

2010-2011 Supplemental Educational Services Approved Provider List

The No Child Left Behind (NCLB) Act of 2001 enables parents to select supplemental educational services for their children from the Office of Superintendent of Public Instruction's (OSPI) approved provider list. **Supplemental Educational Services (SES)** are tutoring or other supplemental academic enrichment activities beyond the regular school day. Services are to be of high quality, research-based, and designed to improve the students' academic achievement. Eligible students are those (1) not meeting OSPI **standards** in reading and/or math and (2) from low-income families.

SES providers were approved by OSPI in July 2010. Contact providers for more information about their services.

Pursuant to OSPI action, "the approval of these providers is provisional for one year at which time an evaluation shall be made of each provider's success in improving the academic achievement of students."

Click on the Educational Service District links on the map above to see lists of SES providers by geographic location.

Service Area: Statewide

PROGRAM DESCRIPTION

1 on 1 Academic Tutors, founded by a Harvard University graduate, is the premier provider of one-on-one and small group tutoring for students in Kindergarten through 12th grade. Our program specializes in Reading and Math and serves all students including those with disabilities and English language learners. Tutoring sessions are tailored to fit each student's needs and learning abilities, so that students receive the most effective instruction possible.

One-on-one tutoring takes place in the comfort, safety and convenience of your home or at a local public library—whichever is most convenient for you. Small group tutoring is conducted at school sites, public libraries, community centers or churches. All tutoring takes place at times outside of the regular school day, Monday through Friday, as well as on weekends.

After the teachers at 1 on 1 Academic Tutors assess your child's learning needs, they create a customized Individual Learning Plan for your child. These are designed to target specific skill sets for improvement. We carefully match students with teachers who have proven experience in your child's targeted areas for improvement. Students attend our tutoring sessions one, two, or three times per week, and each tutoring session lasts between one and two hours.

1 on 1 Academic Tutors creates a positive learning environment that encourages students to perform successfully in school. We recruit and hire highly-trained and educated teachers with a proven track record of success. Our teachers measure and monitor student progress and keep parents updated with their child's performance. We value ongoing communication and feedback between the parents and teachers, and setting student goals are an essential part to our students' success.

123 ABC Tutoring

Contact: Douglas Prather

Address: 1329 Maple Street
Everett WA 98201

Phone: 425-257-9650

Service Area: School District Specific Snohomish Co., King County

PROGRAM DESCRIPTION

123 ABC tutoring is a professional tutoring service that will provide confidential one on one teaching to K through 12 grade children. Helping them not only achieve their academic goals but also is able to maintain and build upon that knowledge for continued success. Tutoring will be available in the student's home, public library or school, during the hours that are most convenient for the parents and students.

Through our tutoring services, the student will become more proficient in areas that they need most help, with close relationships with the district and home school teachers, 123 ABC tutoring will ensure that each student has an assessment prior to starting the program, upon receipt of those results and information received from both the teachers and parents, an educational plan will be set up to address the areas that the student is deficient in. Monthly progress reports, showing the students progress will be given to the parents, the school, and the district.

123 ABC tutoring will work diligently for each student to help them achieve academic success; we feel that it is important that no matter how young a child is they receive the best possible instruction and access to resources to help them succeed in their academic career. Through our services that goal is possible.

Su hijo tiene derecho a recibir servicios de tutoría. Este es un beneficio pagado 100% por el Estado de Washington. Por medio de fondos del estado proporcionados por el programa "Title One" Que Ningún Niño se quede atrás. Educadores Profesionales aprobados por el estado, que enseñan a niños de, uno en uno, después de la escuela en su hogar o en la Biblioteca Pública. No se pierda de aprovechar esta oportunidad de ayudar a que su hijo tenga éxito en la escuela.

A Tree of Knowledge Educational Services

Contact: Brandon Edwards

Address: 10600 Sepulveda Blvd., Suite 107
Mission Hills CA 91345

Phone: 866-698-6537

Service Area: Statewide

PROGRAM DESCRIPTION

A Tree of Knowledge Educational Services (ATOK) exists to provide the finest quality tutoring for all ages and subjects. Our desire is to groom the character and learning abilities of our students in order to help them face and conquer the challenges of their educational career.

ATOK has successfully helped students achieve grade level proficiency for several years. Additionally, our students experienced a 1-2 grade level increase at the completion of our program. Our philosophy is that tutoring is used to accompany the ability to learn. We believe in "completing the student" and by that, we are able to stay focused on our main goal, which is always student growth and achievement!

We not only work with the students, but our tutors also arrange time to sit with parents and guardians to offer encouragement and guidance in how to best handle their child's curriculum and areas of need. We succeed together by creating a healthy partnership in advancing academic standards.

A+ Advantage Point Learning

Contact: Heather Young

Address: 17400 SW Upper Boones Ferry Rd, Ste. 250
Portland OR 97224

Phone: 503-570-8864

Service Area: Statewide

PROGRAM DESCRIPTION

A+ Advantage Point Learning has been providing free tutoring since 2003. Over 90% of our students meet their goals! We have a passion for providing free reading and math programs.

- Individualized instruction
- Each student receives targeted, customized curriculum
- Most programs offered at school
- 7 years of experience with K-12 students
- Over 90% of students meet or exceed goals
- Caring, professional educators
- Library of nearly 100 curriculum selections
- Handheld computers reinforce skills
- Kids experience success - building confidence and motivation

Students typically attend 2-6 learning sessions per week, 1-2 sessions per day. Sessions are 60-90 minutes depending on student age and ability. Our fun but focused setting helps students maximize their potential.

To learn more about Advantage Point Learning, please call 800-570-8864 or visit www.advantagepoint.org!

En Español:

A+ Advantage Point Learning ha estado proporcionando entrenamiento gratis desde el año 2003. Más del 90% de los estudiantes alcanzan la meta. Nuestra pasión es de proporcionar programas gratis de lectura y matemáticas.

- Instrucción individualizada- cada estudiante recibe un plan de estudios personalizado.
- La mayoría de los programas son ofrecidos en la escuela
- 7 años de experiencia con estudiantes de grados K-12
- Más del 90% de los estudiantes alcanzan sus metas o las sobrepasan
- Cuidadosos instructores profesionales.
- Casi 100 selecciones de estudios en la biblioteca
- Computadoras portátiles refuerzan los estudios
- Los niños experimentan éxito - estableciendo confianza y motivación

Los estudiantes atienden 2-6 sesiones a la semana. Las sesiones son 60-90 minutos y dependiendo de la edad y capacidad del estudiante. Nuestras clases se enfocan de tal manera que ayudan al estudiante a obtener el máximo del éxito en una manera agradable.

A+ Learning Solutions

Contact: Elsa Borell

Address: 3540 W. Sahara Avenue #436
Las Vegas NV 89102

Phone: 800-708-5590

Service Area: Statewide

PROGRAM DESCRIPTION

A+ Learning Solutions has been providing reading/language arts instruction to students-including English language learners-in kindergarten through 12th grade at no cost to parents under the No Child Left Behind program since 2005.

Our program is committed to improving your child's grades and test scores. Our mission is to provide instruction tailored to your child's individual needs and proficiency level in alignment with state standards. Highly qualified tutors provide face-to-face instruction and stay with the student throughout the entire session. Instruction may be one-on-one or in a very small group format.

On average our sessions are 60 to 90 minutes long twice per week. We are flexible in the duration of each tutoring session to accommodate student needs or school needs. Our program is taught at the child's school usually right after school whenever possible. Tutoring may also take place at the child's home or alternative public locations jointly agreed between all parties at times meeting the needs of the families: weekends, holidays, summer. Any location and time all parties jointly select is an option for tutoring. Tutors are available to report progress to parents following each session.

Give your child the benefit of high quality tutorial services. Give your child A+ Learning!

Abacus In-Home Tutoring, Inc.

Contact: Michael O'Malley

Address: 1030 Carrin Drive
Tallahassee FL 32311

Phone: 877-888-6720

Service Area: Statewide

PROGRAM DESCRIPTION

Abacus In-Home Tutoring, Inc. delivers the individualized instruction students need to meet their academic goals in reading and mathematics. Abacus specializes in working with all students in Kindergarten through twelfth grade, including those with disabilities and English language learners. For our in-home program, tutors travel directly to the student's home at times convenient to families. For our small group program (no more than 5 students per instructor), tutorial sessions are provided directly after school hours at safe and convenient public locations that are easily accessible by public transportation.

Abacus uses an individualized teaching model, emphasizing one-on-one attention and customized lessons. Abacus instructors are certified teachers or degreed professionals with a minimum of 60 college credit hours. All instructors must successfully pass all required background and reference checks, and must undergo mandatory initial and ongoing training to ensure a high quality program.

Abacus utilizes pre and post-assessments from Pearson Education including the KTEA II, the GRADE/GMADE and the R/MLI. Once the student has been assessed, Abacus staff meet with parents/guardians and school district staff to incorporate student test data, IEP and/or 504 plans (where applicable), learning styles and preferences. An individualized student learning plan (SLP) is then created for each student with goals that are aligned to the Washington EALRs. Abacus uses Pearson curriculum materials, all of which are aligned with the Washington EALRs in both reading and mathematics, as well as the National Reading Panel and the National Council of Teachers of Mathematics.

Parents, teachers and school district staff receive written progress reports each month outlining the student's progress toward the goals from the SLP. Progress reports are available in English and Spanish but Abacus will make every effort to accommodate speakers of all languages. Students who complete the Abacus program show an average of a year's worth of growth!

Aberdeen School District

Contact: Shawn Dickson

Address: 216 North G Street
Aberdeen WA 98520

Phone: 360-538-2018

Service Area: ESD 113 Olympia

Aberdeen School District

PROGRAM DESCRIPTION

The Aberdeen School District Supplemental Education Program provides small group instruction in Reading and Math for qualified students in grades Kindergarten through 12.

Services will occur before and/or after school. Instruction will be provided by teachers who are highly qualified in the subjects they teach and trained in specific instructional methods and strategies recommended by classroom teachers. Regular communication will occur between the child's teacher and the Supplemental Education program staff. Staff will also communicate with parents regarding their child's progress throughout the year.

Lessons will be designed based on diagnostic assessments conducted for each child. Instructional materials will be selected from a menu recommended by the child's school based on individual assessment results. These materials will support each child's growth in reading and/or math and enhance their performance in their school setting.

Able Academics

Contact: Monique Todd

Address: 23890 Copper Hill Drive #134
Valencia CA 91354

Phone: 866-255-1279

Service Area: Statewide

PROGRAM DESCRIPTION

Able Academics is a fun-filled, 1-to-1 or small group, tutoring program offering Mathematics or Language Arts to students K-12.

Our program is uniquely tailored “hands-on” tutoring where keeping students engaged and learning is our number one priority. We can come to your home, local library, school site or community center. Your place, your pace, your future. Just remember with Able, “Yes you can!”

Academia.net, Inc.

Contact: Joe Becker

Address: 1511 Burns Ave.
St. Paul MN 55106

Phone: 651-771-8883

Service Area: Statewide

PROGRAM DESCRIPTION

Virtual tutoring (distance learning) over the Internet in the safe environment of your home is how your child will improve their academic performance at our company. Academia.net, Inc. has been successfully tutoring students in WA since 2004. Subjects consist of Math and Language Arts, including reading and writing and for grades K-12. All instructors have at least a 4 year college degree.

Academia utilizes a diagnostic-prescriptive instructional approach to pinpoint student's strengths and weakness and tailor instruction to their needs. Based on information provided on from the school administrators and from you the parent(s) we begin the program with an initial assessment in the appropriate level of Language Arts and Mathematics. This is followed by generation of a customized curriculum that is based on the student's area of weakness. The students progress at their own pace and demonstrate mastery of a particular skill with an end result of at least 70% accuracy before moving on to the next level or subject.

We offer:

- A refurbished LAPTOP computer.
- Up to 5 months of Internet service.
- A visit by our local representative for installation and log on instructions.

In addition, this representative is available for service calls when needed. Once the child completes the tutorial, they will be allowed to keep the laptop computer. A home phone line or Internet is required.

Academic Associates Learning Center-Tumwater

Contact: Lori Brooks

Address: 3937 Southglen Place SE
Tumwater WA 98501

Phone: 360-236-9176

Service Area: ESD 113 Olympia

PROGRAM DESCRIPTION

Every child can learn to read! Thousands of students around the world have learned to read with Academic Associates Reading Program. Reading skills using phonics are taught step-by-step so that students gradually and gently develop complete reading proficiency. The program is scientifically designed to cooperate with the whole brain by streamlining the flow of data, which simplifies and accelerates the process of learning to read. All students are taught by a Reading Instruction Specialist, individually in a safe, nurturing environment. In just 30 to 60 hours, most students are reading at grade level or higher. Students learn to read and succeed in other areas as well. With no pressure, blame or embarrassment, math students develop computation and thinking skills necessary for success in completing their math homework.

Academic Associates Learning Center-Wenatchee

Contact: Anni Hisey

Address: 1416 S Hills Drive
Wenatchee WA 98801

Phone: 509-679-2740

Service Area: ESD 171, Wenatchee

PROGRAM DESCRIPTION

The Academic Associates Learning Centers (AALC) reading instruction method takes the guesswork out of learning to read. It teaches reading skills in small, step-by-step increments that lead to complete reading proficiency. It is scientifically designed to cooperate with the brain in organizing incoming data, so students learn faster and more efficiently.

Our students typically gain two to four years in reading ability, and succeed no matter if they start far behind, or desire to get ahead. Upon completion of the program, students have a comprehensive understanding of how to read, and possess the tools necessary to achieve success in school and beyond.

The program works well even for students with learning disabilities, because it is taught at the student's own pace, and the teachers provide individualized instruction. Although some disabilities cannot be completely overcome, the brain can be taught to work around many of them, and students who complete the course maximize their reading potential. Completion of the course usually takes between 30-60 hours, and by the time a student finishes, he/she knows all the rules that govern the decoding of words and can read any word in the language!

There are five steps to reading proficiency, and the AALC method covers them all: decoding words, understanding the words in context, evaluating the content, retaining and applying relevant information, and reading with fluency. And best of all, it is not difficult work for the student. Patient, caring Reading Instruction Specialists who are Washington State certified teachers, guide the student throughout the process and work closely with the family and school to achieve maximum benefit. Students are never embarrassed or blamed for their former difficulties. Self-confidence and self-esteem typically increase as skills increase.

Let us help your child find reading success!

Academic Coaching and Educational Services ACES

Contact: Gloria Mitchell

Address: 22833 Bothell Everett Highway
Bothell WA 98021

Phone: 425-770-4578

Service Area: ESD 121 Renton

PROGRAM DESCRIPTION

At A.C.E.S. (Academic Coaching & Educational Services) we believe that Washington State's Essential Academic Learning Requirements (EALRs) provide a clear statement of grade level skills that learners need to be successful in school.

On Saturday mornings, we provide three hours of small group instruction. Our after-school program includes two sessions weekly (usually Tuesday and Thursday) for one and one-half hours each day. All students participate in both the math and reading components. We use school district curriculum-based assessments and curriculum practices to help students be successful with daily classroom work while building the skills taught earlier that they might have missed.

As professional educators with many years of experience in schools, we believe in the uniqueness of each child and use strategies that will help each child become aware of his /her learning needs. Students with special needs are integrated in our small groups. We expect parents to be actively involved so we provide interpreters for parent conferences in Spanish, Vietnamese, Amharic, and other languages as needed.

Our Site Directors meet with each child and family at the beginning of the program to identify learning goals. Then individual learning plans are developed using school testing and individual assessments. The Directors work closely with our teachers/coaches, maintains student records, and provides updates to the parents and classroom teachers.

Instruction is focused on math and reading with frequent in-class assessments. In reading, students practice phonics, reading fluency, vocabulary, and comprehension. In math, the focus is on basic facts, computation, and problem solving skills. Writing is included in math and reading.

This is a ten week intensive program. We expect to have students attend regularly in order to see big changes in their interest in learning, ability to take responsibility for their learning, and to gain a renewed sense of joy for learning.

Academic Fitness Center

PROGRAM DESCRIPTION

ACADEMIC FITNESS CENTER is a state approved supplemental educational support provider and a mobile supplemental educational support services company that designs individual educational support programs for pre-K through adults. We have provided supplemental educational support for more than 15 years. One-to-one and small group sessions (up to four students per group) are available. Target areas for each program are selected from the following: math, phonics, reading, spelling, grammar, writing, vocabulary development, homework help, and college prep.

Three programs are offered: Conditioning, for students who are struggling and need knowledge gaps filled; Strengthening, for students who want to build confidence in a target area(s) or need help maintaining their achievement level(s); and Toning, for students who want an edge in a target area(s). Our custom programs build students' motivation, confidence, and academic achievement.

Diagnostic assessments are given to each student to measure the student's skill sets in order to help identify areas of strengths and weaknesses. Information from assessments is used to design each student's personal educational support program. We also meet with the student and parent(s)/guardians(s) (for students under age 18) to gain information that assessments are unable to provide.

Programs can be adjusted to continually meet the needs of each student. Curriculum, games, activities, and handouts used in each support program align with district, state, and national standards. Our qualified and professional academic coaches join a student's learning style and skill sets with scientifically-based research to help each student reach her/his educational support program goal.

ACADEMIC FITNESS CENTER understands the value of communication with parents, students, teachers, and school districts. Communication remains on-going to ensure that the personal educational support programs for pre-K through 12th-grade students align with school district requirements.

Academic Link Outreach

Contact: Teresa Piddington

Service Area: ESD 112 Vancouver, ESD 121 ESD 123 Pasco, ESD 189

PROGRAM DESCRIPTION

ACADEMIC LINK OUTREACH TUTORING = ACADEMIC SUPPORT AND SUCCESS

Nothing feels as good as academic success! Academic Link Outreach (ALO) is a nonprofit organization, helping students meet and exceed state standards, graduate from high school, and be better prepared for college or the work force. Jan Link, Director, was a teacher, curriculum director, and elementary and secondary principal. Her passion is helping students achieve success in school so that they may find success in life.

To help accomplish this, ALO offers one on one tutoring to individual students or small groups of two. We give instruction to students in grades K-12 in reading, writing and mathematics. We focus our instruction on what is being taught in the student's classroom to add greater understanding. The key, to increased academic achievement, is increased motivation, quality instruction, and time on task.

In reading, we teach word recognition, vocabulary, reading comprehension and reading fluency. In writing, we teach the 6 + 1 traits, practice writing narrative, and five-paragraph expository and persuasive essays. In math, we teach the Washington State Essential Academic Learning Requirements, reinforce what the student is learning in the classroom, strengthen skills not mastered, and prepare students for new skills that they will need.

We use materials that complement the state testing expectations so that students will have the competence and confidence to be successful. Communication with the classroom teacher helps coordinate our programs. We teach and reinforce organizational and study skills needed for school success. Motivation is a key component to our program.

Instruction is provided after school and on weekends, at the student's home, at the student's school, in a community center or public library. Our tutors come to you so that transportation is not an issue. Convenient times and locations are arranged with each parent.

Academic Myriad

Contact: Ken Abrams

Address: 1074 Fulton Street
Brooklyn NY 11238

Phone: 347-413-7489

Service Area: Statewide

PROGRAM DESCRIPTION

Academic Myriad is an email tutoring support, teacher directed program and grading services company for students in grades K-12 requesting academic assistance in Reading/ELA & Mathematics.

Students are provided tutoring through access of our teacher directed web links or instructor created worksheets within our email based system. Students are assessed through our teacher directed web assessment or informally through our alternative assessment rubrics. We communicate through students and parents through our email system. Parents and students can request specific assessments and academic help at any time while enrolled in our program. Monthly documented progress reports are sent to schools and parent.

Students and parents access our program through the internet at their local public libraries or on a personal computer they own at home. Our academic program is standards aligned and backed by certified teachers.

Accel Online

Contact: Josh Wallman

Address: 2701 Del Paso Rd., Ste. 130
Sacramento CA 95835

Phone: 916-482-3852

Service Area: Statewide

PROGRAM DESCRIPTION

Accel Online provides tutoring services online in math and science for 3rd -12th grade students after school.

The instructors are credentialed and the service is accessible from any computer. The system is very easy to use as student' work directly on electronic whiteboards (computer software) with their tutors and use voice/chat to communicate. Each student is provided their own webpage so all information is kept confidential and parents may review their student's work at any time. Laptop computers and internet access are provided for students who do not have them so they may complete the program.

Our teaching method is Socratic. We ask the student to supply an answer to a problem or question and then ask how they arrived at that answer. Each step of their response must have appropriate logic or evidence. In this way, we can pinpoint very quickly the precise point of logical error or misunderstanding of a topic. Grades rise quickly when this happens.

All students are pre post-tested with CST exams to identify their skill gaps. Learning plans are written based on these results and modified as the tutoring sessions indicate. All instructors in the program are assessed and trained prior to being hired to ensure each student receives the best possible instruction. It is only with these instructors using our Socratic instruction that 80% of our students have raised their grades 15% historically in our program.

