2020–2021 Guide for Annual Activities, Reports, and Grant Packages
The "Guide for Annual Activities, Reports and Grant Packages 2020–2021 School Year" has been posted to OSPI's Special Education website. This Guide informs districts of important activities, reports, and grant packages and includes: (1) the name, description and the date action needs to be taken by the district/ESA, (2) whether the activity, report or grant is required or optional, and (3) a list of what areas are impacted. Please note that the Guide is not inclusive of all possible activities, reports, and grants throughout the school year. If you have any questions about the Guide, please contact the Special Education Office at 360-725-6075.

The Guide is located on the Special Education Resource Library under Quick Links.

2019–2020 Carryover on Special Education Form Packages
Due to COVID-19 school closures, the following 2019–2020 special education form packages will be allowed to carryover 100 percent into the 2020-21 school year: Form packages 431, 436, 618, 619,641, 861, 865.

Please note that this is a one-time exception. Carryover funds in the 2020–2021 school year will return to their standard carryover limitations.

Special Education and Institutional Education Directory
The Special Education and Institutional Education Directory is posted on the OSPI website.

The directory is updated monthly, on the first working day of every month. Submit changes to speced@k12.wa.us.

Please note, districts must update the contact information with the Special Education office, when needed, to receive emails sent out from the Special Education office. Updating your district’s contact information in the Special Education and Institutional Education Directory does not update your district’s information in iGrants.

Updating District Contact Information in iGrants
Districts must also update their contact information in iGrants frequently.

There are two places where districts need to update their contact information.
1. The Required Pages section, District ID tab. This tab includes the district’s iGrants Administrator.
2. The Contact tab within each form package.

See page nine of the iGrants User Manual for more information on required pages.

COVID-19 and Reopening Resources

Special Education Planning for Reopening Washington Schools 2020
This guidance is not intended to duplicate the content of the Reopening Washington Schools 2020 District Planning Guide, which included special education participation.

Our goal is for this document to serve as a companion resource, to provide guidance, best practices, resources and unique considerations for supporting students with disabilities, their families, and all educators throughout the school reopening process. For additional technical assistance on the provision of special education services throughout the school reopening process, refer to Questions and Answers.

Return to Top
Provision of Services to Students with Disabilities during COVID-19 in Summer and Fall 2020. This Q&A was revised as of July 10, 2020 and is updated frequently to reflect current guidance as it is released.

In these unprecedented times, we remain focused on providing needed services to students and addressing barriers to access so all students receive quality educational services. Please share your feedback on this guidance document with us through our Survey—Reopening Washington Schools 2020: Special Education Guidance.

Online Instructional Resources to Support Students with Disabilities Updated 8/17/2020

Online (and Offline) Resources to Support Students with Disabilities through Distance Learning

In response to school closures due to COVID-19, OSPI content experts have curated a selection of links to external organizations to support students with disabilities through school closures. These resources include courses, lessons, videos, educational games, physical and outdoor activity suggestions, and a section for supporting students with disabilities. We have also noted resources that include offline activity options, such as downloadable worksheets, lesson plans, and activities. The resources can be filtered by content area, grade span, and whether the link includes supports and activities for teachers, parents, and/or students.

Online Professional Development Opportunities Updated 5/8/2020

Professional Development Opportunities for Supporting Students with Disabilities

This document lists online professional development opportunities across multiple topics. The information includes the topic area, title, format, how to access the professional development, the source/developer, any associated costs, clock hours available, and the date the resource was added to the document.

Behavior Support Webinar for Families

OSPI's Special Education Division presents a three-part webinar designed for families to support learning through positive behavior in continuous learning environments. The webinar has been recorded and uploaded to YouTube in 20-25-minute digestible pieces, so families can access at their own pace. Please send all questions and comments to Lee Collyer at lee.collyer@k12.wa.us.

A Message from Sound Options Group on Services Available
We hope this message finds you well as you navigate our current shared experience. As the challenges of delivering services to student’s on IEP’s increases, we know that you will, in some cases, be facing some challenging conversations. We remain available to support you in this context. Call us if we can support and coach you through your specific situation. We are providing mediation and facilitation using the Zoom platform and are ready to respond to requests for this support. Finally, we are prepared to provide professional development focused on skills and strategies for engaging these challenges. Information on a two-part zoom class has been provided to your ESD directors. Please let us know how we can best support you during this time and stay safe.

