## INTRODUCTION

## SCHOOLS' ALLOCATIONS FOR 2018-19 SCHOOL YEAR

Schools are allocated staff and discretionary budget in February each year upon which to build their budget for the following year. These allocations are based on enrollment projections provided by Enrollment Planning, applied to the Weighted Staffing Standards (WSS) model. These allocations are collectively published as the "2018-2019 Schools' Funding Allocations" document.

Initial schools' allocations for 2018-2019 school year were released February 27, 2018. Schools develop their budget for the upcoming year based on these enrollment projections, staffing and budget allocations. Additional minor changes to schools' allocations may be made up to the final "locked" version that becomes the district's budget for 2018-19 that is recommended to the School Board for approval.

## WEIGHTED STAFFING STANDARD (WSS) ALLOCATION MODEL

The Weighted Staffing Standards (WSS) model provides each school with staffing designed to meet staff to student ratio requirements for Basic Education, Special Education and Transitional Bilingual Instruction programs. In addition, the WSS model includes per-pupil funding for each school to customize their budget to meet their unique needs. These per-pupil dollars can be used for additional staffing, supplies, curriculum and professional development.

Every year the Weighted Staffing Standards model is reviewed for modifications. A workgroup is assembled to review the model and make recommendations for improvements that would better serve schools. The workgroup uses the School Board's policy 6010, "School Funding Model", as the guiding principle in its work.

The WSS development process begins in the prior year with a workgroup made up of representatives from Teaching and Learning, School Operations, Finance and Budget, Enrollment Planning, and representatives from the Principals Association of Seattle Schools (PASS) and Seattle Education Association (SEA). Starting in the late Spring and Summer, ideas and information are generated by the workgroup and are refined into a recommended model which is presented to the Superintendent in December. The approved model is then used for calculating schools allocations from enrollment projections provided by Enrollment Planning in February.

## MAJOR CHANGES TO WSS FOR 2018-2019

## BACKGROUND

Each year a workgroup is assembled to review the Weighted Staffing Standards (WSS) model and make recommendations for improvements that would better serve students. The 2018-19 recommended WSS model was finalized in January 2018 for the 2018-19 school allocations.

The workgroup looked at schools funding for instructional staff, core and other staff, per-pupil discretionary allocations and other budgetary issues related to school funding. The workgroup also considered current and potential future moves by the state that could impact how schools are funded.

## TEACHER STAFFING ALLOCATION CHANGES

## Elementary Grade Allocations

Class sizes for Kindergarten through Grade $3(\mathrm{~K}-3)$ have been lowered to reflect the state maximum funding available for these grades. Currently, the state requires that for 2018-19 class size compliance must be verified by OSPI (Office of the Superintendent of Instruction) in order for districts to receive maximum funding of 1 teacher for each 17 students in grades K-3. The district has elected to vary the funding for K 3 teachers based on individual school poverty rates. The class-sizes (below), when added to PCP (preparation/conference/planning time) and specialist/intervention teachers, should provide sufficient teachers to reach a district-wide average of 1 teacher for every 17 students in grades K-3. The poverty measure used is percentage of Free and Reduced Price Lunch (FRL) students enrolled as of the end of January 2018.

| Grade Level | Non-High <br> Poverty Schools | High-Poverty 1 <br> $>40 \%$ FRL | High-Poverty 2 <br> $>75 \% ~ F R L$ |
| :--- | :---: | :---: | :---: |
| Kindergarten | $20: 1$ | $18: 1$ | $18: 1$ |
| 1st Grade | $20: 1$ | $18: 1$ | $18: 1$ |
| 2nd Grade | $21: 1$ | $20: 1$ | $18: 1$ |
| 3rd Grade | $24: 1$ | $20: 1$ | $18: 1$ |
| $4^{\text {th }} \& 5^{\text {th }}$ Grade | $27: 1$ | $27: 1$ | $27: 1$ |

Further guidance as to how schools can budget any K-3 staffing increases is provided in the 2018-19 Schools Budget Instructions (the "Gold Book")

## Secondary Grade Allocations

Teacher Allocations for Middle School grades 6-8 have been changed to 29:1 (one teacher for every 29 students), in line with the existing High School grades 9-12 allocation rate.

| Grades 6-8 | $29: 1$ |
| :--- | :--- |
| Grades $9-12$ | $29: 1$ |

## CORE ALLOCATION CHANGES

## Assistant Principals

The teacher FTE (Full Time Equivalent) used in the calculation of Assistant Principal allocation has been changed to include an estimate for LAP and Title I teachers, based on the allocations for those programs assigned by the Grants Department in February of each year. The estimate of FTE is based on the calculated number of teachers that could be budgeted from the full LAP allocation and $80 \%$ of the Title I allocation, excluding funding designated for Parent Involvement. The thresholds at which Assistant Principal FTE are allocated remain the same.

