World's Simplest Online Safety Policy

Students can access websites that do not contain or that filter mature content. They can use their real names, pictures and work (as long it doesn't have a grade/score from a school) with notification and/or permission of the student and their parent or guardian.

World's Simplest Social Media Policy

Will what you're about to share offend, surprise, or shock your current or future

- Classmates
- Teacher
- Friends
- Boyfriend/girlfriend
- Family
- Parents
- Employer
- Clients
- Business partners

in a way which critically jeopardizes your relationship?

If you answer even one "Yes" for this short list of people, think long and hard before publishing your content.

About OSPI

After a DECA competition, students post pictures of themselves at the event on a school Web page. Students in the photos are identified with their first and last names.

Should you ask the names to be removed?

Why or why not?
