Racial/ Ethnic Data

- Federal regulation requires race and ethnicity data be collected each year for the current population your sponsoring organization serves as well as the potentially eligible population in your service area.
- The assessment of your organization’s potentially eligible population in your service area can be done by using Census or school data. Please use the definitions found in the Race and Ethnicity Data Collection Reference Sheet when assessing race and ethnicity data.
- When sites do not require enrollment forms and data for actual participants cannot be obtained via self-reporting, aggregate data for both actual and potential participants may be used.

Complete Site Calendar(s).

Meal service information for each site is entered into the Site Calendar. If you operate a program that closes during the summer months, two schedules must be added: one which will operate from the beginning of the fiscal year until the program closes for summer; the second will begin when the program opens after summer until September 30, 2023.
