The **L.E.T.S. (Law Enforcement Training Simulator)** system will be available for participants of the ESD 105 School Safety Summit to view and explore on Thursday, Sept. 25th. This virtual reality simulator provides law enforcement and security personnel with challenging and realistic training in use-of-force.

The simulator is equipped with a variety of weapons, including: handguns, Taser, Bushmaster M-4 Patrol rifle and OC spray. With the virtual reality system, attendees are placed in a variety of scenarios demanding a split-second thought process. This simulator will help control use-of-force claims. More importantly, it will help save the lives of law enforcement officers and security personnel.
