

# *OSSI Form Packages and Eligible Grantees 2024-25*

## **OSSI Grant Funding**

Improvement funds are available to schools identified as eligible for Tier 3 and 3 Plus supports through Washington's School Improvement Framework (WSIF), as well as to certain other identified districts and entities (e.g., Required Action Districts).

All funds are expressly intended for implementation of district and school improvement planning (i.e., School Improvement Plans (SIPs), LEA-Consolidated Accountability Plans (L-CAPs), Required Action Plans (RAPs), etc.), and must be focused on positive impacts on student learning, as well as supporting the goals of basic education under RCW [28A.150.210](#), specifically in areas driving identification for improvement.

Plans must be based on annual needs assessment, be informed by WSIF indicators and the state's long-term goals which drove identification, as well as resource inequities that perpetuate disparities in educational achievement.

Use of improvement science principles must be incorporated in the drafting, review, adjusting, and implementation of the goals within an improvement plan. Activities in plans must be centered on the use of evidence-based and research-oriented approaches. Additionally, incorporation of the broader school and community must be a facet of the improvement planning process from the beginning and throughout.

## **WSIF Identification**

OSSI is based on the WSIF support identification of a school, district, or other such similar entity. To learn more about WSIF data or to find the identification of a school, please visit [OSPI's State Report Card](#) or the [WSIF webpage](#).

## **OSSI Form Packages**

OSSI grant packages are federally and state funded. All will be administered and managed via the state's [Education Grant Management System \(EGMS\)](#). Ensure you have the proper access and capacity with the system before applying.

On the next page you will find a table of OSSI form packages for SY2024-25.
