School Safety Advisory Committee
November 1, 2012
ESD 189 – Driving Directions
Meeting Notes

Present: Frank Hewins, Chair; Nancy Bernard; Bob McMullen; Jodie DesBiens; Bruce Kuennen; Mary Sue Linville; Paul Harrison; Mike Donlin; Robert Dengel.
K20: Peggy Sandberg; Keith Merritt; Scott LeBar; Scott Emry; Randy Town.

Open: Frank Hewins, Committee Chair, open the meeting at 9:00 with a welcome to all and a special thanks to Superintendent Jerry Jenkins, Jodie DesBiens, ESD 189, and the staff at ESD 189. Bruce moved to accept the notes from the October 4, meeting. This was seconded by Bob. Notes were accepted unanimously.

Updates: Mike reported briefly on the success of the Great ShakeOut on October 18. There was extensive participation across the state with over 700,000 total participants and over 400,000 from K-12. The Anti-HIB Work Group had met in September and heard from a variety of presenters about local, state and national resources. Subgroups will report on their progress at the December meeting. The Gangs in Schools Task Force had also met in September. There will be a Legislative update prepared for a December 1 due date.
Mike also noted that the new Earthquake & Tsunami school resources will be available for all schools after the first of the new year.

This was followed by a brief update on the “Safety Corps” Legislative budget package. It was suggested that we get information out to and mutual support from such organizations as AWSP, WSSDA, WASA and others. Following the election, it is also important to get information out to incumbents who may not be aware of school safety issues. It was suggested that we revisit the budget package at the December 6 meeting, identify key legislators and liaisons and invite them to our next meeting(s) in early 2013.

There were two additional issues which were raised. Mary Sue brought up the question of epi-pen use. Epi-pens have been offered to ‘everyone’ in schools for use in emergencies. They would be accompanied by doctors’ standing orders for use as opposed to prescribed use by a medical person (school nurse). This would be contrary to RCW’s. More information and investigation is needed.

There was also a discussion of school crossing patrols. Current regulations were based on traffic control in construction zones. With a focus on student safety and RCW’s, conversations centered around training, the required colors for crossing guard vests, signage, safe student pedestrian crossings versus actual traffic control, and related safety issues. It was agreed that the current RCW needs to be changed, followed by the associated WAC. The WAC for this falls under WSDOT. It was suggested that the Advisory Committee develop a one-page outline of issues and regulations. Nancy suggested that there be a Safety Advisory Subcommittee to work on the proposed draft document.
The main topic for the meeting was an update on the OSPI **FEMA Disaster Mitigation Grant**. This was provided by Robert Dengel, OSPI Financial Res./Gov’t Relations. Robert shared a very informative PowerPoint (posted on the Advisory Committee page along with accompanying documents), and answered questions from Committee members. The project focuses on hazard mitigation for natural hazards only. He noted that a response plan is different from a mitigation plan. The grant is a 3-year project; a consulting firm, Goettle & Associates, has been hired to work on the project. The work product will include a statewide risk assessment and planning framework. In addition, plans for 28 identified LEAs will be created. Ultimately, the project will create a flexible, electronic toolkit with shared information and data, and samples of local planning documents which other districts might use and adapt to their particular needs. Robert’s presentation was followed by Q & A time.

**New/Local Issues:** Mike suggested that Trafficking and Commercial Sexual Exploitations of Youth (CSEC) and LGBTQ issues were rising to the fore. In looking ahead, the Committee suggested the following topics:
- December: Dave Waddell, Hazardous Chemicals in Schools; Budget proposal prep;
- January: Legislative prep, and LGBTQ issues. (Mike will follow up on the possibility of a panel.)
- April: Trafficking/CSEC

Before the meeting closed, Bob pointed to the [AWSP Leadership Framework](#) and underscored the fact that safety and school culture were central to student success. He suggested that there is an overlap between the AWSP Framework and the “Safety Corps” budget package.

**Next Meeting:** Our next School Safety Advisory Committee meeting will be held on December 6, 9:00 – 12:00, at ESD 121 (PSESD) in Renton.

**Adjourned:** The meeting was adjourned at 12:00
