#### **About the *Since Time Immemorial* Tribal Sovereignty Curriculum**

Effective July 24, 2015, with the passage of Senate Bill 5433, school districts are required to incorporate lessons about the history, culture and government of the nearest federally recognized Indian Tribe(s) when the district reviews or adopts its social studies curriculum (RCW 28A.320.170). School districts shall collaborate with OSPI on curricular areas regarding tribal government and history that are statewide in nature such as the concept of tribal sovereignty and the history of federal policy towards federally recognized Indian Tribes. **School districts shall meet these requirements by using the “*Since Time Immemorial*” Tribal Sovereignty online curriculum and may modify this curriculum in order to incorporate elements that have a regionally specific focus or to incorporate the curriculum into existing curricular materials.**

**OSPI's web-based Tribal sovereignty curriculum is:**

- ❖ Linked to locally-based tribal information
- ❖ Accurate and reliable so you can feel confident about what you are teaching
- ❖ Endorsed by OSPI and Washington's federally recognized Tribes
- ❖ Easy to access so you don't have to wait for materials—they are just a click away
- ❖ Easy to integrate within your existing units so you don't have to feel like you have to throw out your own lessons to "make room" for these materials
- ❖ Aligned to the state's Social Studies standards, recommended units, and classroom-based assessments
- ❖ Free