**TSF2 User Update**

**Leaver Verification is Open**

- 2018-19 Leaver Survey Lists are now available for review in the TSF2.
- Schools must log into the TSF2 and review, edit, and verify their Leaver Survey List before making Post-School Survey phone calls.

**Steps to Verify Leaver Survey List**

1. Review Leaver Verification training materials
2. Log in to the TSF2 (visit www.cctsTSF.com or www.cctsTSF.org)
3. Navigate to your school’s Leaver Survey List
4. Add and delete surveys as needed
5. Review and edit demographics
6. Submit Leaver Verification

**Guidance and Training Materials**

PowerPoint training modules and supplemental guides are available in CCTS’s 2020 Post-School Survey Training Materials Google Drive Folder.

- Modules for everyone involved with the Post-School Survey:
  - Module 1 - Intro to the Post-School Survey
  - Module 2 - TSF2 Basics
- Modules by TSF2 user role:
  - Module 3 - Leaver Verification
  - Module 4 - Conduct Survey
  - Module 5 - District Managers
2020–2021 Changes to Federal Special Education Data Reporting - Repeat
The 2020–2021 CEDARS Manual and Appendices have been posted to the OSPI website. Many new elements have been added and revised for students with IEPs. Districts are encouraged to review these with staff and their student information system (SIS) vendors to make sure all elements are added to the systems and are correctly mapped to CEDARS. Following is a table listing the revised or new elements. **Beginning with 2020–2021**, these elements will enable OSPI to gather data for the Child Outcomes Summary, the Timeline for Initial Evaluation, the Transition from Part C to Part B and the Secondary IEPs reports. In addition, the least restrictive environment (LRE) valid values have been updated to meet revised reporting requirements.

**2019 Least Restrictive Environment (LRE) Data Platform Now Available**
The 2019 LRE Data Platform is now available. This data platform was designed to provide district and building staff access to unsuppressed, building-level special education demographic and placement data, to support program analysis and data-informed decision making. OSPI Special Education is working with ESD partners to provide secure access to the data platform. The LRE Data Platform will also be available.

Visit the [Guidance for Educators page on the CCTS website](https://www.ccts.wa.gov) for additional resources.
for download in the 2020–2021 federal fund application, iGrants Form Package 267. Please contact your ESD Special Education Director or specialeddata@k12.wa.us regarding access. Regional in-person data dives for spring 2020 are postponed due to school facility closure, so we have released a brief overview video to support accessing and navigating the data platform.

---

**Inclusionary Practices Project**

OSPI is continuing implementation of the Inclusionary Practices Project established by the legislature in the 2019 session. Every month, we’ll provide updates about the project and opportunities for educators to engage with the work.

**2020–2021 Grant Funding Application Now Open for New and Existing Pilot Partners**

The Inclusionary Practices Project 2020–21 Grant Funding Application is now open! We are recruiting for pilot partners for year two of the project, which provides funding to support professional development for inclusionary practices.

This opportunity is open to all local educational agencies (LEAs) in Washington, including school districts, charter schools, tribal compact schools, etc. School districts will receive a $15,000 base allocation, plus a per-pupil allocation of $95 per student with a disability in the participating schools. Other types of LEAs will receive a $5,000 base allocation, plus a per-pupil allocation of $95 per student with a disability in the participating school. The spending period for these funds is from July 1, 2020 through June 30, 2021. Please note that these funds cannot be carried over beyond the 2020–21 school year. Current pilot participants are also invited to apply, to add more participating schools and/or request additional project funding, but they are not otherwise required to reapply in order to access their year two funding allocation.

The competitive grant application process includes the Grant Funding Application and a completed Grant Funding Action Plan. Submitted applications will be scored in alignment with the priorities and point system identified in the Grant Funding Rubric.

**NEW: Informational Video for Inclusionary Practices Grant Funding**

We have developed an informational video for school districts and other local education agencies interested in applying for inclusionary practices grant funding. These funds will support professional development for inclusionary teaching practices and assistive technology purchases that facilitate professional development on inclusionary practices for educators, (i.e., teachers, principals, paraeducators, school district leaders, school boards, and families), and allow students receiving special education services to access general education settings and the core curriculum to the maximum extent possible.

Download the Grant Funding Informational Flyer.