All parents are welcome to contact our office to arrange scheduling of sessions. Student progress reports are emailed to parents and school personnel at the end of each month, but daily reports are also available and often used. Our normal tutoring schedule is M-F: 3-8p and Sat: 12-6p with each session lasting 1 hour only. We offer bilingual instructors for all ELL students.

ACE Tutoring Services, Inc.

Contact: Jeff Wang

Address: 18780 Amar Rd., Suite 105
Walnut CA 91789

Phone: 800-688-1103

Service Area: Statewide

PROGRAM DESCRIPTION

ACE Tutoring Services, Inc. offers one-on-one and small group (1-on-2 or 1-on-3) tutoring in English-language arts and mathematics to students from kindergarten through 12th grade.

Our services are provided at student's home or local library throughout the state of Washington. Our program strictly follows Washington's Essential Academic Learning Requirements (EALRs). ACE Tutoring Services, Inc. has been providing tutoring services since 1997, and has been an approved Supplemental Educational Services (SES) provider in the state of Washington since 2007.

Our instructions and materials are organized according to each student's unique academic needs, and are based on each district's instructional program, and complement the instructions that each student receives from his/her own school. Our reading program stresses the importance of developing phonemic awareness, vocabulary and reading comprehension skills, so the student can understand and use different skills to read various texts or materials, and understand what he/she reads. Our math program focuses on developing number sense and mathematical reasoning, mastering mathematical procedures, and understand/apply concepts to solve problems. We require a minimum of 5 students from each district.

The progress of each student is assessed on a weekly basis. Once a week, the parents are provided with the Weekly Progress Report (WPR), which gives the student a letter grade based on how well the student progresses during that particular week. The WPR also includes comments from the tutor, so parents and teachers will be informed of student progress during the tutoring sessions.

ACEDONE

Contact: Muse Farah

Address: 6516 35th Avenue SW, Suite 208
Seattle WA 98126

Phone: 206-227-1339

Service Area: ESD 121 Renton

PROGRAM DESCRIPTION

The African Community Economic Development Organization of New England (ACEDONE) was founded in 2002 in the State of Massachusetts to assist refugees from the war stricken countries of Somalia, Ethiopia and Sudan. Unlike many other refugee assistance groups, ACEDONE has made an intentional effort to work with individuals and communities from more than one nation. ACEDONE has expanded its services to cater to the needs of families who are in similar situations who resided in the state of Washington.

Initially this assistance centered on connecting refugees to services after state and federal resettlement programs terminated. This assistance was a bridge to existing programs and established institutions; however, it became increasingly apparent that it was not enough to connect a family to resources, as the cultural divide often prevented the family from realizing the full array of benefits available.

The ACEDONE could not address all of these barriers. As a result, we decided to work on the educational front, which is key, to give students the support needed to achieve higher grades, to graduate from high school, to pass the college entrance exam and become accepted into a college. As a result, ACEDONE changed their primary tactic of acting as a bridge between families and support organizations, and decided to focus on providing age and culturally appropriate support for children to insure they stayed in school and did not create a new cycle of difficulties by dropping out. In order to do this, ACEDONE identified physical space and created programming which provided families with children a safe and positive place to receive tutoring, individual mentoring, computer skills training and social supports. This approach promotes family engagement in the academic and social success of their children and eases the transition to Western assimilation.

Achievement Resources, LLC

Contact: ZaQorae BrownHopkins

Address: 8801 Ravenna Ave NE
Seattle WA 98115

Phone: 206-402-3603

Service Area: ESD 121 Renton, ESD 189

PROGRAM DESCRIPTION

Achievement Resources LLC is an after school program that serves students from 1st grade to 10th grade in reading and mathematics.

This program provides tutoring services to enhance classroom performance, grades, and results on state mandated tests. Particular students and group populations consist of low income, minority and migrants. The program concentrates on the distinctive needs of each individual student as suggested by Title I by supplementing the learning of the student in danger of not meeting the states' educational standards and by serving disadvantaged students to meet state criterion. This program partners with families and schools to use schools and libraries to provide these services in a convenient time and place for parents. We evaluate the students' progress during each session through progress reports. We share the reports with the parents on a bi-weekly basis by either meeting with the parents or sending the reports to them physically or electronically. Individual rates are \$62.00 an hour.

Achievement resources LLC offers mentoring sessions to our students as well. Every now and again students and their families need someone to open up to about day to day issues which may come about and impact academic performance. Our approach and self esteem enrichment provide students and their families with opportunities to recognize problems and possible solutions. As a team effort, we take the essential steps to assure a meaningful connection between students, teachers, and families.

Advantage Tutoring Center

Contact: Mary Morrison

Address: 159 West Kellogg Road
Bellingham WA 98248

Phone: 360-312-3495

Service Area: Statewide

PROGRAM DESCRIPTION

The core of Advantage Tutoring Center's teaching are the computer based learning systems from Expressways To Learning, Inc. (ETL).

Within ETL are the Expressways to Reading (ETR) and Expressways to Math (ETM) systems. Both are comprehensive systems of reflexive learning. The Expressways to Learning systems have been around for years and helped multitudes of students, those with learning disabilities as well as average to above average learners. Expressways to Reading is used for remedial, normal, and accelerated training for all age groups. It is also used extensively to teach English as a second language. All lessons can be quickly customized to fit the specific needs of each student. The ETR system is comprised of lessons having over 26 different programs that build upon each other to teach phonemic awareness, build vocabulary fluency, and increase comprehension through visual to speech (See/Speak) auditory (Listen) motor-kinesthetic (write or type) exercises. ETR lessons last 45 to 60 minutes each. It is expected that students complete one lesson each day, four to five days each week.

Expressways to Math is used with children, teens and adults for remedial and normal training in basic math facts, addition, subtraction, multiplication, and division. Each lesson is thirty to sixty minutes in duration. As with the reading system, students are also expected to complete one lesson per day for four to five days each week. Expressways to Math II & III are used for training in fractions, decimals, percentages, measurements, geometry, word problems and other such math applications. In the lessons, Math II & III equips students with the skills necessary to excel even in algebra and higher math. More elementary programs are also available in Math II & III for students at first through sixth grade levels to teach subjects such as telling time and working with money exchange. The ETM system utilizes the same visual, auditory and kinesthetic exercises found in ETR to teach math principles.

Advantage Tutoring Center is located in Bellingham, Washington. A student may access tutoring services in the following ways:

1. Students comes into Advantage Tutoring Center 2-4 times per week.
2. Students access program at their home school via the computer lab with a designated tutor assigned to them with supervision from Advantage Tutoring Center.
3. Students who live outside Whatcom county and do not have access to the program in their school may sign up for the home study plan and are supervised by Advantage Tutoring Center.

One additional program we offer only at Advantage Tutoring Center is our Homework Help program. A student may receive one on one instruction in a math course from an experienced math tutor.

All programs, tutors, and instruction are monitored closely by Advantage Tutoring Center directors.

Alternatives Unlimited, Inc.

Contact: John Sullivan

Address: 8508 Loch Raven Blvd., Suite E
Baltimore MD 21286

Phone: 410-339-3945

Service Area: Statewide

PROGRAM DESCRIPTION

Alternatives Unlimited, Inc. (AU) is a national educational company that provides individual and small group tutoring in reading/language arts and mathematics for students K-12.

AU will assist school districts in Washington by offering purposeful, focused instruction to help students achieve specific targeted goals aligned to Washington's reading and math standards, as well as the individual district instructional program. Workbooks, graphic organizers, and student activities support the instruction during the tutoring session. This allows students the opportunity for peer group interaction, as well as, individualized support, focus, and instruction. AU Tutoring incorporates the Evans Newton Inc. (ENI) curriculum, called iTarget Teach Fundamentals, as the basis for student success focusing on quality, standards-based instruction with immediate assessment data to drive remediation. The optimal AU tutoring session will last two hours per day, and take place two days per week. AU does understand, however, that a two hour session may prove too grueling for the younger learners; therefore, AU is prepared to modify delivery with shorter sessions that meet more often during the week. AU is also prepared to offer Saturday services, if necessary.

AU tutoring leads to better report cards and greater success on state tests. Tutoring activities reinforce the instruction in your child's classrooms for better understanding. The AU program will help each child succeed now and in the future!

Applied Scholastics International

Contact: Mary Cockburn

Address: 11755 Riverview Drive
St. Louis MO 63138

Phone: 505-281-5377

Service Area: School District Specific

PROGRAM DESCRIPTION

For 38 years we have been helping struggling students overcome learning barriers and improve in school achievement. Tutors use a powerful teaching method that handles the three main reasons students do not learn.

The program produces students who can read fluently and with comprehension, do math problems with understanding, and who not only pass tests, but have learned how to overcome study barriers and be less dependent on teacher help. At the beginning and periodically throughout, students are tested to pinpoint their academic weaknesses and to mark their progress toward greater ability. As they work individually and in small groups, learning gaps that prevent them from succeeding in school are repaired through activities that engage the senses - modeling in clay, demonstrating ideas with objects, using new words, practicing basic skills and so forth.

After school snacks and all instructional materials are provided. Each month the tutor sends a progress report to the parent and a parent-tutor meeting can be held on a weekday evening or Saturday when needed. We tutor after school, on weekends and in the summer. We will tutor at the student's home, community centers or libraries.

ATS Project Success

Contact: Renee Weaver-Wright
Address: 20674 Hall Rd.
Clinton Township MI 48038
Phone: 586-465-9474
Service Area: Statewide

PROGRAM DESCRIPTION

ATS Project Success offers eligible K-12 students support in English language arts/reading and mathematics. We offer services online in the comfort and safety of the student's home with a preprogrammed laptop computer and dial-up Internet service at no cost. We use SuccessMaker software for students in grades K-8 and Odyssey for students in grades 9-12. The family home must have an analog telephone, existing Internet service in the home, or be in a T-Mobile cellular area.

Since July 2003, we have provided SES to over 20,000 students in over 400 school districts in 30 states.

Tutors monitor student progress online and work with schools and classroom teachers to ensure student efforts in the program are helping them succeed in their regular classroom.

Students are assessed to determine their instructional level and learning objectives. Next, the curriculum is adjusted and set to provide activities at the appropriate level. Students are encouraged to complete two one-hour sessions per week.

Staff monitors student progress online and follows-up with e-mails/calls to the student and calls to their parents once each week. These telephone calls are conducted in Spanish or Hmong, if requested. Monthly written reports are sent to parents (English/Spanish/Hmong).

From 2006 through 2009, data was gathered from parents about how their K-8 students in our program progressed in their regular classrooms. Our most recent survey (2008-09) results show that 98% (511) of the parents were satisfied with the quality of the services they received from ATS Project Success; 85% (441) felt that their children's attitude toward school improved; and 88% (458) saw an improvement in their children's grades.

Auburn School District

Contact: Paula Dragseth

Address: 915 4th Street NE
Auburn WA 98002

Phone: 253-931-4902

Service Area: ESD 121 Renton

Auburn School District

PROGRAM DESCRIPTION

All (SES) staff are highly qualified professional educators. They are continually learning and growing professionally in order to serve the needs of all students. Our program uses material and instruction that matches with the state's reading and math standards.

Instruction in reading and math is available 60 minutes daily for grades kindergarten to fifth grade. Lessons and practice is prepared for students based on students' levels and the skills they need to learn. Assessments are given to each student to determine the level of instruction that is needed. Timelines are set up to monitor student academic growth. Based on the test results, small groups of students with similar learning goals are formed. Staff works to identify the best instruction to maximize learning in each child.

A benefit of using the Auburn School District SES is the direct connection that these teachers have to what each student has been learning during the school day. The greatest growth in learning is made when students who struggle have extended time each day to learn the skills and gain knowledge needed to become skilled readers and successful in math application.

Parents receive ongoing communication on a weekly basis using a "program to home folder". Progress reports are provided bi-weekly and a newsletter is published and sent home each month. Parents are invited to participate in math and/or reading curriculum nights. At these sessions, math games and make and take activities to reinforce student's learning are provided. Regular and scheduled information is made available to parents in Spanish upon request.

Avalon Tutoring

Contact: Dual Hershi

Address: 12836 SE Newport Way
Bellevue WA 98006

Phone: 206-941-1587

Service Area: Statewide

PROGRAM DESCRIPTION

Avalon utilizes trained bi-lingual tutors, online educational tools and small group instruction to benefit students who are in need of academic support. Avalon's tutors are able to translate lessons into student's native language, ensuring that information is understood. Students who receive dual language instruction are often better able to grasp phonetic concepts and develop reading skills.

In addition to bilingual instruction, Avalon uses computerized educational tools along with print materials. This will allow Avalon to address the learning strengths and styles of each student. Variety in approaches ensures that students have the opportunity to review concepts in a manner that suits their learning style.

With small group instruction Avalon is able to maximize resources and personnel while still meeting the needs of academically struggling students. Trained tutors work with a group of no more than five students. Students are grouped based on the results of their pre-assessments, placed in a small group with others who need additional instruction in the same areas.

Babbage Net School

Contact: Kabir Kassam

Address: 5940 W. Touhy Ave., Suite 200
Niles IL 60714

Phone: 847-559-7464

Service Area: Statewide

PROGRAM DESCRIPTION

Babbage Net School is a for-profit organization that leverages the power of a personal computer paired with a self-paced program to provide the highest quality tutoring available. In addition to a personalized laptop computer, each student is supported by accredited tutors from the National Tutoring Association (NTA) and our Homework Help Hotline.

Our customized tutoring program allows Babbage Net School to cater to each specific, individual student requirement. When a student is enrolled in the Babbage Net School SES program, they are given a pre-assessment to identify their areas of greatest need. Based upon the results of the assessment, a personalized curriculum is created and installed onto a laptop computer provided to the student. Students proceed through each lesson at their own pace and take the assessments at the end of each instructional unit until they attain grade level proficiency. There is no set time a student must remain at the computer. The instructional program consists of a curriculum management system supported by standards-based assessment tools for grades K-12. The program contains 4,675 lessons and 106,541 exercises, adding up to more than 9,000 hours of instruction.

Our National Tutoring Association certified tutors oversee the instruction, evaluate and monitor student progress. All our tutors are trained in the use of our computer-based program and are supervised by an experienced Regional Manager. Both are expertly supported by our headquarters office staff. Our tutors contact students regularly to ensure they are completing their lessons and answer any questions. All together, the Babbage Net School instructional program provides students a complete, personalized tutoring program that will meet their exact needs on their schedule.

Bellingham School District

Contact: Susan Peterson

Address: 1306 Dupont Street
Bellingham WA 98225

Phone: 360-676-6542

Service Area: ESD 189 Anacortes

Bellingham School District

PROGRAM DESCRIPTION

The Bellingham School District Supplemental Education Services (SES) uses research based programs and strategies that are aligned with the Washington State Essential Academic Learning Requirements (EARIs) for math.

Certified Washington state teachers will provide instruction that aligns with the Bellingham School District adopted math curriculum and instructional materials. Using ongoing assessments, teachers will identify an accurate picture of student needs and direct instruction to specific areas targeted for improvement.

Students will benefit from this opportunity to receive math assistance before and/or after school. Students may work one on one with a teacher or in small groups.

When a student enrolls, a teacher will meet with that student and his/her parents/guardians to create an "Academic Achievement Plan" (AA Plan). Using the academic data gathered from the school district and the information provided by students and their families, the goals on "Academic Achievement Plan" will be monitored weekly and progress reports sent home. Letters home will be provided in languages other than English when necessary.

Better Grades In-Home Tutoring

Contact: Craig Curry

Address: 237 NE Chkalov Dr
Vancouver WA 98684

Phone: 360-771-6776

Service Area: ESD 112 Vancouver

PROGRAM DESCRIPTION

Better Grades In-Home Tutoring offers affordable, professional one-on-one tutoring from a certified teacher or academic specialist in the comfort of your home or at your child's school.

We provide highly qualified tutors for any subject, for any grade K-12 and college, and for any ability level. Our mission is to help all students achieve academic success. We work with all learning disabilities and processing disorders. We help students who are behind grade level in math and reading. We also work with students in Gifted/Talented and accelerated programs. We proudly serve all of Clark County, Washington. From elementary math, reading, and state testing prep to high school Calculus, Chemistry, and SAT/ACT Prep, we have the right tutor for you.

Brilliance Academy

Contact: Kabir Kassam

Address: 5940 W. Touhy Ave., Suite 200
Niles IL 60714

Phone: 847-559-7464

Service Area: Statewide

PROGRAM DESCRIPTION

Brilliance Academy is a for-profit, on-site tutoring provider that offers small group tutoring to students in language arts (reading and writing) and mathematics, grades K-12.

Students have been successfully learning in our program for over three years and have significantly improved their standardized testing and in-class scores. At Brilliance Academy, we use a unique two-part approach to ensure that students are benefiting from our curriculum—one that is both individualized and grade-level aligned. The program we use is designed by Brilliance Academy and aligned with state and national standards. Additionally, our curriculum has been endorsed by the National Tutoring Association.

Brilliance Academy understands that each student is different. Students operate not only on varied academic levels, but also through a variety of modalities; this is why we believe it is important not only to diagnose students academically, but also to assess their learning preferences. Our programming is designed with both of these elements in mind. Each student is given their very own curriculum based on their needs as outlined by the results of their initial standardized assessment. This means that if a student is strong in one area yet weak in another, they will receive a curriculum that is tailored to those needs.

Once a student's learning goals are met and each lesson is fully completed, they are administered an exit assessment to determine how much, if any, progress they have made throughout the program. Past results have shown that students who attend classes regularly and are active participants should demonstrate somewhere between a 20 to 50 percent increase in student achievement after completing the Brilliance Academy program.

Building The Bridges

Contact: Dennis Turner

Address: 7209 Puget Sound Ave
Tacoma WA 98409

Phone: 253-314-9242

Service Area: Statewide

PROGRAM DESCRIPTION

Building The Bridges is a community nonprofit entity providing reading tutorial services and supplemental education services to culturally diverse students of all ages and educational skill levels.

Building The Bridges Organization tailors its reading tutorial with individualized learning plans that are culturally sensitive and builds on the personal strengths and previous success of students and families within the educational school setting. Building The Bridges Organization fosters a comprehensive needs assessment program. Building The Bridges Organization develops ongoing strategies and solutions to continue to align curriculum for meeting the educational needs of “historically underserved populations. Building The Bridges Organization will be consistent in mentoring, supporting and enhancing student attendance and parental involvement.

Building The Bridges Educational Program will promote student and family sponsored daytime and evening parent involvement events, produce monthly publications, parent student and community newsletters. Building The Bridges Organization will provide opportunities for all students to meet State Standards and Requirements for student academic achievement(s). Building The Bridges Organization creates a warm, safe and nurturing classroom environment that is conducive to learning team work, respecting others and cooperation and critical thinking. Building The Bridges Organization will involve parent and students in community reading projects, discussions and activities, based on their culture of literacy success. Building The Bridges Organization will provide a genre of literature for cultural and tutorial reading. Monthly reading reviews to support any home reading for students and parents. These concepts will allow for parents and students a family success story.

Building The Bridges Organization with the help of students and parents create a website describing current events, activities and promoting Building The Bridges Reading and Book Club. We will work with students, parents, teachers and collaborating school districts and invite teachers, principals and superintends to “read along with their students”.

Carney Educational Services

Contact: Michael Carney

Address: 430 Grand Cypress Ave #103
Palmdale CA 93551

Phone: 888-511-7737

Service Area: Statewide

PROGRAM DESCRIPTION

Learning is Fun!!! Our tutoring time should respect the individual learning style of each student. It should also reflect our philosophy of developing lovers of learning and life long learners. We want to engage young people in a variety of learning activities in order to awaken an interest in the world around them and help them imagine their place in it. We firmly believe that literacy is the currency of education. If our students can research for themselves and then articulate or express themselves in writing we have handed them the tools for success in life.

Carney Educational Services firmly believes that at the end of each 30 hours its students will:

- experience success and progress in order to become confident in their mathematical and/or reading ability.
- develop processes of inquiry, discovery, generalizing, and reasoning which can be used in all areas of life.
- use a wide variety of methods and strategies, including technology, to solve and/or research problems.
- learn to recognize the value of the various roles of math and reading in society

CES Supplemental Instructional Services will offer each student 30 hours of individualized tutoring in one-two hour sessions. The CES instructional program has five key components:

- It takes place in students' homes.
- Instruction is based on formal assessment and continuous monitoring.
- It is differentiated and explicit and leads to student mastery.
- Instructional materials are researched based and founded on the Washington State Content Standards.
- Results are continuously fed back to students, parents, teachers and the school district.

Catapult Learning, LLC

Contact: Joan Aschmann

Address: 470 North 2nd Street, 2nd Floor
Philadelphia PA 19123

Phone: 401-330-7303

Service Area: ESD 105 Yakima, ESD 121 Renton ESD 189 Anacortes

PROGRAM DESCRIPTION

Catapult Learning is one of the leading providers of high-quality educational services to schools, school districts, community organizations, and families across the country. We have provided tutoring services to students for more than 30 years. Last year, more than 100,000 students nationwide participated in our programs.

