We partner with the
Muckleshoot Indian Tribe
HIGHLINE SPECIFIC STI UNITS

• After reassessing our implementation efforts at Highline it was decided by the Since Time Immemorial Leadership Team that we roll out implementation with Highline specific units as well as targeted implementation sites.

Theory of Action:

If we created *Highline specific* STI lessons for our teachers, along with offering training and admin support then we will see a measurable increase in STI use as well as STI understanding among students and staff.
Followed current OPSI STI units, lessons, and outcomes

Ensured we were highlighting our partner tribe—Muckleshoot Indian Tribe and using Muckleshoot developed content as primary sources.

Designed units with supports for dual language and language learners. *GLAD

Received feedback from Highline Native Family Advisory Council

Worked with teacher teams and specialists to ensure we’re covering topics that are often looked over/mis taught/misunderstood.

Intentional alignment with as many standards as possible
IMPLEMENTATION OF HIGHLINE SPECIFIC UNITS

• Targeted specific schools and teacher teams to begin grassroots implementation
  • This also assists in building strong relationships and capacity for continued implementation

• Worked consistently with these teams to develop materials/units
  • Making sure teams felt invested and apart of the creation

• Partnering with librarians to support STI unit as well as expand.

• Offered extensive training both on new units and OSPI STI units, resources, and practice.
