

OSPI Content Standards Alignment with Ethnic Studies

Background and Purpose

In 2019 the Washington State Legislature passed [SB 6066](#) tasking OSPI to, “identify existing state learning standards that address the knowledge and skills that all public school students need to be global citizens in a global society with an appreciation for the contributions of diverse cultures.” While the Washington State Ethnic Studies Framework centers on alignment with the OSPI Social Studies Skills Standards, other standards may also align across many content areas including, but not limited to, the Arts, English Language Arts, Science, and additional Social Studies content areas.

This tool contains standards OSPI has identified as having potential connection to Ethnic Studies. It is important to note that addressing these standards does not mean that a district or educator is “doing Ethnic Studies;” rather, it illustrates the opportunity to implement Ethnic Studies across multiple content areas while maintaining district and educators' obligation to address content standards.