Catapult Learning provides intensive small group tutoring programs in math and reading. Our programs help students earn better grades, build confidence, and increase self-esteem. Our AchieveReading™ Flex and AchieveMath™ curriculums are systematic, explicit and intensive remediation and instruction geared toward improving students' reading or math skills. Our highly qualified and dedicated teachers understand how to identify and address students' skill gaps to help them perform successfully.

The Catapult Learning instructional setting supports learning. We set clear and consistent expectations for student behavior and participation. The atmosphere is cheerful and work-centered. Students enthusiastically focus on the lesson and engage in activities designed to connect prior knowledge with new learning. The classroom materials are well organized and inviting. Students have easy access to materials. In every classroom, at all levels, an atmosphere of acceptance allows students to take chances and join the community of learners. Our teachers have a professional appearance and a welcoming, positive, enthusiastic attitude.

For the 2010-2011 school year, Catapult Learning will provide students in Washington with our teacher-led small-group instruction program with a targeted student to teacher ratio of up to 10:1. Each student will receive 20 to 30 hours of reading or math instruction during the school year. Most students receive instruction in two to four, 60-minute sessions per week at their school site. We deliver the majority of our programs in the hours following the regular school day.

Catered Learning Solutions/Catering To Your Child!

Contact: Francilla Freeman

Address: 26212 195th Pl. SE
Covington WA 98042

Phone: 253-630-1669

Service Area: Statewide

PROGRAM DESCRIPTION

At Catered Learning Solutions/Catering To Your Child!, we constantly strive to meet or surpass Washington State Learning Goals. Below is our core content, which meets the Essential Academic Learning Requirements Standards, and an example of the format you and your child can expect from our program.

Number Concepts

- Numeration
- Number Concepts
- Properties
- Fractions and Decimals
- Review of Number Concepts

Math Test Prep

- Computation
- Addition
- Subtraction
- Multiplication
- Division
- Review of Computation

Math Test Prep

- Applications
- Geometry
- Measurement
- Word Problems!
- Solving Applications (Charts, etc)
- Data-Graph Comprehension

Math Test Prep with Graphs and Applications

WEEKLY WORD PROBLEMS PRINTABLE

After a 100-question assessment covering the above basic math skills and with the input of both you the parent and your child's teacher, a student learning plan will be developed and catered to your child's specific academic needs. We tutor in Math; we also want to help with your child reading.

Therefore, to assist in your child reading we offer a onetime only Reading Comprehension Mixed Skills Review which is a mix of all materials in the reading skills unit. A Reading Comprehension Skills Unit that focuses on basic reading subjects such as Main Ideas, Context Clues, Cause - Effect, Facts - Opinions, ect., In addition, we will include a Weekly Reading Book with 5-days worth of reading. Your child can earn others weekly, only by completing the assignments and turning them in.

We are an in-home provider, which means we work around your schedule, and travel to where you need us to be. If you send your child to the babysitter or grandmas' afterschool, we can go there. Your child attend the local community center? Have afterschool activities? We can work something out. Let Catered Learning

Center for Career Alternatives CCA

Contact: Claire Cortez

Address: 13111 SE 274th
Kent WA 98030

Phone: 253-639-1162

Service Area: ESD 121 Renton

PROGRAM DESCRIPTION

The certificated teacher will provide after-school classroom instruction to students in math, reading and writing. The goal is for them increase their basic skills, specifically so they can pass the High School Proficiency Exam (HSPE), Measurements of Student Progress (MSP) tests, do better in their school and improve their scores on the SAT (Scholastic Aptitude Test).

CCA will collaborate with the Education Access Network, the Kent School District (KSD), and the Office of the Superintendent of Public Instruction (OSPI) to provide classes on-site and to assist students with the High School Proficiency Exam (HSPE), Measurements of Student Progress (MSP), SAT, ACT, college admissions essay and applications, and other standardized test preparation and instruction. This makes the direct services readily accessible, on site, and programs available within the Kent community.

PROGRAM DESCRIPTION

The Gifted Program is designed to create a model for the development of healthy relationships. A review of the Gifted Program design shows that the entire program is based on three principles: (1) increasing respect; (2) encouraging the development of responsibility; and, (3) developing rapport. The relationships that are established throughout the program will provide students with a genuine feeling of support that will lead them to make better choices and perform better academically.

The design of the Gifted Program also relies on best practice research related to closing the achievement gap pursuant to the No Child Left Behind Federal Legislation. That research tells us that children perform better in school when they are connected to school programs and when parents and caring adults are involved in the school setting. The Gifted Program is designed with these specific goals and objectives in mind.

Various assessment tools will be utilized to assess progress toward the Gifted Program's goals and objectives. There will be ongoing self-evaluation as well as an independent outside program evaluation. Methodology utilized to measure success will include, but not be limited to, (1) a review of relevant school based data including academic skills assessments, grade point average, attendance, discipline, class placement; (2) a collaborative review of the school-based student learning plan with instructors and parents; (3) student and tutor/mentor infrastructure team periodic self-evaluation; (4) a review of the parent/caring adult family plan; (5) assessments developed in conjunction with curriculum designed by the Gifted Program staff.

P.E.L.T. (Parent Education Leadership Training) offers a unique approach to increasing the level and quality of parental involvement in education. By focusing on parents' past experiences, perceptions of their roles and responsibilities, and their power in integrated school environments, P.E.L.T. has discovered ways to help parents help their children overcome these barriers.

Club Z! In-Home Tutoring Services, Inc.

Contact: Cari E. Diaz

Address: 15310 Amberly Drive, STE. # 110
Tampa FL 33647

Phone: 888-434-2582

Service Area: Statewide

PROGRAM DESCRIPTION

Club Z! offers two programs of tutoring instructed by highly qualified certified teachers, degreed professionals. Club Z! one-on-one in-home sessions are held at times that are convenient to parents/guardians and parents do not have to worry about transportation.

For families that select Club Z! small group sessions, the groups are kept to a range of 2-6 students per instructor to ensure a highly conducive learning environment. Small group sessions are held on school grounds, public libraries, community centers, and other public facilities determined on a per case basis and accessibility to public transportation. Total program hours will vary but sessions may be held in either program 1-3 times per week. The Club Z! program is wholly designed to meet the individual needs of students. Club Z! administers individual and group assessments from Pearson Education to enrolled students to pinpoint their academic weaknesses. The assessment(s) used are determined by the student's age, grade, and mode of instruction.

Club Z! staff critically evaluates school provided assessment data and current grade level of each student to identify each student's academic needs. The Student Learning Plan goals are then written to address the student's academic deficiencies. Club Z!'s successful program centers around the custom-made curriculum created to personally address the student's weak academic areas. Club Z! utilizes Pearson Education curriculum directly aligned with the assessments and EALRs. To maximize individual student achievement in our program, Club Z! trains our instructors in effective instructional strategies. By adapting instruction to the different needs of learners, Club Z! has been highly effective in improving academic performance. Evaluation of student's progress toward the SLP goals occurs frequently and is routinely reported to parents, teachers, and district personnel.

Students who have completed Club Z! program have shown an average of one year's worth of growth in reading and/or mathematics.

College Tutors

Contact: Laura Davis

Address: 1811 N Queen Anne Ave
Seattle WA 98109

Phone: 612-964-7014

Service Area: Statewide

PROGRAM DESCRIPTION

Your child will improve in Math and Reading with College Tutors. We provide one-on-one or small group tutoring programs with trained tutors. Imagine having the same dedicated tutor working with your child in tutoring sessions designed specifically for your child's level. A caring tutor who is excited to help your child understand and learn will surely improve grades and confidence. College Tutors receives high praise from students and parents: "As the parents of the kids, we have recognized a significant improvement." Also, a third-grader used to put off the 15 minutes of nightly reading her teacher recommends. Now she's picking up books on her own initiative. Mom credits the change to weekly sessions with College Tutors. "She's more interested in reading, and she feels she can do it."

We provide tutoring in home, at school, or a nearby library. Sessions are either after school, in the evening, or on a weekend, at a time convenient for your family. Sessions are 60-90 minutes, twice weekly. Your child will work with the same tutor, fostering a positive relationship while improving skills. Students look forward to tutoring since the time is focused directly on them!

College Tutors makes learning fun by using exciting tools (cards, dice, puzzles, games, special work and storybooks). We do not require additional technology and we bring all materials. Our sessions provide a live tutor (no online or computer programs) and each session is designed for your child's needs. How? Information is gathered from parents and school regarding specific learning needs. A brief assessment at the first session helps, too. College Tutors combines all this information for a Learning Plan and prepares a customized program for reading and/or mathematics to match the need and assist your child in achieving learning goals. Research shows this individualized connection generates improved grades. College Tutors provides feedback after each session so your family knows just what the student is working on and can celebrate success.

Colville School District

Address: 217 South Hofstetter
Colville WA 99114

Phone: 509-684-7875

Service Area: ESD 101

Colville School District

PROGRAM DESCRIPTION

Federally recognized SES providers do not know nor need to know Washington State Essential Academic Learning Standards. Colville School District SES providers do and instruct those standards using scientifically-based research in their approach.

Colville School District now stands ready to offer Supplemental Educational Services (SES) programs. We know the specific grade level equivalents (GLE) that each and every student is working on. We use a variety of assessments to monitor student's progress and are able to accelerate by one to one or small group tutorial instruction the specific areas identified. Our collaboration with staff in the buildings is seamless, considering it can be the same grade level staff working on similar target areas. Our SES program will be a continuum from Tier I- Tier III through our Response to Intervention (RTI) to our SES individual tutorial programs.

Our Student Led Conferences with parents will be a natural avenue to receive and give input to parents, students and staff regarding the student's needs and progress on a consistent basis. These conferences will be on a scheduled periodic basis designed to prevent any exasperation of frustration by failing.

SES staff will consist of our highest qualified instructors. Colville district boasts of a majority of staff with a Masters degree or higher and many working on National Boards. In addition, we have a 98% completion rate of paraprofessional "Highly Qualified" rates.

If your child could use some extra help, and they qualify, then allow Colville School professionals to work with them. Together we will succeed.

Communities In Schools of Tacoma

Contact: Teresa Maxwell

Address: 708 South G Street
Tacoma WA 98405

Phone: 253-571-1114

Service Area: ESD 121 Renton

PROGRAM DESCRIPTION

Communities In Schools of Tacoma provides academic assistance for elementary school students in an after-school setting. We currently run programs at Edison, Fern Hill, Sheridan and Sherman Elementary Schools. 2nd and 3rd grade students who are assessed as reading below grade level are referred into the All Star Reader Program where they are matched with a trained volunteer reading tutor. The pair work together for an hour each week from October through the end of the school year under the supervision of a certificated teacher. The curriculum, Sound Reading Solutions, focuses on phonetics and reading fluency.

The Math Wizards program is aimed at 3rd – 5th grade students who are performing below grade level. The students work with a certificated teacher through the Math Makes Sense curriculum which helps students learn computational skills and reinforces work being done in the classroom. Volunteers are available in the classroom to help small groups of students.

Regular school district assessment scores are shared with the Communities In Schools of Tacoma on-site staff who then speak to each student's parent and tutor. Classroom teachers make up special homework packets that are sent home with the parent for students who need a little extra intensive work.

Community Schools Collaboration

Contact: Maureen Emerson Feit

Address: 16256 Military Road South
SeaTac WA 98188

Phone: 206-901-2503

Service Area: School District Specific

PROGRAM DESCRIPTION

Community Schools Collaboration (CSC) supports students and their families to build skills and assets that lead to personal and academic success. We use a nationally recognized, research-based “full-service community schools” model, which provides integrated youth development, health and social services, and parent engagement programs to create the conditions where all students can learn and succeed. Our SES tutoring provides intensive, subject-based tutoring by highly qualified staff, and rigorous evaluation so you can track your child’s progress. We value parents’ role in their children’s academic development, so we provide ongoing communication with parents, including services in four languages: Spanish, Somali, Russian, and Bosnian. Youth and parents accessing our SES services can also take advantage of our comprehensive, wrap-around services for the whole family—strengthening your child’s ability succeed in school and life.

Concerned African Women, Inc.

Contact: Carolyn Nesbitt

Address: 1505 NW 167 Street, Suite 101
Miami Gardens FL 33169

Phone: 305-621-3700

Service Area: ESD 113 Olympia

PROGRAM DESCRIPTION

Concerned African Women, Inc's New Dimensions in Community Education Program has flourished into 6 distinct formats:

New Dimensions in Delinquency Prevention

New Dimensions in Family Empowerment

New Dimensions in Neighborhood Empowerment

New Dimensions in Improving Community Control

New Dimensions in Rights of Passage

New Dimensions in Out of School Time

New Dimensions in Supplemental Educational Services

Each format combines "best practices" in the field of prevention, intervention and reading enhancement with CAW's proprietary cultural curriculum: daily pledge and song, the "Olde Fashioned Manners" module, completion of an Afrocentricity Workbook, reading of classic literature, African Drumming & Dancing lessons, and the culmination each term with the Annual Showcase, which is produced, performed and choreographed by youth.

Service Area: ESD 121 Renton

PROGRAM DESCRIPTION

Email: maiman10@gmail.com

Culturelink Center is a community-based organization that provides high quality research-based instruction/tutoring services to students in Puget Sound area residents. We have a very good track record in contributing to student academic success. Our team helps students improve their academic skills in mathematics, reading and writing. We also provide supervision to homeschoolers.

Our professional team is spearheaded by a Washington State certificated teacher with mathematics endorsement. Our staff is well equipped to tailor instruction/tutoring in order to meet the specific needs of English Language Learners. We are also able to communicate with their families and help them navigate the school system.

Culturelink Center will provide tutoring/instruction services after school and in some cases during weekends. We will identify student skill gaps by using valid pre-assessment and set achievement goals that student need to attain at the end of the program. We will also monitor student progress on weekly basis and shall administer post-assessment to measure student academic improvement.

We are committed and dedicated in providing academic support to students that are designed to increase student academic achievement.

Phone: 213-487-0909

Service Area: ESD 113 Olympia, ESD 114 ESD 121 Renton, ESD 189

PROGRAM DESCRIPTION

With over 2.5 million members around the world, the E.nopi program has been extensively used for 30 years worldwide. It has been selected not only to supplement the curriculum at school, but also to help parents support students to continue learning in the home environment.

E.nopi MATH is a flexible, individualized self-learning program that provides a systematic and progressive approach to improving learning in math. It is designed to encourage analytical and critical thinking skills in k-8th grade students. Colorful booklets and various teaching tools (or manipulatives) enhance their studying in Math. Studies have shown that students who studied E.nopi MATH scored better in the state math standard test and math aptitude test than those who only studied with traditional textbooks.

E.nopi ENGLISH has been created to provide instruction in specific areas of the English language. Starting from learning the phonemes and how to read, the curriculum covers up to 8th grade levels including the different types of writing. By working on booklet levels according to their individual levels, students are able to progress at their own pace. Practice booklets will also supplement the main workbooks for students to repeat the new concepts on their own.

Tutoring will be done in a 1:1 basis for English; a small group of 3 students per teacher is allowed for Math. 2~3 sessions per week with 1~1.5 hours per session is recommended but the schedule is to be determined by the parents and the instructors. Tutoring may take place either at the students home or at a nearby public library, depending on the parents' choice. All tutors will be at least college students or graduates who have passed Daekyo's Qualification Tests.

Diversified Learning Concepts

Contact: Conela Alexander

Address: 1328 SW 322nd Court
Federal Way WA 98023

Phone: 425-306-8135

Service Area: ESD 121 Renton

PROGRAM DESCRIPTION

Diversified learning concepts will report to the parents on the student progress in the following manner. At the end of each learning segment or upon the parents request, whichever comes first, our instructors will sit down with the parents in their home and go over their child's progression in the program, tracked through journal and observations notes.

DLC is primarily an English-speaking program however; we are reviewing the possibility of adding bilingual speaking instructors in the near future. Diversified learning concepts is a tutoring service that is improving on the lessons of yesterday for the students of today. We provide one-on-one tutoring instruction to students using innovative methods that challenge all students to reach their highest potential. Our process begins with a skills assessment test designed to identify your child's skills and weaknesses, so we can create an individualized learning plan for your child. We believe students learn in many ways and it is our responsibility to deliver on the act of "No Child Left Behind".

We provide tutoring sessions in math, reading, writing, grammar, and critical thinking. The instructors employed in the program continue to develop and enhance their own personal skill sets in order to teach and challenge students learning in an effective manner. We conveniently administer all tutoring sessions in the students homes to increase the likelihood of the continuance of the tutoring sessions. We offer our services throughout the school year during the after school hours and on the weekends. Summer sessions are Monday through Sunday from 8am to 7pm.

At DLC, students gain the skills necessary to improve on their academic success as well as their lives. We challenge students to learn and think for themselves and create innovative ways to derives at solutions that will assist them in their academic progress.

Dream Allies

Contact: David Harris

Address: 425 23rd Ave S. A-110
Seattle WA 98144

Phone: 206-552-8311

Service Area: ESD 121 Renton

PROGRAM DESCRIPTION

Dream Allies is a life skills program that focuses on helping students identify their dreams and plan their goals. Math and reading skills are an essential part of this plan. Instead of sitting and listening, our learners are engaged in real-world problem-solving activities designed to teach the importance of not only reading and math proficiencies (1), but other competencies such as computer skills, soft skills, and financial literacy using the CompuKidz™ Literacy Program (2). The students build confidence by steady progression through lesson plans and built-in assessments while having fun along the way!

Our mission is to raise under privileged youth's literacy levels, provide access to computers, increase reading & math comprehension, heighten self-esteem and create a safe social environment for them to learn; empowering them to overcome systemic poverty and deprivation.

- (1) Reading & Math Literacy. Our approach is two-fold. We offer in-depth training to help children and teenagers address difficult reading and math challenges. And with community involvement from local businesses youth and families are able to bring real world business cases that engage and strengthen families & promote self-improvement.
- (2) CompuKidz™ Literacy Program. Our goal is to stimulate the positive growth and development of youth. Through culturally specific training, youth are taught critical thinking and coping skills, self discipline, the importance of family & community and most importantly respect for themselves and others. The program is interactive instruction conducted in five phases and uses the latest technology in drill and practice software.

Dyslexia Unlearned

Contact: Marlene A. Easley
Address: 4454 Northwest Drive
Bellingham WA 98226
Phone: 360-714-9619
Service Area: ESD 189 Anacortes

PROGRAM DESCRIPTION

The Dyslexia Unlearned Programs are:

- one week
- one-on-one
- Monday through Friday
- 9 am to 4 p.m. (30 hours)

Reading:

When students struggle with letter identification, writing or reading, dyslexia has been created. We teach the student to resolve these issues with clay. They are given the tools and techniques appropriate for a picture-thinker. The student will learn how to:

- enter, store, and retrieve information from their memory
- strengthen the interaction between left and right hemispheres of the brain
- balance the body and attain the ability to easily focus on the reading at hand
- control their own energy levels and be appropriate in the classroom (ADD and ADHD)
- identify punctuation
- use a dictionary
- read fluently with comprehension

Follow-up after the program includes:

- 3 reviews
- training for support person to assist in clay modeling of the sight words

Pre and post assessments measure growth during the one week program. Average growth in one week is two years gain in reading.

Math:

Math is about reason and logic. To have reason and logic, a person must have 11 developmental concepts in place. They are: self, change, before/after, consequence, cause/effect, sequence, time, and order/disorder. These concepts usually slip into place between the ages of 6 months to 6 years. Without these concepts, students have difficulty with math and making life work.

The student will:

- model the 11 developmental concepts, numerals, symbols and words in clay
- learn place value
- be able to add, subtract, multiply, divide problems in clay and on paper
- create a clay model for addition, subtraction, multiplication, and division

Prerequisite for the math program is the reading program.

East African Community Services

Contact: Abdirizak Jama

Address: 7054 32nd Ave S, Suite 207
Seattle WA 98118

Phone: 206-721-1119 x104

Service Area: ESD 121 Renton

PROGRAM DESCRIPTION

East African Community Services (EACS) is an inclusive organization that is dedicated to improving the well-being and quality of life of refugees and their families in King County, while at the same time encouraging our clients to preserve their diverse cultural heritage. Located in the heart of NewHolly, a Seattle Housing Authority neighborhood, EACS is a community-based organization serving East African refugees in King County for nearly a decade. Members of the EACS staff are able to assist families in several languages, including Somali, Oromo, Arabic, and Tigrinya.

Education services at EACS start with an individual assessment of each students' strengths and weaknesses. Parent/guardian feedback is welcome and invited as the initial instructional program is designed to address weaknesses and bring the student up to grade-level performance; parent/guardians will continue to receive monthly written reports from EACS on their students' progress and attend a quarterly parent-tutor conference to discuss in-depth the particular challenges and successes of their student.

Most tutors are Instructional Assistants from within the school: trained and successful at working with students from diverse, ELL backgrounds. All instructors undergo a thorough training and orientation to ensure consistent, quality tutoring that is culturally-sensitive, confidential, and effective, and the method of instruction is aligned with the school district's curriculum.

In addition, EACS has a wide array of complementing support services to provide wraparound support for East African families in King County schools, including ESL Talk Times, computer literacy classes, family support case management, and a summer program for children to prevent learning loss over the summer months away from school.

