

Professional Transitions to the Public Schools: Initial ESA Certification

School Nurses, School Occupational Therapists, School Physical Therapists, School Social Workers, and School Speech-Language Pathologists or Audiologist

Courses on this listing are approved by the PESB for the roles indicated above. These approved courses satisfy the thirty clock hours/three credit quarter credits/two semester credits of course work required by WAC 181-79A-223 for initial ESA certification purposes.

These approved courses prepare candidate to:

- Demonstrate an understanding of school and special education laws and policies (national, state, and local) and their application to decision-making processes in the educational settings.
- Understand and demonstrate knowledge of working within the culture of the schools, creating an environment that fosters safety, health, and learning for the students.
- Demonstrate knowledge of appropriate resources in the school setting.
- Demonstrate knowledge of collaboration with team members which may include parents, teachers, administrators, and other to support learning outcomes for all students.
- Demonstrate knowledge of how to support the outcomes for all students through strategies such as scientifically-based practices, collaborative teaming, and ethical decision making.
- Use professional standards to inform professional growth planning.
- Demonstrate an understanding of the use of human, community, and technological resources.

Applicants who meet all requirements with the exception of the ESA course may be issued a temporary permit valid for up to one calendar year. This permit will allow the individual to serve in the role within the public schools of Washington State.
