PURPOSE/BACKGROUND

This bulletin serves as an update for the Consolidated Program Review (CPR) process for the 2022–23 school year.

Consolidated Program Review

OSPI has traditionally conducted CPR reviews determined by:

- Regional Educational Service Districts rotation including on-site and desk
- Statewide selected on-site reviews based on risk
- Four largest LEAs by federal allocation (reviewed annually)
- Select fiscal-only reviews

We are modifying the CPR process to align our practices with guidance our office has received from the Council of Chief State School Officers (CCSSO).

2022–23 Process

Our monitoring system will assess compliance through a review of all aspects of the process through a continuum of activities. The goal is to strengthen student supports and outcomes, provide equitable access, and focus on continuous improvement.

For the 2022–23 school year, the criterion for LEA CPR selection will be risk-based. The 60 LEAs with the highest risk score will be reviewed via desk review. As in the past, LEAs will upload documentation in EDS via Program Monitor. We will provide updated information as it becomes available on the [CPR](#) page of the OSPI website.

LEAs selected for CPR will be notified by August 2022. As in the past, informational sessions will be held in the fall for selected LEAs.