East Valley School District (Spokane)

Service Area: ESD 101 Spokane

East Valley School District

PROGRAM DESCRIPTION

POINT ME IN THE RIGHT DIRECTION....

- East Valley School District is proud to offer Supplemental Educational Services to the qualifying students of Trent Elementary and surrounding districts.
- We are located at 3303 North Pines, Spokane Valley, Washington 99206
- We will be offering a three day a week, after school program from 3:15-5:00 for eight weeks, 24 sessions of 1.5 hours equals 36 extra hours of instruction to, Point Me in the Right Direction!

Three sessions will be offered:

- o #1 October 5, 2010-December 9,2010
- o #2 January 4, 2011-March 3, 2011
- o #3 March 15, 2011-May 19, 2011
- You will get a snack and some exercise and we will run a bus from Trent to home for district residents. Part of the day will be on the computer and part will be working with an adult.
- Students: You will work on a fun, cartoon like program called Compass Learning while you are learning the skills you need to excel in math or reading.
- Parents/Guardians: Your child will be working with highly qualified staff on vocabulary building or computational fluency (learning the basic facts and understanding them). Compass Learning aligns with the New Washington State Standards in reading and math, is scientifically research based and they will have fun.
- While a student is enrolled in Point Me in the Right Direction, they can access this program 24 hours a day from another computer.
- Now you can see why we call this POINT ME IN THE RIGHT DIRECTION...we have quality teachers, engaging instruction, time on the computer both at school and at home, and at the end of eight weeks students will know the progress they have made in either reading or math!

Please contact: Tammy Fuller 509 241-5023 for further information.

Educate Online Learning

Contact: Angela Belt

Address: 1001 Fleet Street
Baltimore MD 21202

Phone: 410-843-2672

Service Area: Statewide

PROGRAM DESCRIPTION

Educate Online Learning, LLC is America's leading provider of live, personalized, at-home tutoring. Educate Online has successfully served more than 56,000 students since 2002. All tutoring takes place online, and Educate Online provides computers and internet access, if needed, at no charge.

Students log on to a virtual classroom from home, while their instructor logs on from another location. Students can speak directly to teachers, all U.S. state-certified, and they share the same desktop, so they can work together effectively. On average, students who complete either our math or reading program gain a grade level in skills.

Students typically take two to four 60-minute sessions each week. Sessions are offered seven days a week, after school and on weekends. Families are able to choose the days and times that work best for them. Sessions take place in the safety and convenience of each student's home – eliminating the need for transportation.

In a recent study, 82% of students said their Educate Online work helps them do better in school, while 64% said their grades have improved since working with us. Parents agreed, as 88% said Educate Online helped their child do better in school, and 94% indicated that at-home tutoring was an effective alternative to other tutoring programs.

Educate Online has a secure, password-protected Parent's Portal, available 24/7 allowing parents to set tutoring schedules and see progress reports after every session. We have a trained bilingual (English and Spanish) call-center staff supporting families through the program, who handle technical problems, parent questions, and any issues that may come up during the program. Our help line is open during business hours, and any time tutoring sessions are offered. Educate Online also uses a translation service that supports 170 different languages, allowing us to work with most parents.

Education Empowerment Foundation, INC.

Contact: Bobby Robinson

Address: 15800 NW 42nd Avenue, Suite 105
Miami Gardens FL 33054

Phone: 561-307-3775

Service Area: School District Specific

PROGRAM DESCRIPTION

Education Empowerment Foundation, Inc. (EEF) provides professional teachers who work with children in grades three to five and middle school youth, in grades six to eight in two subject areas, reading and mathematics. To be eligible for tutoring, students must attend a school that is eligible as delineated by the No Child Left Behind Act, 2001. EEF tutors are experienced, with impeccable credentials and a heartfelt enthusiasm for teaching.

Tutors work with small groups of not more than eight students to improve their grades, and raise their test scores. The sessions are scheduled two times a week and each session is two hours long, for a length of time determined by the school district. Tutoring sessions are held at local schools directly after school hours. Students are grouped by age, grade, and academic needs. Our warm and caring tutors tailor individualized learning plans that build the skills, habits and attitudes students need to succeed in school.

We also advocate for our students by communicating with classroom teachers to assure that a student's specific needs are being met. The bottom line is that our students learn more, perform more efficiently, and get better grades. Students who have completed EEF supplemental educational services have shown an average of one year's worth of growth in reading and/or mathematics. We firmly believe that every student has unique strengths to be nurtured, and we are committed to encouraging individual growth and responsibility within each student.

Evaluation of students' progress toward academic goals, areas of further improvement, and suggestions as to how the classroom teachers and parents can assist the student in their academic progress occurs frequently and is routinely reported to parents, teachers, and district personnel. Students who enroll in EEF tutoring sessions are on the road to success.

Educational Service District 101

Contact: Ramona Griffin

Address: 4202 South Regal Street
Spokane WA 99223

Phone: 509-354-6478

Service Area: ESD 101 Spokane

PROGRAM DESCRIPTION

This program will serve students in reading and mathematics. Targeted student populations will include low-income, minority, migrant, limited English proficient, students with disabilities and academically at-risk.

NEWESD 101, school/district staff and parents/guardians will form a team to select effective supplemental educational service (SES) options. Parents/guardians seeking effective programming to meet their child's specific needs will have access to opportunities created by this partnership. The team will select the most appropriate materials and strategies from the menu provided by NEWESD 101. Parents will receive updates on student progress regularly. Additionally, parents will receive training on reinforcing learning in the home.

A minimum of 10 students is required for group instruction. Services will be provided after school at the student's school.

Educational Service District 112 (EXcel Program)

Contact: Barbara Lomas

Address: 2500 NE 65th Ave
Vancouver WA 98661

Phone: 360-750-7505 x244

Service Area: ESD 112 Vancouver

PROGRAM DESCRIPTION

The EXcel After School Program, from Educational Service District 112, is a student-centered extended day learning program. We offer instruction in math or reading for qualifying students in grades K-6. Services are provided at your local school usually two days a week for an hour, right after school each day. Each student will have an individualized educational plan. Instruction will be delivered in small groups of no more than 1:3.

Parents will choose which area, reading or math, they believe their child most needs help. Reading instruction will focus on what is most important in reading: phonemic awareness and phonics for beginning readers and fluency, vocabulary, and comprehension for older students. Mathematics instruction will target number sense and operations with a focus on vocabulary and concept and specific skill development.

The extra help will be provided by highly qualified certificated Washington state teachers, often from the student's school, who are familiar with Washington State standards and the district and school curriculum. Student learning goals are identified using assessment information along with input from the student's regular classroom teacher.

ESD 112 and the EXcel Program will work hard for each student to help them achieve academic success. To reserve a space for your child in the EXcel program, contact your school district to request ESD 112 EXcel as your Supplemental Educational Service provider.

Educational Service District 113

Contact: Erin L. Riffe

Address: 601 McPhee Rd SW
Olympia WA 98502

Phone: 360-464-6700

Service Area: ESD 113 Olympia

PROGRAM DESCRIPTION

Educational Service District #113 will provide one-on-one and small group tutoring and educational services in reading and math for qualified students in grades K-12 who are below grade level.

The purpose of the Educational Service District #113 is to assure excellent & equitable education for all students through service and collaboration and we do this in partnership with our school districts by providing quality-education programs and services. Our goal of this educational program and service is to help students reach grade level and enhance their educational performance in school through supplemental educational supports provided before or after school, on weekends, during intersessions, or during summers. All students will receive diagnostic assessment in math and reading, student learning plan, access to educational staff, and educational services that include regular and ongoing feedback and reports of progress.

Educational services will also include supports and information for parents and caregivers in order for them to address student educational needs.

Eduvelop/WASLpass

Address: 1925 S. 341st Place
Federal Way WA 98003

Phone: 818-730-9939

Service Area: Statewide

PROGRAM DESCRIPTION

Eduvelop (formerly WASLPASS) is an experienced Washington State Supplemental Educational Services (SES) provider offering tailored personal tutoring programs designed to help students develop and improve their reading and math comprehension skills.

Our success is based on the combination of an extensive library of subject content developed with strict adherence to Washington State Grade Level Expectations and a time-proven computer-based training program which has been used to successfully prepare students in academic and professional environments for more than twenty years.

Our SES program offers:

- One-to-one personal instruction in your home or other convenient location
- Group instruction
- 100% online distance learning with free telephone support

Our online courseware is included with individual and group tutoring, and is available to students with computers and internet access on a 24/7 basis even after live instruction hours have been completed.

Eduvelop's qualified staff is prepared to work with students from Kindergarten through 12th grades, and includes Spanish and Vietnamese-speaking tutors.

The Eduvelop program is available at no cost to qualified Title I/SES students and families throughout Washington State.

You may demo the software by going to our website at www.eduvelop.com or calling our toll free number 1-888-927-5727.

Elma School District

Address: 1235 Monte Elma Rd
Elma WA 98541

Phone: 360-482-1123x529

Service Area: ESD 113 Olympia

Elma School District

PROGRAM DESCRIPTION

It is the belief of the Elma School District that all students can learn; however, it has been observed that not all students learn at the same rate or in the same way. When a student demonstrates that he or she is struggling in reading or mathematics achievement, a series of interventions will be implemented.

Our process for monitoring student learning begins with the taught curriculum. Our teaching staff has compared the taught curriculum with the Grade Level Expectations associated with our state's assessed curriculum. Curriculum maps and pacing guides are in the process of being developed in mathematics and reading across our district. Assessment of student learning occurs on a regular basis and student learning is carefully scrutinized. Students that are not at the desired level as measured by assessment data are provided with targeted academic interventions that will address their deficit areas.

Empowering Youth and Families Outreach

Contact: Charlett Shoecraft

Address: P.O. Box 105
Renton WA 98057

Phone: 206-335-9439

Service Area: ESD 113 Olympia, ESD 121

PROGRAM DESCRIPTION

Learning is a true adventure and will open many doors. Despite this, many students are unable to fully appreciate the joy that should come about as a result of acquiring an education, simply because they don't understand.

At Empowering Youth and Families Outreach (EYFO), our instructors can help your child succeed and overcome the frustrations associated with school. Our tutors focus on the whole child, assessing, evaluating, and monitoring each student, and working with them at their speed, helping them to realize their potential and helping them discover the joy in learning. Serving grades K-12, Empowering Youth and Families Outreach tutoring program provides one-on-one curriculum instruction aligned to state standards, emphasizing individual student progression and achievement. EYFO's program is unique and dynamic, running throughout the school year on-site, or at an agreed upon location. All instruction is tied to Washington Essential Academic Learning Requirements (EARLs) and is customized to the learning needs of each student. We will utilize district materials and ensure that materials are aligned to the Washington State Grade Level Expectations. EYFO's supplemental services are designed to support what students learn in school—directly, through homework help/tutoring, and indirectly, through games or other activities that build reading, writing, and math skills.

Our goal is to work closely with school districts to develop collaborative relationships with the staff, students and community to help close the achievement gap. Specific student populations served are low-income, minority, limited English proficient students, students with learning disabilities and/or behavioral problems, and at-risk youth. Parents will receive a detailed instructional plan is created defining the goals and objectives based on the needs of the student, as well as quarterly progress reports.

By choosing EYFO you'll get real results, and your student will develop confidence and a positive attitude through self-paced progress and genuine achievement.

Extraordinary Environmental Institute

Contact: Rudolph Edwards

Address: 451 Meadow Drive SE
North Bend WA 98045

Phone: 425-831-6038

Service Area: Statewide

PROGRAM DESCRIPTION

It is the belief of the Extraordinary Environmental Institute (EEI) that all children can learn if given the individualized instruction, time and attention each needs to be successful. We also believe that children reflect their homes, communities and cultures. Our educational program will reflect the uniqueness of each individual, celebrating their backgrounds, gifts and contributions.

Research shows that pre-teaching subject matter which the students are likely to encounter builds confidence, improves understanding and performance. Our model will be based on this research. Instructional programs will be provided during summer vacation, school breaks and before new units are introduced during the school year.

Certificated teachers will work one-on-one to address the individual learning needs of each student, communicating with the school and complimenting the efforts of the classroom's instructional program and curriculum.

Children who struggle need more time on-task. Many need a longer learning day, but with a different approach to learning than is used in the classroom. In addition to individual tutoring, small group learning strategies will be employed that make learning fun, while reinforcing essential learning.

Relationships matter. All students need to know that they are valued and respected. They need to know that others have high expectations of them for what they will accomplish in their lives. For this reason, we place our Supplementary Educational Services in the community in which they are a part. By partnering with churches, Boys and Girls Clubs and community centers, we can work together to provide the wraparound support that children need to be successful. Through contacts with mentors who use reading, science and math in their every day work, students will develop an understanding of the importance of these subjects for their everyday lives.

Genius Academy

Contact: Dr. Jewel Holloway

Address: 3703 S. Edmunds Street
Seattle WA 98118

Phone: 206-788-6946

Service Area: ESD 113 Olympia, ESD 114 Brem ESD 121 Renton

PROGRAM DESCRIPTION

Genius Academy offers one-on-one and small group tutoring programs in reading and mathematics. Genius Academy has highly trained tutors with over 30 plus years of combined experience in teaching and tutoring in all subject levels. Our goal is to help students meet academic benchmarks described in Washington's Essential Academic Learning Requirements and National Academic Learning Requirements.

Genius Academy will provide tutoring in the family's home, at school, library, or other suitable location. Small group tutoring consists of no more than five students of similar ability, grade, or academic need. Sessions are generally held after school, in the evening, or on a weekend, at a time convenient for the student and parents. Sessions are 60 to 120 minutes in length (depending on age of student), and held two to three times per week.

Genius Academy recognizes that academic excellence for students requires a focus on understanding, supporting and teaching the whole child- academically, socially, and physically. We have an Afro-Centric approach to education which addresses student engagement and parent education. Our goal is to be intentional in delivery of instruction to each individual student.

A student profile is developed with input from all of a child's stakeholders including teachers, administrators, and community advocates. Once students are assessed, a plan with specific goals to target gaps is developed. This plan includes a timeline in which goals should be met and strategies to be employed and home and school for student accountability towards these goals.

All work and progress is recorded in portfolio format including various hands-on projects that demonstrate student progress and learning.

Additional electronic reports are made to students, parents, schools, and district stakeholders quarterly.

Global Partnership Schools

Contact: Terrence J. Hofer, Ed.D.

Address: 300 State Street, Suite 305
Rochester NY 14614

Phone: 585-355-4305

Service Area: ESD 121 Renton

PROGRAM DESCRIPTION

Global Partnership Schools works closely with schools, teachers, and parents to help students meet Washington state standards in Reading and Math and improve their performance on the Measurements of Student Progress. Our program inspires each child to become more engaged in school and learning. Our instructional leaders are nationally-recognized educators who have successfully raised achievement levels of all students, including those with special needs and English Language Learners. We hire certified teachers and use a leading curriculum that directly aligns to the Washington standards. We provide teachers with training before they begin tutoring and during the year to help them develop effective techniques for motivating students and improving their skills.

We start each session with KidTalk, where teachers and students share ideas on how to be successful in school and life. KidTalk also provides a useful transition between the regular school day and the tutoring experience.

Our program includes computer activities that provide practice and stimulation for our students. We use computers in all classes, at a ratio of 1 computer for every 2 students. Outside the classroom, we provide students with secret passwords so they may access activities at home, in school, or in libraries / community centers.

By conducting a pre-test and meeting with parents and teachers, our teachers identify students' strengths and areas that need improvement. They use this information to develop an individual learning plan for each student with specific target goals to accomplish during tutoring.

We typically offer two 90-minute tutoring sessions per week. We provide healthy snacks. We communicate frequently with parents to update them on their child's achievement, behavior, and attendance. Based on our high expectations and proven teaching methods, students make significant progress towards meeting standards for their grade level. Choose Global Partnership Schools today and give your child opportunity!

Grade Plus Tutors

Contact: Pritika Janweja

Address: 20234 Cantara Street, Suite 245
Winnetka CA 91306

Phone: 213-290-2199

Service Area: Statewide

PROGRAM DESCRIPTION

Our program has been specially designed in accordance with the latest Academic Learning Requirements of Washington. It promotes the foundational knowledge students need to succeed in today's world. Our program design includes carefully constructed and sequenced lesson plans, individualized direct one to one instruction, thematic education and problem based learning for students in grade K to grade 12 in English Reading and Math. Our program has the advantages of a self-paced program supported by full interaction and focused attention of experienced teachers. Our lessons are conducted online at the student's home under the supervision of parents/guardians. The Program provides tutoring on all the 7 days of the week between 3 PM to 10 PM during weekdays, and 10 AM to 10 PM during weekends, as per the convenience of the students. The length of each tutoring sessions will be 1 hour. The students can have a minimum of 2 sessions, and maximum 4 sessions in a week.

We provide 24X7 technical support for any technology related issue. For those students, who do not have computer & Internet connection, we provide the same free of cost.

Our instructional program is set to cater to individual student's needs through an exclusive Learning Plan developed after an initial assessment and contributions made by teachers and parents. Parent feedback is collected at each step and the student's progress is monitored and reported to parents and teachers after every 12 hours of sessions. Our students have been able to score exceptionally well in classroom as well as state exams. We are able to serve children with special needs, English language learners as well as low income and low performing students.

GradeCracker

Contact: Raashi Somani

Address: 16821 NE 39th Ct, Apt # E3015
Redmond WA 98052

Phone: 425-738-0015

Service Area: Statewide

PROGRAM DESCRIPTION

Grade Cracker provides exceptionally high quality tutoring to students who require that little extra help. The key features of our instructional program include one to one instruction, live tutoring, use of state aligned curriculums, flexible time-tables, high quality researched material, experienced tutors, convenience, rigorous monitoring of student progress and involvement of teachers and parents at each step of the student's development.

We provide flexible, and customized tutoring solutions. Our program encapsulates the needs of the students and uses it to target instruction. We use WASL Achiever! test as our assessment test to assess the student's strengths and weaknesses and develop Student Learning Plans and a focused timetable. We communicate the results of this Assessment Test along with our proposed Student Learning Plan to the parents/guardians, and schoolteacher. Their approvals as well as suggestions are requested before we proceed in commencing our tutoring program. The progress of the student is stringently monitored through monthly progress reports. Progress reports define each student's educational goals as stated in their Learning Plan, lesson scores/achievement level, attendance, and tutor comments regarding participation and progress, and student's progress within the curriculum. All reporting complies with NCLB and FERPA confidentiality provisions. The Student Learning Plan acts as a standard against which the student's progress is measured and is accordingly updated for the next month to reflect progress towards established goals and objectives. The progress reports may be provided in English & Spanish.

Granite Falls School District

Contact: Carol Panagos

Address: 307 North Alder Ave
Granite Falls WA 98252

Phone: 360-691-7717

Service Area: ESD 189 Anacortes

Granite Falls School District

PROGRAM DESCRIPTION

The Granite Falls School District Before and After School Tutoring Program offers targeted intervention to its students covering essential concepts and skills in math. We also provide a variety of assessments designed to give parents and teachers the critical data they need concerning their student's performance.

Our after school program includes one on one or small group instruction with a certified teacher and engaging, interactive web-based technology that extends the school day and provides students the motivation to practice and improve their reading and math skills where ever they have access to the internet. Students actively participate and are inspired to improve their math proficiency by practicing their skills, preparing for high-stakes tests and playing in real-time competitions of speed and skill. Our web-based programs provide built-in error analysis and correction opportunities, animated demonstrations of essential concepts and instant access to online reports to give parents and teachers the ability to easily track student progress.

All instructional programs are aligned to Washington's Essential Academic Learning Requirements and use research based instructional strategies to improve and strengthen individual student's skills.

Frequent reports to parents and teachers are used to relay student progress in achieving current goals and setting future goals. Student Learning Plans developed with student, parents and teachers include individual achievement goals targeted for each student based on current level of performance.

Eligible students can receive direct instruction from a certified teacher in math two days per week and gain access to our web based skill programs. Sessions are available for eligible students grades 4th and 5th at Monte Cristo Elementary from 3:15 - 4:45 and 6th, 7th, and 8th at Granite Falls Middle School from 2:15 to 3:45.

Phone: 360-547-3412

Service Area: ESD 189 Anacortes

Mukilteo School District

PROGRAM DESCRIPTION

The program provides after school tutoring activities that focus on reading for grade levels K-8. The services are provided at public locations, YMCA, or schools. Specific populations include low income, minority, and students with disabilities. The program uses Reading A-Z Curriculum. Our strategies include methodically and routinely determining where each student is performing and then working with the student, his/her family, and academic advisors to reach the benchmarks set forth in the EALRs. Individual rate is \$60 per hour.