## PER PUPIL FUNDING

## Per Pupil Base Allocation

Allocations based on the total estimated AAFTE (Annual Average Full Time Enrollment) will be adjusted each year based on the Implicit Price Deflator. For 2018-19, the Base Allocation Per-Pupil rate will increase 1.6\%

| Grades K-5 | $\$ 95.00$ |
| :--- | :---: |
| Grades 6-12 | $\$ 196.60$ |

## Per Pupil Equity Dollars

Allocations based on FRL counts, formerly described as "Free-and-Reduced Lunch Based" Allocations are referred to as "Equity Dollars" in 2018-19 schools allocations. These allocations will also be adjusted each year based on the Implicit Price Deflator. The increase for 2018-19 is 1.6\%.

| Kindergarten | $\$ 217.27$ |
| :--- | :--- |
| Grades 1-3 | $\$ 247.24$ |
| Grades 4-5 | $\$ 314.67$ |
| Grades 6-8 | $\$ 544.42$ |
| Grades 9-12 | $\$ 556.91$ |

There is specific guidance about how the Equity Dollars allocation should be used at schools. Please refer to the 2018-19 Schools Budget Instructions (the "Gold Book") for this specific guidance.

## HIGH SCHOOL 24-CREDIT FUNDING

Approximately $\$ 5$ million dollars in funding is provided to High Schools for the purpose of providing opportunities for students to earn additional credits toward the 24 -credit requirement for graduation. The funding is calculated as the dollar value of additional teachers that would be provided if teachers for Grades $9-10$ were allocated at a class-size target of $25: 1$, based on projected AAFTE.

This allocation is intended to provide opportunities for students to earn additional credits toward High School graduation. Guidance for using this allocation is provided in the 2018-19 Schools Budget Instructions (the "Gold Book").

Plus Preparation Conference \& Planning (PCP) time at 12.5\%; allocations are rounded-up to nearest 1.0 FTE for Teachers and up to nearest 0.5 FTE for PCP.

* The grade 4-5 class size target is 28 students; the allocation has been enhanced to allow some flexibility to manage class sizes and split classrooms across all K-5.

A single 0.5 FTE that can be used to staff an Elementary Counselor, Social Worker or Head Teacher position will be allocated to Elementary Schools that meet at least one of the criteria (above). Schools may not waive positions for Elementary Counselor/Social Worker/Head Teacher and will not receive budget differential for selecting a less-costly position among those three choices.

| $>61 \mathrm{FTE}$ | $\mathbf{3 . 0}$ |

Assistant Principal allocations are based on the number of Certificated Teacher FTE generated by the WSS model for General, Special and Bilingual Education, including allocations for PCP time. For 2018-19, this calculation will also include an estimate for LAP and Title I certificated teaching staff, based on LAP allocation and $80 \%$ of Title I allocation, converted into estimated teaching position FTE.

| 24-Credit Augment to 9-10 Funding |  |  |
| :--- | :--- | :---: |
| Grades 9-10 | 25:1 |  |

Non-ALE (Alternate Learning Experience) High Schools will receive the dollar value of additional teachers that would be allocated if Grades 9 and 10 were funded at a ratio of $25: 1$. This funding is intended to enable each school to implement plans to assist students struggling to meet the 24-credit graduation requirement. Refer to the 2018-19 Schools Budget Instructions (the "Gold Book") for a more complete description of the purpose and use of this funding.

## NON-TRADITIONAL SCHOOLS

Due to the unique nature of the various programs in Non-Traditional Schools, the funding allocation varies according to needs of specific programs.
"ALE" (Alternative Learning Experience) program schools are allocated budget in state program code 02. Schools with an Open Doors program are allocated budget for that program in state program code 03. Skills Center is allocated budget in state program code 45.

| 24-Credit Augment to 9-10 Funding |  |  |
| :--- | :---: | :---: |
| Grades 9-10 25:1 |  |  |

Non-ALE (Alternate Learning Experience) High Schools will receive the dollar value of additional teachers that would be allocated if Grades 9 and 10 were funded at a ratio of $25: 1$. This funding is intended to enable each school to implement plans to assist students struggling to meet the 24 -credit graduation requirement. Refer to the 2018-19 Schools Budget Instructions (the "Gold Book") for a more complete description of the purpose and use of this funding.

In the Weighted Staffing Standards model, part of the weighting process is determining the number of students in specialized programs and approximating the amount of time those students spend with teachers other than Basic Education teachers.

The district adjusts (weights) the projected AAFTE for secondary schools (middle and high schools) by the estimated amount of time that students in specialized programs spend in contact with teachers for those specialized programs. AAFTE for Elementary and K-8 schools is not adjusted for contact time.

The factors used to estimate contact time with teachers in specialized programs are:

- 40\% Transitional Bilingual (TBIP/ELL) program
- 20\% Special Ed Resource program
- 60\% Special Ed Access program
- 60\% Special Ed Social/Emotional program
- 60\% Special Ed SM2 program
- 80\% Special Ed Distinct program
- $80 \%$ Special Ed Medically Fragile program
- 60\% Special Ed Deaf/Hard of Hearing program
- 60\% Special Ed Transition program

As an example: a special education student in a Resource program is estimated to spend $20 \%$ of their time with a Special Education teacher, and $80 \%$ of their time with a Basic Education teacher. Accordingly, AAFTE for that student is adjusted to 0.8 for the purpose of allocating Basic Education teachers.
