

STRUCTURED FIELD TRIP

Today create a list of 5 questions you would ask tomorrow to help you determine if you would be interested in this career field.

- 1.
- 2.
- 3.
- 4.
- 5.

On the day of the field trip: take your journal and record answers for the following.

- What type of education/training would you need to get a job in **EACH** of the career areas we visited today?

- What skills or qualifications are required for each career area?

Choose the one career area we visited today that interests you the most _____

- Research different colleges/programs that offer education/training for the career area you chose.

- Identify the school and title of the program you would take to attain the required education/training for that career field.

- Explain why you chose that career field and what skills or qualifications you have that correspond to the requirements for that field.

Potential skills/qualifications

- Team player
- Math skills
