## 8. **Program evaluation or evaluation of major findings:**

- Opportunities have been identified in professional development for LEA administrators and staff, CTE Directors and staff and State Tribal Education Compact administrators and staff. Professional development opportunities include Tribal Sovereignty 101, Intergenerational Trauma, Tribal Consultation, Washington State Tribal Economic Development, County Economic Development, and Skills Center Development.
- Providing a data analyst position to support the CCL Tribal Liaison position would be extremely beneficial. The CCL data analyst responsibilities would include supporting research with interagency and external partners to improve the CTE programs and success measurements for tribal communities and students.
- Not all dollars were spent on the timeline due to transition of leadership and program re-organization.

## 9. **Major challenges faced by the program:**

Data Support:

- Adjust all agency data streams to report maximum identification of AI/AN students including the agency Report Card datasets
- Separation of CTE class requirements (Ex: Computer literacy required credit) versus actual CTE program participants - this leads to an inaccurate accounting of students in full programs
- Post-program data to include program accountability and success measurements
- Matching CTE programs to community needs in relation to local and tribal economies instead of to only industry needs.
- CTE program employment data in relation to local and tribal economies (to support the above bullet)
- Data sovereignty and sharing agreements - Important for LEA's to be informed on the importance of data sovereignty and encourage data sharing agreements with tribes. Information shared is beneficial to both LEA's and Tribes.