Helping Link

Contact: Minh Duc Nguyen
Address: P.O. Box 28068
Seattle WA 98118
Phone: 206-781-4246
Service Area: School District Specific

PROGRAM DESCRIPTION

Helping Link assists the Vietnamese community of King County in the studies of Math, English, Science, and Computer skills. For the young, Helping Link is a tutoring center, designed to help students after school with their homework during the school year. Helping Link hosts a Summer Youth Program for students to continue learning while on summer break. Through this program, students continue their practice of Math, Reading, Writing, and Science while having the chance to take educational field trips around Seattle. For the elder members of the community,

Helping Link serves as a bridge between the community and the rapidly advancing world. Helping Link offers Citizenship classes to prepare students to take the Citizenship test, Computer classes to inform students how to use a computer, and English as a Second Language classes for those who still need to learn English. Helping Link serves as the bridge between the Vietnamese and America and a safe haven for a widely spread community.

Helping Link helps to assist students in strengthening their reading comprehension and writing skills. Our goals are to help students to be more successful in school, particularly in the area of literacy, while supporting their sense of cultural identity, strengthening the connection between what they are learning in school and what they are experiencing at home.

Through the Summer Youth Program, we help students do the following

- Build vocabulary skills
- Improve reading comprehension
- Understand and use a writing process
- Intertwine the relationships between reading and writing
- Continue creating a foundation for math
- Increase engagement in learning
- Promote lasting peer relationships
- Promote creative expression through art and writing
- Engage in positive identity development

Highline School District

PROGRAM DESCRIPTION

Provider Description for Parents

For Highline students only, Academic Achievers provides tutoring for all eligible Highline students, right in Highline schools!

Teachers and staff who work for Highline school district will help your child improve in math. Students will benefit from this opportunity to receive assistance in their learning and daily work. Academic Achievers will provide services before school, after school and in some cases during school breaks.

Academic Achievers will provide:

- Transportation
- Snacks
- Bilingual parent support
- Aligned efforts across Highline schools for all students that qualify
- Goals established with you, your child's teacher and the Academic Achievers tutors
- Small group instruction
- Enrichment opportunities
- Use of technology

Descripción del suministrador

Solamente para los estudiantes de Highline, ¡Academic Achievers proporciona tutoría directamente en las escuelas de Highline a los estudiantes que son elegibles!

Maestros y personal que conocen a su hijo le ayudarán a mejorar en las matemáticas. Los estudiantes se beneficiarán de esta oportunidad para mejorar sus aprendizajes y darles mas ayuda en el trabajo diario.

Dependiendo del acuerdo con los padres y tutores, Academic Achievers proveerán servicios antes y después de clases y en algunos casos durante las vacaciones.

También proveerán:

- Transporte
- Bocado
- Ayuda bilingüe para padres
- Esfuerzo alineados entre todas las escuelas de Highline para todos los estudiantes que cualifican
- Metas establecidas entre usted, el maestro de su niño y tutores de Academic Achievers
- Instrucción en grupos pequeños
- Oportunidades de enriquecimientos
- Uso de tecnología

Highline Tutoring and Testing Center

Contact: Chris Wenger

Address: 224 SW 153rd PMB 240
Burien WA 98166

Phone: 206-242-0245

Service Area: ESD 121 Renton

PROGRAM DESCRIPTION

Highline Tutoring and Testing Center opened 27 years ago and became a partner of the SES program several years ago.

Our experience has found that most students who struggle with reading, writing or math have low achievement in other subjects, which is verified by their test scores. Our curriculum is based on these findings. Therefore, we take a whole language approach to teaching these basic skills. The language approach to math skills is used and has led to the successful mechanical operations for math and better understanding of story problems. We stress written language, since writing skills are an integral part of any student's curriculum. The reading curriculum includes researched-based materials that enhance reading comprehension, fluency and vocabulary development. Our tutors use teaching techniques that cater to the learning styles of each student to advance skill development. They encourage the input of the parents, teachers and counselors of the students. The cost for instruction is \$50 hourly per student. The locations used for the SES tutoring sessions include Highline Tutoring's office in Burien, the student's school, local libraries, community centers and student homes.

We would prefer to have a minimum of two students from a school district but we will consider special circumstances for a single student.

Hope Academic Enrichment Center

Contact: Mohamed Ali

Address: 9421 18th Ave SW
Seattle WA 98106

Phone: 206-679-0745

Service Area: ESD 121 Renton

PROGRAM DESCRIPTION

Hope Academic Enrichment Center (HAEC) is a Seattle based nonprofit organization dedicated to the academic achievements of K-12 students with special emphasis on low performing East African students. Education is HAEC's exclusive work area; it aims to build a healthy community by providing extra learning time and opportunity for K-12 students, parent school connections. This helps to minimize the chances of school dropouts, behavioral deviation and loss of self esteem. HEAC's services impacted positively on individual beneficiaries, families, and the community at large for he last seven years.

Since its inception in 2004, HAEC has been contributing to the academic enhancement of East African communities in Puget Sound Region, specifically in White Center, Southwest, Tukwila, Kent and Southeast Seattle neighborhoods. This academic year HAEC collaborated with four local school districts namely Seattle Schools, Highline Schools, Kent Schools and Tukwila School District and over hundred parents to help students cross the threshold of academic success.

Horn of Africa Services

Service Area:

PROGRAM DESCRIPTION

Mission: Founded in 1992, HOAS is a multi-lingual, multicultural nonprofit organization which offers a wide variety of essential services to the HOAS Community.

The HOAS Community consists of East African immigrants and refugees, regardless of religious, ethnic or political affiliations, who are from Djibouti, Eritrea, Ethiopia, Somalia, Sudan, and neighboring east African countries; and who now live in the Greater Seattle area.

Underlying our work is our awareness of our clients':

-Past. Most individuals have experienced tremendous hardship in life, adults and children alike, each is attempting to regain control of life.
-Present. All clients face adjustment to a new culture and a new language; particularly adolescent youth.

The HOAS Staff speaks Amharic, Oromo, Tigrigna, and Somali. HOAS Services address issues of health, education, employment, housing, job-readiness & job search, law and naturalization including:

Information & Referral-Social services, healthcare, legal immigration, housing, employment, ESL (English as a Second Language) and education.

Advocacy & Counseling-Including cultural adjustment workshops to assist East Africans in the acculturation process.

Citizenship Classes-Free to East African immigrants and refugees with 4-year US residency.

ESL-Free to East Africans and others.

Computer/Technology Lab-Basic computer/technology training, Internet access with the ancillary benefit of affording social interaction.

Outreach-Provided at Yesler Terrace, Rainier Vista, and Highpoint. Includes translation/interpretation, referrals to housing, healthcare, employment, ESL, education and other services.

Job Training & Placement-Provided to long-term public assistance recipients who need intensive services to assist with overcoming barriers to employment.

Youth & Parent leadership Programs-Providing intergenerational, educational, community service.

Youth Services-For East African youth, 14-18 years of age, who want a structured program to develop leadership skills. Includes a summer youth employment component.

Huntington Learning Centers, Inc.

Contact: Natalie Tortorello

Address: 496 Kinderkamack Road
Oradell NJ 07649

Phone: 800-692-8400

Service Area: Statewide

PROGRAM DESCRIPTION

For over 30 years, Huntington Learning Centers, Inc. has provided the highest caliber of supplemental educational services designed to increase achievement for every student. Huntington provides instruction to students in grades K-12 in Reading and Math. We use varied research-proven curricula to deliver individualized instruction that meets each student's unique academic needs.

By following an individualized learning plan that has been created just for the student, Huntington is able to tailor its program to target the student's individual academic needs. This allows our program to maintain focus and intensity in the student's unique academic trouble areas, thereby addressing individual student needs and increasing overall student achievement. Our maximum student-to-teacher ratio is 6:1, and we employ 1:1 instruction as needed. Huntington's model of small group instruction is designed to ensure highly-personalized attention to the student's education. We employ research-proven instructional practices and motivational techniques, all with the aim of maximizing student achievement.

Additionally, Huntington works directly with teachers and school personnel to ensure that our content and instruction are aligned with what the student is learning in their local classroom by structuring our curriculum around the instructional goals of your local school district. Our ongoing assessment process guides us to which skills must be re-taught or newly introduced in order for the student to master the goals set forth by your local education agency.

Interim conferences with parents or guardians are scheduled monthly to review student progress and adjust the prescribed program as needed. We will provide the school, district personnel, and parents with progress reports on a monthly basis, and a final conference is held with parents to discuss results. While all information provided to parents will be in English, Huntington makes every effort to provide an interpreter for conferences when necessary.

Innovadia

Contact: Amit Janweja

Address: 20920 Community Street Unit 8
Canoga Park CA 91304

Phone: 818-301-5677

Service Area: Statewide

PROGRAM DESCRIPTION

We provide individualized, one-on-one tutoring in a safe online environment. In order to serve the students from low- income families, we provide the laptop & other required technology to take our classes, free of cost. Our tutors are experienced in their subjects and ensure that high quality instructions trigger maximum students' performance in minimum time.

A standard tutoring session will be for 90 minutes, 2 times to 3 times per week. The virtual classroom has a whiteboard where the tutor and students can share their problems and work on the lessons. It has a tools panel (pen, graphs, eraser, etc) to facilitate the learning process. The student and tutor communicate through chat.

Our tutoring program conducts pre and post assessment tests (Plato® EduTest) to be able to compare and pinpoint the exact students' achievements. It is a quick, accurate, research-based assessment that helps us to target instruction for student success.

The parents are provided with monthly progress report, containing the number of learning activities that the student completed during previous tutoring sessions along with the scores they earned on each of the activities, and the total number of hours of tutoring that the student has participated in.

Our program over the last three years has serviced more than 500 students. The tracking of improvement indicators was completed in all the years. Our program concentrates on mastery level achievement. This means that each skill is taught and assessed based on the ability of the student to understand and show evidence of scoring 80% or above on skill assessments. Skill analysis of reading in 100 school students has proved the improvement our program has brought about in the students.

KnowledgePoints in Kennewick

Contact: Sara Taylor

Address: 1408 N. Louisiana Street Suite 105
Kennewick WA 99336

Service Area: ESD 123 Pasco

PROGRAM DESCRIPTION

KnowledgePoints offers reading and math tutoring to students in Kindergarten through 12th grade, on-site at students' schools, community center or at a KnowledgePoints learning centers. Tutoring takes place after school and/or on weekends. We have tutored several hundred students during the past six years, and more than 85% percent of them have shown improvement in our program. At the program's start, we test all students to determine skill levels. During the program, we use nationally recognized learning materials that are aligned with Washington's Essential Academic Learning Requirements—the same standards followed in all Washington schools. KnowledgePoints offers small group (maximum 3-4 students per teacher) tutoring. Parents/guardians choose the program that best suits their child's needs.

Our trained tutors provide hands-on, in-person tutoring using research-based materials. Tutors are able to break down math and reading concepts to allow students to better grasp them. From there, tutors help students master knowledge of these skills and concepts. Our qualified tutors are highly trained in the KnowledgePoints educational management system and are experienced at working with students from diverse backgrounds to maximize learning. With a collaborative effort between our staff/tutors, schools/districts, and parents/guardians, we provide the best learning environment to ensure student success.

PROGRAM DESCRIPTION

Success in School and in Life

Like every good parent, you want your child to be successful. Once children develop the skills to succeed in school, they will take that confidence in learning with them for the rest of their lives. In just a few hours per week we can help make up the gaps in last year's performance and pave the way for a better year ahead.

KnowledgePoints® Learning Centers offer proven tutoring programs in Reading, Writing, Basic Math, Algebra and Geometry for grades K-12. Our learning center tutors are committed to working with parents, classroom teachers, and students to ensure success.

Tutoring at KnowledgePoints means better grades, happier families and one less thing to worry about. Our learning centers help students build skills and gain the confidence to succeed. An afternoon at KnowledgePoints could be the start of a world of difference for your child.

With multiple locations in communities like yours, our tutoring centers are convenient for parents and kids.

Our convenient locations:

Renton Highlands in the QFC Center on the corner of 4th & Duvall – 4820 NE 4th Street 425-227-4499

Kent Lake Meridian next to 24 Hr Fitness on the corner of Kent Kangley & 132nd – 12908 SE Kent Kangley 253-639-5599

Our individual instruction price is \$50.00 an hour. At the beginning of the program we provide you free of charge the initial diagnostic test which normally ranges from \$175.00 - \$250.00 and again after 40 hours of instruction.

Please visit our website at www.knowledgepoints.com/seattle or call us at 425-227-4499 to find out more and to find the KnowledgePoints learning center nearest you

From there, tutors help students master knowledge of these skills and concepts. Our qualified tutors are highly trained in the KnowledgePoints educational management system and are experienced at working with students from diverse backgrounds to maximize learning. With a collaborative effort between our staff/tutors, schools/districts, and parents/guardians, we provide the best learning environment to ensure student success.

Learn It Systems

Contact: Raquel Whiting

Address: 2201 Old Court Road
Baltimore MD 21208

Phone: 410-369-0000

Service Area: School District Specific

PROGRAM DESCRIPTION

Learn It produces results! Learn It Systems provides small-group, direct instruction at your child's school for eligible students in grades K-8. Our goal is to help every student achieve his/her full potential and be a successful learner. Learn It has helped thousands of students nationwide learn the fundamental reading and math skills they need to succeed in school and in life. Our program features:

- * SMALL CLASSES: 6-10 students on average per instructor, per class
- * PROFESSIONAL INSTRUCTORS: Experienced and specially trained for our programs
- * PERSONALIZED LEARNING: Individualized Plans for each student, at any level
- * LITERACY and/or MATH: Research-based, proven effective programs
- * SNACKS: Afternoon treats help students focus and give them energy
- * CONVENIENT LOCATION: After school, weekends, and summer, at your child's school

Statewide:
ESL, (Sibling) and All Welcome.

Parents:

"My 2nd grader now enjoys reading with me."
"My daughter improved her math SATs by 100 points."
"My student won a \$30,000 academic scholarship to a private high school."
"Without sibling space my child could not have attended."
"My child now feels better about herself."
"LitCom helped me to better help my child learn."

Teacher: "Now see this ESL student in a totally different light." "He has pride in himself."

Principal: "No LitCom students any longer failing."

Expert: "The home has the greatest opportunity for learning impact." (R. Gomez). LitCom works directly with parents and teachers.

Fun: Learning games, pizza. Serving 1 + students. Bus passes. Tutoring 1/1, small group (1 to 5).
\$60.00/student/hour.

ESL, (hermanos) y Bienvenidos todos.

Padres:

"Mi hija ahora disfruta de la lectura segundo conmigo."
"Mi hija mejoró sus exámenes de selectividad de matemáticas en 100 puntos."
"Mi hijo ganó una beca de 30.000 dólares académica a una escuela secundaria privada."
"Sin espacio entre hermanos que mi hijo no podría haber asistido."
"Mi hijo ahora se siente mejor consigo misma."
"LitCom me ayudó para ayudar mejor a mi hijo a aprender."

Longview School District

Address: 2715 Lilac Street
Longview WA 98632

Phone: 360-575-7007

Service Area: ESD 112 Vancouver

Longview School District

PROGRAM DESCRIPTION

Longview School District provides eligible SES students with reading and/or math supplemental educational services. These services are provided at their school site after school by highly qualified teachers. Teachers use the core standards as the target for student achievement in areas of math and reading. Our tutoring programs use research-based instruction and strategies that align with the learning styles of individual students.

An initial assessment provides the foundation for an instructional plan that supports your child and increases skills and confidence in the targeted areas. Our highly qualified teachers work with your child to coordinate instruction, build on strengths and maximize your children's learning opportunities and ability to succeed in their classrooms. Providing services at your child's school allows your child to attend with familiar classmates and teachers. Parents are regularly informed of progress through the sharing of assessment data and progress monitoring. Eligible students with disabilities and English Language Learner students are welcome.

Marysville KnowledgePoints

Contact: Karrie L Fraley

Address: 11603 State Ave
Marysville WA 98271

Phone: 360-653-4566

Service Area: ESD 189 Anacortes

PROGRAM DESCRIPTION

KnowledgePoints offers reading and math tutoring to students in Kindergarten through 12th grade, on-site at students' schools or at a KnowledgePoints learning center. Tutoring takes place before or after school and/or on weekends. We have tutored several hundred students during the past four years, and more than 85% percent of them have shown improvement in our program. At the program's start, we test all students to determine skill levels. During the program, we use nationally recognized learning materials that are aligned with Washington's Essential Academic Learning Requirements—the same standards followed in all Washington schools. KnowledgePoints offers small group (maximum 3-5 students per teacher) tutoring. Parents/guardians choose the program that best suits their child's needs.

Our trained tutors provide hands-on, in-person tutoring using research-based materials. Tutors are able to break down math and reading concepts to allow students to better grasp them. From there, tutors help students master knowledge of these skills and concepts. Our qualified tutors are highly trained in the KnowledgePoints educational management system and are experienced at working with students from diverse backgrounds to maximize learning. With a collaborative effort between our staff/tutors, schools/districts, and parents/guardians, we provide the best learning environment to ensure student success. Currently, we provide reports and communication to parents in English. Program overview is also provided in Spanish.

Mathnasium of Covington

Contact: Rayan Chepuri

Address: 17615 SE 272nd Street, Ste. 107
Covington WA 98042

Phone: 253-854-6284

Service Area: ESD 113 Olympia, ESD 121

PROGRAM DESCRIPTION

Mathnasium is a learning center where kids go after school to boost their math skills. We are highly specialized; we only teach math. Our program is for kids in grades 1 through 12. Students attend once or twice a week, for about an hour. Our goal is to significantly increase a child's math skills, understanding of math concepts, and overall school performance, while building confidence and forging a positive attitude toward the subject.

The Mathnasium Method uses a unique combination of mental, verbal, visual, tactile, and written techniques to help children learn math.

MENTAL

Students are taught how and when to use mental math techniques. This enables them to dispense with needless paper-and-pencil work and focus on the task at hand.

Example:

$$99 + 99 + 99 = \underline{\quad}$$

Instead of setting this problem as a vertical addition problem, students are taught to think, "100 + 100 + 100 – 3 = 300 – 3 = 297."

VERBAL

Language is used as an integral part of the program. Students are taught the meaning of root words in the mathematics context. Students are also taught how to explain their thought process and reasoning verbally.

VISUAL

Meaningful pictures, charts, and tables are used to explain ideas and concepts.

Many of the problems in the workbooks are "pictured-based," providing students with insights into problems that transcend the written words.

TACTILE

When appropriate, manipulatives are used to introduce, explain, and/or reinforce concepts and skills. The transfer of knowledge from manipulatives to other aspects of learning is carefully monitored.

WRITTEN

Written practice with computation ("drill") is a necessary component of mathematics education. Mathnasium provides for abundant practice.

In addition, our workbooks and other printed material provide a framework for the orderly development of mathematical thought and skills.

Service Area: ESD 114 Bremerton

PROGRAM DESCRIPTION

Motivating Our Children To Honor Academics (MO.C.H.A. MENTORING) is a comprehensive after-school mentoring program that offers experiential academic, personal development and athletic training to inner-city youth. MO.C.H.A provides a safe environment where learning and growth are encouraged.

MO.C.H.A. strives to go beyond traditional models of mentorship by exposing our clientele to a diverse team of mentors, ideas and opportunities that will help them better shape their current behavior and future goals.

Together, we've established tutoring routines that are predictable, consistent and in-line with state standards. We are committed to maintaining an inclusive atmosphere that encourages self-efficacy, self-expression and relationship building. We strive to enhance the educational, social, physical and intellectual growth of the youth we serve, so they can become healthy productive young adults.

Monroe School District

Contact: Virginia Ayres

Address: 200 E. Fremont
Monroe WA 98272

Phone: 360-804-2558

Service Area: ESD 189 Anacortes

Monroe School District

PROGRAM DESCRIPTION

Monroe Public Schools offers free tutoring for qualified Monroe Public School students in reading or math – on site at Frank Wagner Elementary and Park Place Middle School. Our tutoring program directly supports the curriculum offered in each child’s school. This is done through ongoing communication with the classroom teacher and support materials designed to coordinate with the curriculum used in the classroom, including newly adopted reading and math materials. Both the classroom and support materials are aligned with Washington state standards.

Tutoring will be provided in small group settings. This will allow for specific instruction in the area your child needs most. Pre-assessments in reading and/or math will allow teachers to tailor the instruction specifically for each child. Regular consultation between the tutor and the classroom teacher will ensure that the skills being taught in tutoring support classroom instruction.

Tutoring services are provided by certificated teachers and para-educators after-school and during holiday breaks at the child’s school. Sessions will average 2-3 hours per weeks for several weeks on a schedule agreed to by families and the tutor.

Families will play an important role in helping design the program so both home and school are working toward the same goal. At an initial consultation meeting, the family and tutor will design the tutoring program to meet the child’s academic needs, using the results of reading and/or math assessments. On-going assessments will keep parents and teachers informed about each child’s progress.

Montesano School District

Contact: Kathy Bradshaw

Address: 519 West Simpson
Montesano WA 98563

Phone: 360-249-2114

Service Area: ESD 113 Olympia

Montesano School District

PROGRAM DESCRIPTION

The Montesano School District is committed to improving the academic skills of all students. The district will utilize teachers who meet the highly qualified standard in Reading and Math to support students in small group instruction.

