

Area 1: Student Achievement in Reading and Math:

- Practitioner's Workshop: Three regional workshops were held for a team of participants from 32 schools. The focus on the workshops was on three key areas: improving reading and mathematics instruction; school restructuring to improve student achievement; and, implementation of schoolwide programs.
- NCLB Regional Workshops: Nine (9) regional workshops were provided to teachers and administrators on NCLB related programs. Example: How Title I, V and RTI work together to build highly effective programs for students.
