Causes of Conflict CBA

A conflict\(^1\) can have many causes. To avoid and resolve conflicts, it helps to understand these causes. You will develop a position in which you explain the causes of a conflict.

Directions to students\(^2\)

In a cohesive paper or presentation\(^3\), you will:

- State a position on the main causes of a conflict
- Provide background on the conflict by describing three or more of the following:
  - who was involved in the conflict,
  - what the conflict was,
  - when the conflict took place, and
  - where the conflict took place.
- Provide background on the causes of the conflict by explaining two or more factors that helped cause the conflict.
- Provide reason(s) for your position that include:
  - An analysis of how the conflict may not have occurred if not for one or more of the main causal factors to support the position
  OR
  - An evaluation of why at least one factor is more important than others.
- Make explicit references within the paper or presentation to three or more credible sources that provide relevant information AND cite sources within the paper, presentation, or bibliography.

---

\(^1\) Conflict can be defined as the struggle between opposing forces.

\(^2\) This directions page guides students towards the “proficient” level (level “3”) for this CBA. To help students reach “excellent” (level “4”), please refer to the rubric or, if available, the graphic organizer.

\(^3\) Students may do a paper or presentation in response to the CBA provided that for either format, there is documentation of this response that someone outside their classroom could easily understand and review using the rubric (e.g., a videotaped presentation, an electronic written document).

*OSPI recommends that this CBA be used at a particular grade level and thus, the GLEs included in the rubric are for that grade. However, if the CBA is used at another grade level within the grade band (3-5, 6-8, or 9-12), the GLEs may need to change to match the appropriate content.