Students entering the Supplemental Educational Services will be assessed using the performance series to determine their instructional level. Goals will be created with the parents outlining current level of performance and then expected outcomes. Students will participate in individual or small group instruction using scientifically researched based interventions. Student progress will be monitored and shared with parents and teachers.

All correspondence will be appropriate for parents given the parents literacy levels or native language.

Moving Beyond Arithmetic

Contact: Norman Alston

Address: 4730 32nd Avenue South
Seattle WA 98118

Phone: 206-371-7720

Service Area: ESD 121 Renton

Seattle Public Schools

PROGRAM DESCRIPTION

Moving Beyond Arithmetic™ (MBA) at Zion Prep Academy is a non-profit organization founded based on a belief that math is fun and can be learned if taught dynamically. MBA is housed out of Zion Prep Academy.

Our goals are to Accelerate, Challenge and Enrich learning. MBA offers Components that stimulates, challenges and engages students via: Saturday Math Class, Individual Tutoring, Remedial Arithmetic and School Math instruction. We also work closely and consult with students' classroom teachers as well as their parents to monitor progress. Moving Beyond Arithmetic was founded by mathematician, Norman Alston in 1998. MBA is a vibrant and culturally relevant collaborative study of math. It was born out of a desire to really see children of color explore number theory, algebra, and advanced math concepts early. In fact teaching advanced concepts early will ensure our children are grounded and prepared to succeed at the middle/high school level while building their confidence and disposition to do serious mathematics. MBA affirms that children who are regularly mentored by dedicated, skilled, passionate and inspired math teachers will attain to standards, and eventually excel.

Additionally, we believe that many children in the inner city need community based interventions, such as MBA, in their school math experience to supplement their regular education.

Nespelem School District

Contact: Betty Brueske

Address: 229 School Loop Road
Nespelem WA 99155

Phone: 509-634-4541

Service Area: ESD 171 Wenatchee

Nespelem School District

PROGRAM DESCRIPTION

The teachers involved in this tutoring program are currently employed as teachers at Nespelem School, and are very familiar with Washington State Standards (EALRs), and will use scientifically-based methods for tutoring and intervention. These teachers are well known for their use of innovative, interesting and appealing methods for teaching, targeting the learning styles of individual students. They recognize the student appeal of the computer and use standardized lessons on the Internet. Progress feedback will be continuous although goals will vary dependent on identified objectives based on student needs.

Neuroeducation, Inc, P.C

Contact: Pat Sharp, Ph.D.

Address: 905 W. Riverside Ste. 208
Spokane WA 99201

Phone: 509-747-0165

Service Area: ESD 101 Spokane

PROGRAM DESCRIPTION

At The Learning Clinic at Neuroeducation we believe each of us has a different way of learning because our brains are wired differently.

These subtle neuro-developmental variations can greatly affect how productive we are in the learning process. In addition, learning is profoundly influenced by social, emotional and behavioral factors. Therefore, if the learning process is to be truly effective, the teaching process needs to be individualized rather than conducted in a standardized fashion, thereby taking into account the remarkable diversity of the mind. Frequently, when this individualization does not occur, the result is undue frustration and consequent failure with learning.

For many individuals, frustration with the learning process is compounded even further by the existence of a learning disability. Unfortunately, these learning disabilities are typically misunderstood and go undetected by both parents and/or teachers. When school becomes a struggle, the admonition to just "try harder" doesn't work. It's almost never an issue of laziness or lack of motivation, but rather the result of extreme frustration and fatigue associated with recurring failure.

At The Learning Clinic we match our tutoring to how the child learns, resulting in remarkable success stories.

Newcomers Learning Center

Contact: Mahamed Jama

Address: 15031 Military Road South Ste. A
SeaTac WA 98188

Phone: 206-910-0275

Service Area: ESD 121 Renton

PROGRAM DESCRIPTION

Newcomers learning Center (NLC) is a tutoring service that will provide homework help to students after school, weekends, and during the summer. The goal of the program is to increase the educational achievement of English Language Learners (ELL) students.

We will offer reading, writing, and math support. The staff has experience working both in a classroom setting serving students as a group and has worked in a one to one setting as an instructional assistant. The tutoring sessions will be held at students' local neighbor centers such as libraries and community centers and students schools. We will be using a learning system that will be tailored to each student's need. NLC has bilingual staff that can relate to (ELL) students who speak Somali Language.

NLC's method of tutoring will consist of homework help, reinforcing and supplementing classroom lessons, and providing additional support for curriculum comprehension. Our goal is to give each of our students as much support as they need in subject areas that are challenging for them. NLC will also work with students' school and parents to ensure that they are achieving to the fullest.

Nooksack Valley School District

Contact: Kevin DeVere

Address: 3326 East Badger Road
Everson WA 98247

Phone: 360-966-2030

Service Area: ESD 189 Anacortes

Nooksack Valley School District

PROGRAM DESCRIPTION

Nooksack Valley Supplemental Education Services (NVSES) provides academic support and tutoring to students and families in the Nooksack Valley School District. Our research based instructional models utilize a multi-faceted (balanced) approach to delivering instruction that provide structures (read aloud, shared and guided groups, workshops that include mini-lessons, independent practice, conferring and a common share) to differentiate based on individual student needs. Content and processes are scaffolded to support increasing responsibility for learning by the student.

NVSES uses a variety of assessment tools to both diagnose specific skill concerns as well as inform next instructional steps. The purpose of the supplemental services is to increase the opportunity to learn for the student, not by repeating what has already occurred (and not worked) in the classroom, but to align with the standards taught in the classroom (concepts, skills and knowledge) and increase the individual attention, enhance the differentiation of the standards to meet specific needs/gaps and to provide more intense instruction that aligns with the learning style and temperament of the student.

To the greatest extent possible, the child's regular classroom teacher is the one to provide the services to the student to capitalize on the extensive and intimate knowledge that the teacher possesses of the student, his or her needs, and the instruction and content of the classroom. Academic goals are created as a collaborative team – parent, student, classroom and supplemental service teacher. The goals and objectives include activities and responsibilities for each member of the team to ensure the success of the student. Student progress toward achieving the goals is reported at each session for the child and with parents at the conclusion of each trimester.

North Mason School District

Contact: Anne Crosby

Address: 71 E Campus Drive
Belfair WA 98335

Phone: 360-277-2329

Service Area: ESD 114 Bremerton

North Mason School District

PROGRAM DESCRIPTION

North Mason's Achieve Now tutoring program will offer a comprehensive reading and math skill building curriculum.

Pearson Digital's integrated learning system, SuccessMaker is directly aligned to Washington State Standards. Students enrolling in the Achieve Now program will have access to a learning lab in their elementary school as well as a lab in the district office. There will be both a before and after school program offered during the year as well as one offered during the Summer Vacation. The Achieve Now program design will be flexible and individualized in order to meet the needs of each student and their families. Learning will be self paced with academic progress and growth monitored and tracked on a daily basis.

Parents will have access to the Achieve Now tutoring staff who will contact parents weekly by phone or email to give progress reports on their student. Written progress reports will be mailed monthly.

Northwest Community Action Center

Contact: Heather Elmore

Address: 706 Rentschler Lane
Toppenish WA 98948

Phone: 509-865-7630

Service Area: ESD 105 Yakima

PROGRAM DESCRIPTION

Northwest Community Action Center (NCAC), division of YVFWC provides Supplemental Education Services (SES) for eligible students residing in the lower Yakima Valley. The SES is available for reading and math at eighteen 21st Century Community Learning Centers located in the lower Yakima Valley. Instruction will be provided by certified instructional staff during center hours of operation which are generally Monday-Thursday from 3:00-5:00pm for eligible students grades K-12.

Instructors assess student baseline reading and math levels through district administered testing, such as MAPS, DIBELS, or Stars scores. Learning goals are created by the instructor in collaboration with the student, parent/guardian, and school district staff. Ongoing academic progress is monitored to ensure adequate progress is achieved. Academic materials used support Washington Learning Goals, Essential Academic Learning Requirements and Grade Level Expectations. Reading curriculums support phonemic awareness, phonics, fluency, vocabulary, and text comprehension. Mathematic curriculums support understanding mathematics, computing fluency, applying concepts to solve problems, reasoning logically, and engaging in mathematics.

Northwest Community Action Center will provide Supplemental Education Services through Safe Haven at a cost of \$40.00 per hour per student. This cost includes the following expenses: personnel, personnel benefits, educational materials, supplies, equipment, equipment repairs, facility usage, personnel travel/training, communication, and administrative costs.

Northwest K-8 Learning Support, Inc.

Contact: Margaret Kulkin

Address: P.O. Box 6
Edmonds WA 98020-0006

Phone: 206-714-6392

Service Area: ESD 121 Renton, ESD 189

PROGRAM DESCRIPTION

ALL SERVICES PROVIDED BY WASHINGTON STATE CERTIFIED TEACHER, MARAGRET KULKIN.

Students at Northwest K-8 Learning Support benefit from teaching that is guided by focused, concentrated, and intensive instruction. Time is taken during each tutoring session for students to ask and respond to questions, problem solve, and express individual ideas about how to arrive at answers.

Periodic assessments (curriculum based measurements) are used as tools to evaluate the challenges or gaps in understanding that can make learning difficult or frustrating. Diagnostic assessments are used along with more informal progress-monitoring to provide critical feedback about skill level. The information gained from test data and input from students, families, and teachers will be used to develop goals and areas to target instruction.

Services provided by Northwest K-8 Learning Support include: helping students with language delays, learning disabilities, or special needs. All skills are taught at a manageable pace, and if necessary, lessons can include additional instruction on English usage, spelling, and vocabulary.

Depending on student need, reading instruction focuses on phonics, phonemic awareness, vocabulary, fluency, and comprehension. High-interest passages are used during tutoring sessions in both fiction and non-fiction. Students are encouraged to find meaningful ways to connect with what they read, sharing personal background knowledge on a particular subject, or a connection with a particular situation, character or event.

Math instruction includes teaching strategies for practicing math facts, problem solving, and understanding mathematical procedures and concepts. Northwest K-8 Learning Support uses math games and standard math models (base-10 blocks, counters, graphs, fractions tiles) to provide hands-on experience with math concepts and the different ways to represent them.

Northwest K-8 Learning Support, Inc. encourages communication with families. Northwest K-8 Learning Support utilizes The Refugee and Immigrant Forum of Snohomish County to translate progress reports or goals for families that request it.

Northwest Learning and Achievement Group

Contact: Bertha Garza

Address: PO Box 833
Wapato WA 98951

Phone: 509-877-9906

Service Area: School District Specific

PROGRAM DESCRIPTION

The Northwest Learning and Achievement Group's CAD*LAC (Centro de Aprendizaje y Desarrollo/Learning and Achievement Center) will serve 29 central Washington school districts (Omak, Oroville, Tonasket, Okanogan, Bridgeport, Brewster, Chelan, Manson, Prosser, Highland, Royal, Wahluke, Othello, Soap Lake, Touchet, Prescott, Waitsburg, Wilson Creek, Warden, Quincy, Walla Walla, Wapato, Wenatchee Toppenish, White Swan, Granger, Grandview, Zillah and Sunnyside) providing tailored tutoring services for students from grades Kindergarten through 12th in individual or small group learning groups primarily in the content areas of math and English/Language arts, although other subjects can be addressed.

Tutoring will occur in the student's school building or local public access facility (library, community center) based on student need, parent requests and facility availability. The instructional support program for each CAD*LAC tutored student will be developed by NLA and qualified tutors using district assessments of student abilities (learning assessment tests), parent and teacher input. Tutoring materials will rely on texts and instructional materials used in the student's classroom; other supplemental materials will be Washington state standards-based or those used in the regular school day. Tutors will be drawn from certificated and classified instructional staff, or trained college-educated tutors, including tutors who are proficient in Spanish or Russian/Ukrainian, depending on student need and district. Student progress will be charted weekly by the tutor in tutoring sessions.

Parents/guardians will receive updates on student progress at least monthly, and if requested or indicated, weekly. Parents can receive updates in Spanish and/or Russian/Ukrainian, on request.

Northwest Tutoring

Contact: Mohamed Sheikh-Adan

Address: P.O. Box 69623
Seattle WA 98168

Phone: 206-778-3369

Service Area: ESD 121 Renton

PROGRAM DESCRIPTION

Northwest Tutoring provides one-o-one tutoring in math for children in grade K-5 who are below grade level in math. We provide tutoring after school, on weekends, and in the summertime. Our staff is teachers, substitute teachers, and paraprofessionals who have a great experience of working with low income and bilingual students. Material used will be the school curriculum that the student is currently using. To asses student needs, students will be given an appropriate grade level test. After 2-3 weeks of tutoring, students will take a skills test to determine their ability to move into the next level. Parents are welcome to observe their children at any time.

Okanogan School District

Contact: Richard Johnson

Address: P.O. Box 592
Okanogan WA 98840

Phone: 509-422-3629

Service Area: ESD 171 Wenatchee Okanogan School District

PROGRAM DESCRIPTION

The Okanogan School District Tutoring Service provides supplemental services in the area of mathematics for middle school students through the Carnegie Learning Skills Tutor online program. With the supervision and assistance of a skilled tutor, the student will be tested and placed at their level of expertise in a web based curriculum that is guided by the students ability to master each skill taught.

Ongoing planning and communication with the parents and teachers of the student provides a seamless link to the regular school curriculum that ensures student success.

Pacific Lutheran University

Contact: Brenda Johnson

Address: 1010 122nd Street
Tacoma WA 98447

Phone: 253-535-7142

Service Area: ESD 113 Olympia, ESD 114 ESD 121 Renton

PROGRAM DESCRIPTION

The minimum number of students required for our program is one, with a maximum of six students to one tutor/teacher ratio. Tutoring is done at the student's school or, upon request, tutoring sessions can be scheduled at Pacific Lutheran University's Mortvedt Library or a local library near the student's home.

The Tacoma/South Puget Sound Mathematics, Engineering and Science Achievement (TSPS MESA) Supplemental Services Tutoring Program "Rising Stars," tutors students in mathematics, reading, organization and study skills. We are dedicated to teaching the student the importance of a good education. Our "Rising Stars" tutoring program is an effective way to help students reach their potential and obtain higher academic self esteem. Elementary, middle/junior and high school students are tutored by Pacific Lutheran University students (Mentor/Tutors). Our Mentor/Tutors are proficient in mathematics and reading and meet with students for a series of one-on-one or one instructor to six students tutoring sessions, depending on the request and availability of tutors. A learning environment is facilitated in which students are encouraged to become part of an "academic community."

- Tutors are carefully screened for their proficiency in mathematics, science and English subjects and are expected to develop a personal relationship with the students as mentors.
- Hands-On Instructional Methods: MESA believes a student will "learn mathematics and science by doing mathematics and science." A hands-on approach is used in teaching mathematics along with other strategies.
- Tutoring sessions develop: academic confidence, study habits, critical thinking and problem solving skills along with improved homework completion and grades in mathematics and reading.

Para Los Ninos

Highline Public Schools

PROGRAM DESCRIPTION

Para Los Ninos offers comprehensive tutoring after school and during the summer for children in grades K - 12th within the Highline Public Schools. Para Los Ninos has a long history of offering educational services to Latino children and their immigrant family in a manner that is culturally and linguistically sensitive to their needs. Educational services by Para Los Ninos is offered to every student in need within the Highline Public Schools.

Personal Touch Tutoring Services

Contact: Barbara Cary-Hamby

Address: 323-75th Street SE, Unit C-66
Everett WA 98203

Phone: 425-355-1732

Service Area: School District Specific

PROGRAM DESCRIPTION

My name is Barbara Cary-Hamby. I have been an educator for thirty-five years. I have a Masters Degree in Special Education/Learning Disabilities, a Post-Masters Degree in Reading, and dual certifications as a School Psychologist and School Counselor. I have served as a Title I Corrective Reading Teacher, School Counselor, and School Psychologist. My teaching and School Psychology/School Counseling experiences have been broad, rich and varied.

As a parent, I know firsthand the struggles involved in teaching our children academic skills and the blow to our children's self-esteem when they do not learn as rapidly as others. I have a strong passion, desire, and commitment to assist your children as emerging readers, tackle their negative self-beliefs, replace those beliefs with more positive beliefs, learn comprehensive reading skills, and become more competent, lifelong readers. My program assists students in developing skills in the following areas: auditory phonemic awareness; phonics; vocabulary skills, including sight word and meaning vocabulary; comprehension skills, including main idea, details, and inference skills; fluency skills, including smoothness, accuracy, and speed; and writing skills, including capitalization, grammar, punctuation, and spelling.

It is essential at the beginning of the tutoring process that student's begin to build more positive self-esteem. Therefore, my goal as the Reading Specialist is to help students become more aware of their reading strengths and their personal strengths. These strengths are listed on index cards which are read aloud as affirmations at the beginning of each session. These affirmations assist students in building their confidence and perseverance. They empower students to believe they are capable of overcoming any challenge. The tutoring process has been transformational for all of my students, and the positive transformation has carried over into their school performance and success.

Pi Plus Tutors

Contact: Brian Forster

Address: PO Box 0755
Mukilteo WA 98275-0755

Phone: 425-315-9850

Service Area: Statewide

PROGRAM DESCRIPTION

Why Pi Plus Tutors?

- WASHINGTON OWNED, LOCALLY STAFFED & OPERATED – Tutors who are familiar with the unique needs of communities in which they live, work and serve
- INDIVIDUAL & SMALL GROUP INSTRUCTION – Low student/tutor ratios allow for more personal attention to each student in our program
- PROFESSIONAL, HIGHLY QUALIFIED EDUCATORS – Experienced, specially trained and dedicated tutors who are passionate about working with inspired students
- PERSONALIZED LEARNING – Individualized plans for each student, tailored to the students' most pressing academic need
- READING and/or MATH – Research-based, proven effective curriculum designed to maximize each student's progress
- CONVENIENT LOCATION – After school, evenings and weekends at a structured, familiar educational setting – home/apartment, school, library or community center
- FREQUENT COMMUNICATION – Consistent feedback on student progress for parents/guardians, classroom teachers and key school/district personnel

Additional advantages for students:

Our maximum student-to-teacher ratio is 4:1, and we employ 1:1 instruction when possible. This model of individual and small group instruction is designed to ensure highly-focused attention to your student's most pressing academic needs.

Pi Plus Tutors employ research-proven instructional practices and motivational techniques with the aim of maximizing each student's progress leading to greater confidence in & out of the classroom.

Students also benefit from teaching that is focused, concentrated, and intensive. Time is taken during each tutoring session for students to ask and respond to questions, problem solve, and express individual ideas about how to arrive at answers.

Skills are taught at a manageable pace, and if necessary, lessons can include additional instruction on English usage, spelling, and vocabulary for students who are English Language Learners.

We prefer a minimum of 5 students in order to serve a school district but will consider special circumstances for smaller enrollments.

Contact us at (425) 315-9850 or visit our website at www.piplustutors.com. Thank you!

Powerful Schools

Contact: Tre Maxie

Address: 3301 S. Horton St.
Seattle WA 98144

Phone: 206-722-5543

Service Area: ESD 121 Renton

PROGRAM DESCRIPTION

Powerful Schools is a education non-profit with over 20 years of experience helping struggling readers, expanding children's possibilities through writing, using arts in the student curriculum to reach non-traditional learners, and offering a wide range of after school classes for students at their school.

Our reading tutoring program serves as the foundation of Powerful Schools' literacy strategy. The program ensures that the lowest performing elementary readers are identified by their teachers, and provided with intensive individualized tutoring throughout the school year. We recruit and train tutors from the community to work individually with students on a daily basis, using a scientifically proven, field-tested curriculum to bring each student up to grade level within the school year. Over 85% of our students who are reading below grade level achieve grade level reading by the end of the year.

Powerful Schools programs also encourages family involvement through student progress reports and literacy nights. The literacy nights are free and they help families with basic at-home reading techniques, creative storytelling, literacy games, and an end-of-the-year celebration of student achievement. Our tutors and staff have decades of experience working with all students from various cultural and economic backgrounds.

Project Life Impact

Contact: Gail Mathews

Address: 468 West 5th Street Suite 212
San Bernardino CA 92401

Phone: 951-415-9063

Service Area: Statewide

PROGRAM DESCRIPTION

Project Life Impact effectively links the technology children crave with the instruction they need. The K-12 online mathematics and reading services are provided 24/7 in the convenience of the student's home. The assessment adapts to the skills and responses of the student to improve accuracy and reduce frustration. Just as no two people are the same; no two learning profiles are the same. All lessons are tailored specifically for the unique learning profile of each student.

The high-quality video lessons are student-friendly and align to state standards and most textbooks. The one-on-one videos correspond to daily classroom instruction to improve student achievement. The lessons include high-interest materials, manipulatives, models, real-world problems and age-appropriate games to engage and motivate students throughout the program. The self-paced lessons may be repeated as often as necessary without fear of embarrassment. However, students must receive mastery (70%) or the tutorials are repeated. Students should work on the program at least twice a week for one hour.

The award recognized by the US Department of Education and more than 10 case studies have proven the materials to be innovative and effective for diverse populations, slow readers, English learners, and special needs students.

