants:
   a) Job descriptions and required qualifications for program director, site coordinator(s), direct service staff, and local evaluator.
   b) A 21st CCLC program organizational chart showing primary partner responsibilities for fiscal authority, lines of operational authority, including supervision for directors, site coordinators, all direct service staff, and data and evaluation staff participating in the provision of 21st CCLC program services, (directly or in-kind). Partner organizational charts will not be accepted.
c) An MOA must be executed by the applicant and partner(s) detailing commitments and uploaded as an attachment. An MOA should be utilized with partners who help identify and recruit children with academic needs and provide space, equipment, activities, curriculum, professional development, staffing, and/or volunteers, or fiscal support. Include detailed responsibilities between partners that will be making significant ongoing contributions to the project operations, including design, implementation, evaluation, and continuous improvements for the duration of the project.

d) Current signed Data–Sharing Agreement, signed by the participating school district superintendent(s), and the school principle (or designee) and the Chief Administrator(s) from the community-based external organization(s). The agreement should be specific enough to ensure the program meets the data collection, reporting and sharing requirements outlined in assurances, and the Data Collection and Evaluation section of the narrative.

Procedures for Reviewing Applications and Awarding Funds
Applications will be pre-screened by OSPI staff for eligible entity partnerships, completeness, and required formatting. Late applications, ineligible partnerships, incomplete applications, improperly formatted applications or applications with outdated and/or unsigned assurances, or MOA(s) will be eliminated from the competition by OSPI staff. Applications that appear to OSPI to be substantially similar to other applications submitted, appear to be duplicates of others, or do not appear to be written for the applicant school or site may be disqualified. OSPI will be evaluating the risks posed by applicants before they receive federal awards. The Risk Assessment Questionnaire includes financial stability, quality of management systems, history of performance, past reports and findings from monitoring visits, the applicant’s ability to implement statutory and regulatory provisions. Any person or organization debarred from receiving federal funds is not eligible to apply for a 21st CCLC program award. OSPI uses a rigorous peer-review process to ensure the quality of funded projects. OSPI solicits peer reviewers by posting an informal solicitation to request applicants to apply who have expertise in academic enrichment, youth development, and related services to children and families. The external peer review team receives approximately 12 hours of training from OSPI staff in the 21st CCLC grant requirements. The external peer reviewers will read and score all qualifying applications and make recommendations for funding. An internal OSPI review team will review budget narratives for reasonable and allowable costs.

Consideration will be given to an equitable geographic distribution of grant funds. In the event of tied scores, projects with the highest poverty level will be awarded first. All funding will be subject to approval by OSPI. All applicants will be notified of the Superintendent’s action and have the right to appeal pursuant to “34 CFR 76.401.”