Project Life Impact provides monthly reports to parents and the school. Students will receive a full year of online curriculum and daily Homework Help. Although the services are primarily computer-based, online "live" support tutors who have a BS/BA or MS/MA degree and are NCLB highly qualified are available.

Project Life Impact provides laptops for students who do not have them so that they may access the program.

Prosser School District

Contact: Claudia Olmstead, PhD

Address: 823 Park Ave
Prosser WA 99350

Phone: 509-786-2881x12

Service Area: ESD 123 Pasco

Prosser School District

PROGRAM DESCRIPTION

Prosser School District will provide eligible SES students with supplemental educational services in Reading and/or Mathematics. This support will conveniently be offered after school at your child's school in the Prosser School District. The instruction is provided by highly qualified teachers who know how to focus on success strategies for students to meet standard in the Washington State assessments. All instruction will be delivered specifically to address Washington State standards.

Research-based small group instruction and tutoring will be customized to meet the needs of each student. Instructional programs will address these needs based on individual assessments. SES teachers will communicate with your child's teacher to assure that instruction matches your child's learning at school. Bi-weekly reports will keep parents and classroom teachers informed.

Specific strategies in study and assessment skills will strengthen your child's success at school. Interactive classroom dialogue strategies will be used to enhance your child's critical thinking skills.

Eligible students with disabilities and English Language Learners are welcome. Students may receive services from one to four days a week after school or during school breaks.

The Prosser School District cares about each of its students. Consider the Prosser School District as the Supplemental Educational Services provider for your student to make the best connection between the classroom and extra support! Contact Claudia Olmstead, SES Director at 509-786-2881 to find out more about this free service.

Real Teacher Tutoring

Contact: Leland Blanchard

Address: 524 Flora Vista Road NE
Olympia WA 98506

Phone: 360-705-0549

Service Area: ESD 113 Olympia

PROGRAM DESCRIPTION

"Real teachers ... real learning"

Real Teacher Tutoring provides personal, quality learning experiences. Students experience success each step of the way as they achieve grade level expectations and advance beyond.

Real Teacher Tutoring is custom designed for the needs of your child. It may take place in the safety and well-being of your home, or at another location of your choosing.

Face-to-face instruction with a real teacher is ideal for the great majority of students. The teacher can tell right away if the student doesn't understand an explanation and can clarify immediately or explain further.

Real Teacher Tutoring uses the mastery learning technique, a technique based on the observation that students need to master content before moving on to new content. This technique ensures that students experience success at each level.

This is powerful motivation. As the saying goes "there is nothing more successful than success." Your child will look forward to Real Teacher Tutoring.

Clearly Real Teacher Tutoring is the superior service. You want teachers who have the professional skills to adapt instruction to meet your student's needs. Our teachers are certified, fully endorsed, and highly qualified to teach math in Washington.

A remarkable advantage of Real Teacher Tutoring is continuous student engagement. The one-to-one relationship of teacher and student is a positive setup for success. Your child stays engaged as an active learner.

Individualized, highly motivating, quality learning experiences with a certified math teacher in the safety and well-being of your home is unbeatable. Real Teacher Tutoring is the best choice for enhancing and supporting your child's academic performance.

Refugee Women's Alliance

Contact: Jeff Sikora

Address: 4008 Martin Luther King Jr. Way South
Seattle WA 98108

Phone: 206-721-0243

Service Area: ESD 121 Renton

PROGRAM DESCRIPTION

The Refugee Women's Alliance delivers culturally and linguistically appropriate core subject's homework assistance, individual tutoring, and group instruction to low-income refugee and immigrant students from 3 locations in King County.

Through our 10 years of working with refugee and immigrant youth, we have developed a program design and service delivery models that effectively address the needs of English Language Learners. In the 2008-2009 school year, 97% of Youth Program students matriculated to the next grade level, performing better academically and exhibiting the improved social skills that come with newfound self-confidence. In the 2008-2009 school year, 97% of students also improved their study skills, including increasing the number of completed homework assignments.

Refugees Resettlement Project of King County

Contact: Burhan A Hassan

Address: 1209 Central Ave S., Suite 125
Kent WA 98032

Phone: 206-403-0733

Service Area: Statewide

PROGRAM DESCRIPTION

SUMMARY: Refugee Resettlement Project for King County (RRPKC) is a community based non-profit 501(c) 3 organization with a mission to provide acculturation skills and literacy to Immigrant, Refugee, African and Somali communities and others through education, information, advocacy and networking, and to develop a foundation that helps individuals attain self-sufficiency.

Based upon the request of Somali parents and the current education level of Somali children, RRPKC now provides after-school tutoring for children in grades k-12. Parents of the children have limited English skills and unfortunately, are unable to assist their children with homework. Participants that excel in school are known to have outside support to encourage and assist in their academic studies. RRPKC realizes that without additional help, children will not progress at the level needed to succeed.

*RRPKC Free tutoring is provided by qualified tutors who teach at your home or a nearby location. *RRPKC tutors are current or former teachers or substitute teachers, or have at least two years of college. *All RRPKC tutors pass a state/federal police background check. *RRPKC prepares individual learning plans (IAP or IEP) to match each child's grade and learning level. We report progress to parents and schools on a regular basis, weekly or monthly. *RRPKC, in its fourth year providing free tutoring in math and reading, uses the Study Island program. Study Island has proven to be effective in increasing math and reading performance. It is geared to each student in each subject. *RRPKC tutors make accommodations and individualize curriculum for students with disabilities or special needs.

Renton School District

Contact: Geneveive Ramsey

Address: 300 S.W. 7th St.
Renton WA 98057

Phone: 425-204-2278

Service Area: ESD 121 Renton

Renton School District

PROGRAM DESCRIPTION

RSD FOCUS program, serving Renton School District students, will meet for one hour after school twice weekly. Parents may choose to have their student receive assistance in reading or math. Instruction will occur in small groups of no more than six, sometimes services will be one-on-one. Tutoring sessions will align with what the student is working on in their classroom and will focus on the skills and content areas where students most need to improve. Students will use materials and curriculum that is closely aligned to their classroom to support them in the specific areas where they are not currently at standard. Students will receive this after school help from highly qualified Renton School District teachers who understand what students are learning in their classroom, what they are supposed to learn, where the students currently are at, and how to accelerate their learning. These teachers will use their knowledge and expertise to accelerate each student's learning to assist each student in reaching their potential.

RK Educational Consultants

Contact: Dr. Richard Klecan

Address: 10357 East Roywood Way
Tucson AZ 85747

Phone: 520-784-0948

Service Area: ESD 112 Vancouver, ESD 113 ESD 121 Renton

PROGRAM DESCRIPTION

The Tortuga Tutoring Company, a privately owned and operated company providing Supplemental Education Services (SES), aims to serve the (K-12) students of the state of Washington through a phonics-based reading program, a systematic writing program and a traditional program in mathematics, all with an environmental perspective. As a subsidiary of the parent group, RK Educational Consultants, these academic remediation professionals also offer a college preparatory environmental ethics course designed for the upper secondary students.

This innovative tutoring company has successfully served the state of Arizona through Title One - Supplemental Education Services for four years, wherein documented evidence has been recorded for academic improvement in the AIMS state tests for 95% of students served. Our commitment to improving students' AIMS scores will continue with Washington's Essential Academic Learning Requirements. The student progress has been measured and communicated to parents, administrators and site coordinators through RK Educational Consultants - generated Individual Development Profiles, a type of progress report, which identify several reading and mathematics standards for each student to specifically address needy areas in the tutorial sessions. The Tortuga Tutoring Company is renown for its personable, energetic staff, which consider the progress of each individual student of vital importance.

With a systematized program in phonics and environmental education, as well as in reading and mathematics, we offer individualized and small group interaction providing support for students K-12 in the state of Washington.

Roberts Family Development Center

Contact: Derrell Roberts

Address: 770 Darina Ave
Sacramento CA 95815

Phone: 916-646-6631

Service Area: ESD 101 Spokane, ESD 113 ESD 121 Renton

PROGRAM DESCRIPTION

The Roberts Family Development Center provides a highly structured Mathematical SES program designed to meet Washington State Learning Goals.

Our staff consists of credentialed teachers, college graduates, and current college students who have experience with implementing mathematics instructional curriculum. Your child(ren) will be in an educational environment that will implement one-on-one, small group instruction, and hands-on activities to enhance their mathematical comprehension. The success of our services is well documented. We will track the student's progress by providing monthly progress reports to parents and the appropriate school staff. "Family Math Nights" give parents an understanding of the work students are expected to master.

Rochester School District

Contact: Joan Halverstadt, Special Services Director

Address: PO Box 457 (10140 Hwy 12 SW)
Rochester WA 98579

Phone: 360-273-6522x104

Service Area: ESD 113 Olympia

Rochester School District

PROGRAM DESCRIPTION

Rochester School District believes all students can learn but every student is an individual who learns at their own rate and in their own style. We offer targeted intervention services for those students in 2nd-5th grades who need additional support in acquiring essential skills and concepts in the areas of reading and math. Lessons are developed for each individual dependent on their specific skill needs. Beginning, middle, and ending progress monitoring is done to measure student growth and adapt instruction.

Our Highly Qualified teaching staff uses state approved district reading and math curriculum which is aligned to the Washington State Academic Learning Requirements. Using teachers who are familiar with the daily curriculum ensures students are receiving the specific support they need in order to be successful in school.

Parents are a vital support for every student. In our SES program, we have Parent-Teacher conferences every 4-5 weeks to share the student's progress. We also write a Student Learning Plan in which the student, teacher, and parent agree to be partners in the student's education, set progress goals, and outline requirements for homework. Communication between home and school in Spanish is available upon request.

Group size for SES tutoring is 3-4 students to one certificated teacher. Parents may choose before school, after school, summer school, or interium (during school breaks) sessions. Students are eligible for twenty 75 minute sessions of SES tutoring.

Salaam Urban Village Association

Contact: Amanuel Yahannes

Address: 3621 33RD Avenue S., Suite C8
Seattle WA 98144

Phone: 206-708-6382

Service Area: Statewide

PROGRAM DESCRIPTION

Our tutorial program is an accelerated program that meet where they are and take them where and beyond where they need to be. We prapare students to be successful in school as well as life. Our instructions are designed to complient what the School District does.

Parents are encouraged to participate in the tutorail program to help assure students attendance and success. Parents are provided weekly progress reports and an end of the year report that detail the students strengths and areas that need continued improvment.

Parental information is provided in English and in their native language.

Seattle Indian Health Board

Contact: Becky Corpuz

Address: P.O. Box 3364
Seattle WA 98114

Phone: 206-834-4004

Service Area: ESD 121 Renton

PROGRAM DESCRIPTION

Seattle Indian Health Board began serving the Seattle Community in 1970. Although we serve all races, SIHB focuses on serving Native Americans and Alaskan Natives. Our tutors understand how to break down barriers that keep Native American children from excelling in school, while providing cultural education in the process. SIHB also runs a community health clinic, thus we provide expertise and access to health resources beyond many other Supplemental Education Providers.

Seattle Public Schools

PROGRAM DESCRIPTION

Seattle Public Schools SES Tutoring Program offers research based instruction in literacy and math. Instruction is provided at your child's school by certificated teachers and instructional assistants. The primary goal of the Seattle Public Schools SES program is to increase student achievement by implementing a high quality tutoring program. Instruction and materials will be carefully designed and chosen to complement and extend the student's school day learning and instruction. SPS teachers and instructional assistants will be hired as tutors so that the student's SES tutoring can function as an extension of the school day. To the extent possible, materials will be used that directly correlate with SPS curriculum. SPS employs bilingual instructional assistants who can provide language support in the following languages: Spanish, Vietnamese, Chinese, Somali, Amharic, Cambodian, Oromo, Tagalog, and Tigrigna.

Skylar Education Academy

Contact: Ms. Yolanda Paez

Address: 1201 W. Washington Ave #77
Yakima WA 98903

Phone: 877-385-5973

Service Area: Statewide

PROGRAM DESCRIPTION

Our K-12 academic program utilizes state and district standards in daily instruction and expects academic accountability on behalf of all members involved: parents, students, teachers, admin.

Our goal is for each student to perform at 80% or better in academic achievement. Reading, Writing and Math skills are emphasized with the understanding that mastery of these skills will positively impact all other content areas of study.

Teachers use WA State EALRs/Standards to monitor student progress.

Data driven instruction is used to plan all lessons. Data is derived from students WASL scores, teacher/student/parent input, student report cards, or quarterly progress reports.

Instruction is based on individual student needs and may include Distance/On-line classes, traditional textbook assignments, or project based courses.

Students, enrolled in our program, will have the following requirements:

1. An Individualized Academic Plan that describes classes, assignments, tests, and a grading.
2. Goal oriented lessons and assignments; students must complete studies by agreed time lines.
3. Parent involvement. Parent will sign a parent contract agreement that indicates:
 - a. A parent or guardian must be present during all academic discussions or conferences with the student.
 - b. Meet or speak with instructor on a monthly basis for review of academic progress
4. Intervention Plan – if student is not making academic progress, an intervention plan will be developed in which areas of concern are identified; plan describes how student will be served to improve academic performance.
5. Academic progress will be reported on a monthly basis.
6. Student Portfolio – students will maintain a binder that maintains a standards sheet, all assignments, tests, written samples of work completed.

Assessment:

1. Students will be assessed two to three times during the school year or during their enrollment:
 - a. In the fall, upon enrollment to establish a baseline of academic performance.
 - b. Mid-year/mid-term to review development, achievement, and mastery of skills.
 - c. End of the year to determine students overall academic growth.
2. Assessment tools include:
 - a. Teacher Observation
 - b. WASL information
 - c. Woodcock Johnson, Brigance or Renaissance Star Reading, Star Math

Snohomish School District

Contact: Ann Jennings

Address: 1601 Ave D
Snohomish WA 98290

Phone: 360-563-7256

Service Area: ESD 189 Anacortes

Snohomish School District

PROGRAM DESCRIPTION

Program Description for OSPI Website:

The Snohomish School District Supplemental Educational Services (SES) uses programs, skills and strategies that are aligned with the Washington State Essential Academic Learning Requirements (EALRs) in reading and math.

Our SES program reading program teaches phonics using explicit routines for decoding skills and strategies. Instruction of high-frequency words and vocabulary words includes multiple opportunities to practice and read in text. There will be time to read and reread for fluency. Comprehension skills include strategies using graphic organizers, monitoring comprehension, identifying story and text structure, asking and answering questions and summarizing texts.

Our math SES program is based on mathematical proficiency in Number Sense. Students will read, write and understand the meaning, order and size of numbers, moving flexibly between equivalent forms. Lessons will focus on the meaning, use and connections between addition, multiplication, subtraction and division.

Teachers meet with parents/guardians when the child begins the supplemental services program to explain the results of the assessments given and to get input from parents for the student's learning plan. Goals will be created by the parents/guardians, the child and the teacher(s). Weekly progress reports will be sent home to parents/guardians. Monthly conferences will be available for parents either in person or by phone.

SOL Case Management, LLC

Contact: Lorena Aranda-Rodriguez

Address: 117 South 3rd Avenue
Pasco WA 99301

Phone: 509-542-8890

Service Area: School District Specific

PROGRAM DESCRIPTION

Students and families are served in a culturally competent and linguistically appropriate manner utilizing the Reading and Math Grade Level Expectation's as the framework to instruct students. Reading is instructed using a Balanced Literacy Approach focusing on Graphophonics, Fluency, Phonemic Awareness and Comprehension and a Basic Math Approach focusing on content areas such as place value and basic number skills; decimals, fractions, and other rational numbers; ratios, rates, and percents; expressions and equations; measurement and geometry.

Parents are invited to be a partner in their child's success by empower them on how to be an active partner in their child's education, understand the academic gap that their children may have and how they can support their child be successful at school.

Pre and Post assessments are completed using the Woodcock Johnson III Test of Achievement and the Bateria de Aprovechamiento by Riverside Publishing Company and attending District/School assessment results. Goals and objectives are developed and shared with the parents and attending school. Making solid diagnoses, prescriptions, teaching, reassessing, and reteaching are utilized in order to obtain the best outcomes from our students. Daily informal assessments are used to chart progress and share with parents and the attending school. Students not making adequate progress toward their goal(s) are recommended for intensive one on one tutoring. At the end of the tutoring sessions, the student is administered a post-test to affirm mastery of the goal(s) and a report will be provided for the parents/guardian and the attending school.

Somali Community Services Coalition

Contact: Ahmed Jama

Address: 15027 Military Road South, Suite 3
SeaTac WA 98188

Phone: 206-431-3536

Service Area: Statewide

PROGRAM DESCRIPTION

SCSC identifies specific reading materials students need to understand and uses different reading development strategies to help student understand meaning of what is read, and read different materials for multiple purposes. We identify specific mathematic skills students need to understand, and teach how to apply math concepts, procedures and processes used to solve problems. Students learn math reasoning, and to communicate their mathematical knowledge in everyday language. Students understand connections between math and other subjects, and apply practical math solutions to real-world situations. Service locations include; SBOC, where new refugee students who have no background schooling get orientation, get be prepared at Creston Point Apartment complex, where more than 200 refugee families of Somali origin live. Tutors generally work with students both individually, and in small groups, with no more than 4-6 students per tutor. Our tutoring centers maintain a safe and healthy environment for children to learn and work in, and have the required level of liability insurance coverage. All student records are kept confidential, in a locked cabinet accessible only to tutors and program coordinators. The tutoring schedule is Monday and Thursday, 4:00 - 6:30 pm and offer individual reading tutoring; Saturdays 10am- 1:00pm, individual Math tutoring, using materials from partner schools and the SCSC curriculum for reading materials and Math. Additionally, tutors go to different homes and work with 3 - 4 students at each location. Home tutoring was set up because some families lack transportation. Regular tutoring, combined with computer learning (using Lexia and EASY software), helps students improve their reading and writing skills and meet grade expectations. Subject content is explained in both English and Somali, to insure that understanding is complete and more thorough.

Spokane School District

Contact: Tracy Williams

Address: 200 North Bernard
Spokane WA 99201

Phone: 509-354-5648

Service Area: ESD 101 Spokane

Spokane School District

PROGRAM DESCRIPTION

Supplemental Educational Services (SES) offered by Spokane Public Schools (SPS) will focus on an individual approach for students who may need additional support with English/language arts and/or mathematics. These services will be provided outside of the school day by highly qualified instructors who will work collaboratively with your student's classroom teachers. Services can include:

- Tutoring
- Accelerated learning
- Computerized learning
- Additional instruction and practice
- Personalized assessment and results
- One-on-one or small group instruction
- Focus on state standards and Spokane Public School's curriculum

These services are unique in that this specifically designed program will provide support, skills, and strategies so that each student will be academically successful. A plan will be created at the beginning of service and will be based on the student's needs which will also include regular assessments and communications with the parents/families.

SES teachers will use a learning plan and current student data to customize instruction to meet the academic needs of each student. This will ensure that a seamless coordinated program will be provided for each student.

For students not yet at grade level standard, there is not one program or intervention that is appropriate for all students. This is why SPS will provide a strategy focus on developing an effective learner who is able to apply a variety of strategies and skills that may transfer across all subject areas.

Stroud Photography and Educational Services

Contact: Robin Stroud

Address: 23968 Old Day Creek Road
Sedro Woolley WA 98284

Phone: 360-856-5104

Service Area: ESD 121 Renton, ESD 189

PROGRAM DESCRIPTION

Stroud Photography and Education Services is a small business that has served the Skagit Valley for over 20 years.

Robin Stroud is a Washington State certified teacher with a Master's Degree in Education. She has served four school districts, teaching all subjects and grade levels, including special education and ESL, and has helped hundreds of students set and reach their educational goals. She believes that educational success is a group effort between the teacher, student, parents, and schools, and that every person has the right to demand accountability and excellence in public and private educational services. Her ability to speak Spanish has enabled her to become a partner in setting and achieving goals in education with many Skagit Valley families.

PROGRAM DESCRIPTION

Program description

Vision: To create educational pathways for all youth to excel in learning

Our Mission: To create educational pathways, empower and educate adult role models to focus on building student success in our program

We are a team of dedicated educators seeking to improve all youth through innovative methods of acquired learning. We believe every child creates value to our world and every child is destined for success. It is our job to help your child and empower his/her family to continue the success. Our staff has a combined success rate of over 95%.

Outcomes of Succinct

- Improve the academic performance of all students.

- Provide activities that increase literacy skills, math skills and include ESL instruction

- Provide additional academic instruction to understand learning

- Implement parent/family engagement activities

- Create opportunities where Succinct and parents can work together towards shared goals.

We have caring educators who are devoted to the success of every child.

Contact: Yesenia Rodriguez

Address: 1110 S. 6th Street
Sunnyside WA 98944

Phone: 509-836-8728

Service Area: ESD 105 Yakima

Sunnyside School District

PROGRAM DESCRIPTION

Description: This program serves students in reading and mathematics. Specific student populations served are low-income, minority, migrant, limited English proficient and students with disabilities.

Services are provided on-site, at the student's school, or on-line. Individual tutorial sessions or small group instruction will be utilized to increase student achievement. Prior to beginning the tutorial program, a District SES Coordinator and tutor will meet with parent(s), school representative(s) and student to discuss the student's academic performance. A detailed instructional plan, including scientifically based research strategies in reading and mathematics, will be created defining the goals and objectives based on the needs of the student. Curriculum will be aligned to the state standards and will be an extension of the school district's instructional programs. A standardized assessment will be administered prior to the beginning of tutoring to determine areas of strength and weakness and at the end to evaluate progress.

A continuous collaboration with school/district staff and parents is an essential component of this program. Individual rate is \$60.00 per hour.

Phone: 503-423-7686

Service Area: School District Specific

PROGRAM DESCRIPTION

Sylvan Learning Center's "Ace it! Tutoring" program focuses on teaching the core reading and math skills that have the greatest impact on your child's success.

We assess your child's skills to ensure that he or she immediately begins building the foundation needed to rapidly improve performance in school and on standardized tests. Results of our Pre, Mid and Post Assessments are shared with parents and school teachers. Sylvan teaches in small classes - six students or less - so your child benefits from working within a group and receives plenty of personal attention from the Sylvan, "Ace it!" teacher. Our teachers are highly qualified and know how to motivate students. They provide a balance of guided group and partner instruction as well as one-on-one instruction and opportunities for students to work independently. "Ace it! Tutoring" sessions are conveniently held after school, at your child's school. Sylvan communicates effectively and regularly with students, parents and classroom teachers so that everyone is informed and involved. For their consistent attendance and hard work, students are rewarded with increased performance in the classroom and more confidence on standardized tests.

As an SES provider for five years, Sylvan Learning Center has repeatedly demonstrated the ability to help students reach their goals.

PROGRAM DESCRIPTION

Sylvan Learning is the world's premier brand in tutoring. Founded over 30 years ago in the Pacific Northwest, Sylvan programs have helped thousands of students reach their academic goals. Students in Sylvan Academic Reading and Sylvan Math programs gain an average of one year's growth in only 36 hours of tutoring.

It's a combination that works. We start with a skills assessment to identify your child's specific skill gaps and then develop a program to best fit your child's needs. We have a strong motivation program and have highly trained and certified teachers.

Our Sylvan Learning Centers are filled with the very latest educational materials and text books proven to help children succeed. All of our Sylvan teachers and Educational Directors are certified teachers. When you come to Sylvan, you have an entire team of highly trained and motivated educators available for you and your child!

It's no wonder that more teachers and principals bring their own children to Sylvan Learning more than any other tutoring program!

You will have the option of bringing your child to a Sylvan Learning Center in your neighborhood (currently there are 28 locations serving the Puget Sound area).

Locally owned and operated by families who live in your area, you can feel confident that you and your child will be given the very best customer service. We value your business tremendously and will provide excellent communication regarding our programs and your child's progress. We are here to provide the highest quality program and customer service for you and your child, and celebrate the success that comes with achievement. We look forward to working with you!

Tacoma Urban League

Contact: Dr. Dorothy Anderson

Address: 2550 South Yakima
Tacoma WA 98405

Phone: 253-383-2007

Service Area:

PROGRAM DESCRIPTION

Project Youth Educational Services, or Project YES, is an educational resource that is designed to meet the enrichment needs of students in math and reading. Our interdisciplinary curriculums feature culturally-sensitive materials and are designed to challenge students to think critically. We also facilitate individual tutoring sessions and small group discussions based on various contemporary subjects and issues.

Each guided lesson plan is designed to promote character building and to increase problem-solving skills in all of our students. All lessons are designed to give students immediate feedback on the successful outcome of the lesson, or reinforcement where additional support is needed.

Parents will receive regular progress reports (both in-person and by telephone) on a minimum of a bi-weekly basis.

A minimum of 12 students is needed for this program to be implemented. Services will be provided before and after school at the Tacoma Urban League; other locations TBD. Four Intensive sessions will be scheduled during school breaks, weekends or summer sessions. Limited transportation services can be arranged according to distance and individual need. For additional information, please contact The Tacoma Urban League, Inc. @ 253-383-2007.

Tahoma Counseling Associates

PROGRAM DESCRIPTION

(near Stadium High School)
E-mail: mgilmeister@hotmail.com

Subject Areas Provided: Mathematics and Reading
Grades: K-12
Types of Instruction: Individual and Group (three students to one instructor)
Time: After school and during summer
Place: Provider's Location
Distance Learning Provider: No

Transportation: Bus Line on the corner of Tacoma Ave. N. and First Ave.

This program serves students in reading and mathematics. I have been a provider for four years. I am a retired Washington State teacher and substitute in the Tacoma School District with knowledge and experience in teaching reading and mathematics to students from diverse cultures, languages and incomes. At our initial meeting your child, you and I will determine the mathematics and/or reading needs and concerns of your child. Learning goals are established in partnership with your child, your child's teacher and you to assist your child to meet the Washington State Essential Academic Learning Requirements. There is an emphasis on required words read per minute and comprehension for each grade level which this program provides. Graphs will be kept to record cold and hot timings to monitor the progress. In mathematics, there is a concern about students knowing basic math facts and teaching strategies to present their mathematical thinking. This program provides opportunity for your child to develop and increase confidence in writing, discussing his/her thinking of various mathematical concepts. Services are provided at the provider's location after school hours and summer. Individual rate is \$55.00 per hour.

The AGVI Academy for Gifted Youth

Contact: Daa'iyah Na'im

Address: PO Box 152718
San Diego CA 92195

Phone: 858-381-5895

Service Area: Statewide

PROGRAM DESCRIPTION

The AGVI Academy for Gifted Youth provides fun and interactive learning activities and games for students in grades K-12. Students received tutoring in English/Language Arts, Mathematics, Social Studies and/or Science. We provide individual tutoring and small group instruction and games. Students must have access to a computer (Mac or PC or Intel) with Internet access (minimum 256 kbps broadband connection). Students may complete the program within 12 weeks, but will continue to have access to courses and tutoring for one year after the enrollment date. Additional family members in the same household will have access to K-8th online learning and games and/or GED preparation courses.

The Mackey Group

Contact: Sue Mackey

Address: 8346 Silva Ave SE
Snoqualmie WA 98027

Phone: 206-920-5595

Service Area: Statewide

PROGRAM DESCRIPTION

Our approach to students meeting learning objectives begins with readying the student to be learning equipped. Too many of our underperforming students are unable to manage their frustrations, inside the classroom and outside, at home. If we teach, first, and continue reinforcing the soft skills required to manage their emotions, effectively, to think critically, make good choices, to learn to connect well with others and to acquire the character skills needed to sustain a motivated attitude about learning, reading and mathematics skills will be taught and assimilated with greater ease.

In addition, our Developmental and System Approach (DSA) to learning will enhance the teacher's ability to teach and to connect in a positive manner with his/her students and their caregivers/parents. As teachers teach our simple, easily assimilated system along with assigned material in reading and math, they, too, will learn how integral this system is to those struggling with learning. It's simple enough to be transported from classroom to classroom, school to school and easy for parents/caregivers to assimilate, regardless of language barriers.

The Urban League of Seattle

Contact: Kia Franklin

Address: 105 14th Avenue
Seattle WA 98122

Phone: 206-461-3792x3018

Service Area: School District Specific

PROGRAM DESCRIPTION

The Urban League of Metropolitan Seattle is deeply committed to increasing the academic achievement of our students. We provide tutoring, remediation and research-based educational interventions that are consistent with the content and instruction used by Seattle Public Schools and aligned with Washington State's academic content standards. Our SES services integrate these goals into instructional strategies that build on student interest, cultural orientation, learning levels, and learning styles.

We offer three highly effective, top quality learning programs for our SES students. Our Early Literacy Program—for students in grades K, 1, and 2—helps students develop their reading skills. Using elements of several reading programs including Sound Partners, Read Naturally, and 1000 Hours of Reading, students become confident readers with strong decoding, fluency, and comprehension skills. Our Math through Art and Story program prepares Third through Fifth Graders for success in Reading and Math through an engaging curriculum that integrates math, literature, and art. Students learn to conceptualize large numbers, use estimation and measurement to solve problems, analyze word problems, recognize patterns and geometric forms, and discover multiplication and division through visual, tactile exploration. In our Learning Math through Language curriculum, middle school students master their skills in analyzing word problems, decoding mathematical language and vocabulary, and articulating mathematical thought processes through writing.

Our mission is to support the academic achievement of our students by providing effective and rigorous instruction in a fun, encouraging learning environment. We are passionate about helping students excel! For more information, please contact the ULMS Education Department, 206.461.3792 ext. 3018, or visit www.urbanleague.org/education.

The Way Out

Contact: Turelane Jackson

Address: 4600 Davis Avenue South Apt. D-201
Renton WA 98055

Phone: 206-853-4622

Service Area: All Regions EXCEPT ESD 189

PROGRAM DESCRIPTION

The Way Out (TWO) provides tutoring, homework help, snack, and activities to maximize the student's success in meeting and exceeding the state's standard at their grade level.

This will be accomplished in the subjects of reading, math, and general studies as an extension to the schools district's instructional program. The sessions will be before or after regular school hours or in the summer, on school site or close to the school, in a fun but structured sitting that will allow the child to get the extra help they need in their areas of focus. We will provide services to the children in person, and/or online based on the request of the family. Our experienced and professional staff will communicate with parents and teachers to assess and monitor progress using scientifically based research findings. Our online math and reading program will help students pass the State's standardized testing. We are culturally sensitive to the needs of our students and can provide help in other languages such as Samoan, Spanish, Somali, and Swahili. Extra activities and awards will be based on students' attendance, participation, and attaining of goals. Other family members may also qualify for homework help. There must be a minimum of 2 per district to provide services. Supplemental Educational Services hourly rate for instruction is \$60.00 per person.

Tiny Tots Development Center

Contact: Frank Fuentes

Address: 8300 Renton Ave S
Seattle WA 98118

Phone: 206-252-7548

Service Area:

PROGRAM DESCRIPTION

Since 1969, Tiny Tots Development Center (TTDC) of South Seattle has provided licensed childcare, after-school care, and early education services for low-to-middle-income children from birth to age 12. Services provided include free, sliding scale, and fee-based preschool, infant care, and before and after-school care for school-aged children.

Our Community Learning Center (CLC) after-school programs are some of the most successful in the city. We're ready to reach out to as many families as possible to help increase the academic performance of students. By spring 2009, 48% of students in our program who had never previously passed the WASL or DRA were able to meet standard. In the same time, 90% of the students in our programs reported that they felt better about themselves, make friends and better decisions; 87% reported they wanted to try harder in school.

We believe our success is due to our initiative to provide more opportunities for families to be involved in education. In a recent survey, parents feel welcome and comfortable and that their family values and customs are reflected in our programs.

Toppenish School District

Contact: Jeanette Ozuna

Address: 306 Bolin Drive
Toppenish WA 98948

Phone: 509-865-8285

Service Area: ESD 105 Yakima

Toppenish School District

PROGRAM DESCRIPTION

Toppenish School District tutoring services will provide your student with additional tutoring by certified teachers at their home school site. Tutoring will be directly related to classroom instruction and help your student gain important skills in reading and math. Instruction will be aligned to state tests including the Measure of Student Progress and the High School Proficiency Exam and to your student's current Student Learning Plan.

UROK Learning Institute

Contact: Marilyn Goldsmit

Address: 3300 NW 185th Ave #176
Portland OR 97229

Phone: 503-858-5496

Service Area: ESD 112 Vancouver

PROGRAM DESCRIPTION

UROK Learning Institute offers English Language Arts tutoring, grades K to 12. UROK's Reading Intervention Programs, Literacy Links and Rewards, introduce sounds of common letter combinations and teach students how to dissect multi-syllabic words. The focus is on word decoding, vocabulary building, increasing fluency and comprehension. Rewards Plus Social Studies/Science) includes a writing component and focuses on increasing comprehension of secondary-level, content-area passages. Tutoring is one-on-one and is offered in-home or at a local library. Each tutoring session is 1-2 hours, 2-4 days a week. Spanish-speaking tutors are available for students that need support in their primary language. On average, our students increase 1 to 2 grade levels. Call us toll-free at (877) 358-9999 for more information!

UROK Learning Institute ofrece tutoría en Lectura y Comprensión, a todos los grados del kínder al 12. Los programas principales de UROK, Literacy Links y Rewards, introducen los sonidos de las combinaciones de letras y les enseña a comprender palabras de multi-silabas. Se enfoca en descifrar palabras, aumentar vocabulario, fluidez en la lectura y la comprensión. Rewards Plus (historia /ciencias) incluye un componente de la escritura y se enfoca en la comprensión a un nivel más avanzado, la lectura esta basadas en los áreas de contenido. La tutoría es uno-a-uno, en casa, o una biblioteca local. Cada sesión de tutoría dura 1 a 2 horas, 2 a 4 días a la semana. Tutores bilingües están disponibles para estudiantes que necesitan apoyo en su primer idioma. Por lo general, estudiantes que completan nuestros programas suben un promedio de 1 a 2 grados. Llámenos gratis al (877) 358-9999 para más información!

Vietnamese Friendship Association

Contact: James Lovell

Address: 7101 MLK Jr. Way S. #212
Seattle WA 98118

Phone: 206-760-1573

Service Area: ESD 121 Renton

PROGRAM DESCRIPTION

Through partnership with Seattle's Secondary Bilingual Orientation Center (SBOC), the Vietnamese Friendship Association (VFA) has a Saturday morning English language acquisition assistance program that uses scaffold-style instruction to provide supplemental educational services to emerging English students from around the world. The program employs a mixture of Seattle School's Instructional Assistants (IAs) and VFA's fingerprinted, culturally competent volunteer and staff base to provide relevant, topic-based English language instruction. Students are placed into one of three groups based off of their district-assessed English language level, and a different group for their district-assessed mathematics level. This small cohort of academic peers then goes into a classroom with a ratio of no more than 1:6 and engages in the topic for the day.

Location: Secondary Bilingual Orientation Center
301 21 Ave
Seattle, WA 98112

Times: 9:00am to 1:00pm.
Cost: FREE

Classes: Come join us on Saturdays as we work on Math, reading and writing through small group instruction and activity-based curriculum.

Waiss Network Technologies

Contact: Ashkir Ali

Address: 3204 Balsam Lake Dr.
Columbus OH 43219

Phone: 425-772-2811

Service Area: Statewide

PROGRAM DESCRIPTION

Waiss Network Technologies focuses on tutoring, technology training, and educating school aged children. The organization provided after school programs for students between the ages of 5 to 18years for over 4 years and its instructors are highly qualified and well prepared to attend to the daily challenges of enhancing the students' standard.

After the completion of registration, each student will be assigned a username and a password to access and get acquainted to our online web-based learning tool called Study Island. Study Island online tutoring will allow each student to customize his/her lesson and it will generate different report for each student, accordingly. This powerful learning and teaching tool which is provided in a completely web-based format will accommodate a variety of learning styles. Before the students begin the program, he/she will take pre-assessment test with the purpose of identifying students' areas of relative strength and weakness in subject areas, monitoring year-to-year growth in the basic skills, and describing each student's developmental level within a test area. After the completion of the test, Study Island will immediately assess the results and automatically generate the most suitable material or study guide for the student. Moreover, each student will take post-test before finishing the program to assess their academic achievements and their respective progress. The organization provides highly qualified Instructors & tutors for each five students to ensure student's achievement.

Walla Walla Public Schools

Contact: Connie Taylor-Randall

Address: 364 S. Park St.
Walla Walla WA 99362

Phone: 509-526-6736

Service Area: ESD 123 Pasco

Walla Walla Public Schools

PROGRAM DESCRIPTION

As “Partners in Learning,” this extended learning program personalizes learning which support all students in becoming educated, productive citizens, and lifelong learners. Students will be instructed by highly qualified certificated teachers and paraeducators to help improve reading, writing, and/or mathematic skills consistent with the state academic learning requirements.

Students with learning challenges as identified using research based district assessments and standards based grade reports will receive help in reading, writing, and/or mathematics in specific areas. Instructional materials may include, but not be limited to, research-based district curriculum and intervention supplemental materials in reading, writing, and/or mathematics using the Response to Intervention Model. Instructors will use direct instruction, guided practice, and teaching strategies that focus on targeted areas. Each student learns best when there is trust, caring, and mutual respect, and where the learning environment is safe, disciplined, engaging, creative, challenging, and supportive. The parent(s), student, instructor(s), and school personnel partnerships will be formed to jointly create an action plan. Extending learning program instructors and classroom teachers will have weekly contact by email, telephone calls, and/or weekly progress reports to share student progress. Parents will also receive weekly progress reports regarding program offerings and individual student goal progress. Instruction is available to ESL and special education students.

In addition, to English instruction, instruction will be available in Spanish. Students are and continue to be the focus of all our efforts!

Wapato School District

Contact: Dave Juarez

Address: 212 W 3rd Street
Wapato WA 98951

Phone: 509-877-4181

Service Area: ESD 105 Yakima

Wapato School District

PROGRAM DESCRIPTION

Wapato Public Schools will be providing FREE after school tutoring at your student's home school.

Tutoring will be provided by certified teachers and will help students in reading and math as well as prepare them for the state tests. Credit retrieval and SAT prep will also be available at the high school level.

Please fill out the attached form and have your student return it to their teacher or stop by the school office for more information.

Tutoring services will be available at Adams Elementary, Camas Elementary, Satus Elementary, Wapato Middle School, Wapato High School and PACE Alternative.

Whole Systems Learning

Contact: Eba Laye

Address: PO Box 111449
Tacoma WA 98411

Phone: 425-306-6788

Service Area: ESD 121 Renton

PROGRAM DESCRIPTION

What sets Whole Systems apart is its RESULTS!! Whole Systems Learning students increase an average of MORE THAN THREE GRADE LEVELS in every subject area – reading, reading comprehension, math computation and applications.

THIS SAME GRADE LEVEL INCREASE is achieved by our English language learners, and Special Needs students. Parents see report cards with A's and B's, and students become confident learners, on a college track. We approach learning in partnership with parents and provide training, coaching and materials for parents to use with their children during and after the tutoring period. Our small group tutoring approach creates a highly interactive environment where students encourage, motivate and support each other, and results in unusually high achievement levels. One-on-one tutoring is also available where necessary. Tutoring takes place at your student's school or in nearby community locations. Students meet two to three times a week over a period of 1 to 3 months. Sessions are usually 2 hours long. Healthy snacks are provided.

Call us toll free at 1-888-742-6249 for more information.

Yakima School District

Contact: Kelli York

Address: 104 North 4th Avenue
Yakima Wa 98902

Phone: 509-573-7015

Service Area: ESD 105 Yakima

Yakima School District

PROGRAM DESCRIPTION

Yakima School District is accountable to their students. They are committed to providing an SES learning opportunity for each child to succeed. Teachers see the challenges many of our students face as opportunities and our tutors believe we will make a difference in ensuring every student can and will learn. Making available up to 40 extra hours of instructional time, learning is accelerated.

Accelerated math and reading tutoring prepares students for state assessments and meeting graduation requirements. Students needing additional support receive instruction aligned with Yakima School District programs and requirements. Since tutoring is provided by certified teachers there is fidelity to the use of research-based strategies and curricula. District teachers also have access to a wealth of embedded professional development. Daily schedules will be organized in collaboration between parents, students, and each teacher-tutor. Tutor-parent meetings will be focused on improving instruction through analyzing student data and student engagement and using student learning plans to set learning targets. Student test scores below grade level impact academic success and will be addressed. Academic language proficiency will be taught by tutors and monitored. Math and reading instruction is offered for all K-12th grade students eligible for SES. Relationships with students and parents are also a strong and effective component of Yakima's SES program. Partnerships established among students, tutors, and parents provide a positive opportunity for our district to make a difference in the lives of our students. The YSD builds on assets of our schools, community, families, and students to strengthen a number of opportunities for our students. Students participate in tutoring with other students, learn to be mentors and role models for the younger students, and experience success in school. Tutor instruction is differentiated in reading and math, focused on the specific needs of students, and accelerating student achievement.

PROGRAM DESCRIPTION

Email: fbabdi@seattleschools.org

This program is intended to help your children improve academic gap in Math Computation, Reading and Homework Skills. The program provides students face-to-face, one-to-one and small-group instruction with talented teachers and tutors. The program will provide individual lessons designed to meet the student's instructional level by well-qualified and dedicated educators.

The program is also intended to help low-income, refugee/immigrant and minorities in the community with language barriers. We will provide assistance to students with little or no English-speaking backgrounds with dedicated educators that can relate to the linguistic and cultural affiliations of their students and parents. By communicating with parents in languages that they understand, the program will help parents develop better understanding of their children's needs and follow through their children progress. We will assist students with language gap with homework to ensure that the students develop better homework skills and learn effective ways of finishing their homework.

The program will be held at local locations and learning centers for convenience of parents and students. The program objective is to improve grades by improving the students reading, math and study skills. Further, the program will specifically address behavior and attitude by teaching respect, discipline and self-esteem.

It is a rewarding program that focuses on positive accomplishments for students and their families.