Please contact david.green@k12.wa.us if you have questions about the grant or need support with this application.

---

**Early Childhood Special Education**

**ECSE Project Update**

**PreK Inclusion Champions**

As we move into the second year of the PreK Inclusion Champions Initiative, our network has grown to over fifty local school districts and nine regional ESDs across Washington state.

Return to Top
LEAP
LEAP PreK duplication has moved into year two of fidelity training and implementation for two local school districts and one ESD in southwestern Washington.

WA Pyramid Model
Twenty-two local classroom teams will begin Pyramid Model Implementation across Washington State. Programs represent local school districts and ESDs in Spokane, Snohomish, King, and Pierce Counties.

ESIT Tri-Stage Framework for Reentry to In-Person Service Delivery
The Office of Early Support for Infants and Toddlers (ESIT) recently released their Tri-Stage Framework for Reentry to In-Person Service Delivery. For more information, see the news release from ESIT.

If you have questions or need additional information, please feel free to reach out to your regional program consultant or email laurie.thomas@dcyf.wa.gov.

Policy Analysis by NIEER
The National Institute for Early Education Research (NIEER) recently released a policy analysis titled Review of State School Reopening Plans and Implications and Suggestions for State Funded Pre-K Programs.

Early Childhood Special Education Guidance Resource - Repeated
In partnership with the Washington State Early Childhood Special Education Coordination Team, OSPI Special Education has developed guidance on the Provision of Services to Children with Disabilities in Early Childhood Programs during School Facility Closure. The guidance document addresses early childhood transition from IDEA, Part C to Part B, including the role of school districts in the initial eligibility process. Other topics include child outcome summary (COS) entry and exit ratings, and considerations for students transitioning to kindergarten during a school facility closure. For additional information, please contact Ryan Guzman, OSPI Early Childhood Special Education Coordinator, at Ryan.Guzman@k12.wa.us.

Early Childhood Technical Assistance (ECTA) Center Resources
Continue to visit The ECTA Center to the most up-to-date guidance for supporting IDEA early intervention and early childhood special education (0–5) service delivery.

Check back regularly as The ECTA Center continues to make updates daily on topics.

These resources support state and local programs, practitioners and families, and provide continuity of learning for young children with disabilities, and their families during the current school facility closure.

Early Support for Infants and Toddlers (ESIT) - Updated
On March 19, 2020 Governor Inslee signed into law SHB 2787, Completing the transfer of the Early Support for Infants and Toddlers Program [ESIT] from the Office of superintendent of Public Instruction [OSPI] to the Department of Children, Youth, and Families [DCYF]. This bill transfers state funding appropriated for the ESIT program from OSPI to DCYF effective September 1, 2020. The bill also relieves school districts from their obligation to provide or contract for early intervention services to all eligible children with disabilities from birth to three years of age. Instead, DCYF will administer the ESIT program to provide early intervention services to all eligible children.

The Early Support for Infants and Toddlers (ESIT) State Leadership Team has received a number of questions and requests for support and guidance from early intervention provider agencies related to COVID-19. They have also received updates from Local Lead Agencies about how they are engaging in crisis response planning and supporting the needs of both staff and families receiving services.
Essential information for ESIT providers to know, as well as recommended actions for ESIT providers to consider doing, and more, available on the Washington State Department of Children, Youth & Families ESIT Guidance Memo Bulletin.

State Needs Projects

What’s New for 2020–2021
OSPI Special Education currently provides funding for several State Needs Projects. These projects collectively provide statewide capacity building through:

- Professional development opportunities,
- Technical Assistance, and
- Consultation and training for parents, families, and educators.

OSPI is excited to announce that going forward, beginning with the 2020–2021 academic year, the addition of two new state needs projects: Partnerships for Action, Voices for Empowerment (PAVE) and Open Doors for Multicultural Families (ODMF). Both organizations bring valuable experience and expertise in supporting parents and families from diverse backgrounds who care for students receiving special education services. More information about how PAVE and ODMF can be used to build our statewide capacity for engaging parents and families will be highlighted in this section in the coming months.

Each of our continuing State Needs Projects are listed below and their services will be featured throughout the 2020–2021 school year.

Center for Change in Transition Services (CCTS)
CCTS works to empower educators and administrators to improve transition services for youth with disabilities through partnerships, research, and training.

- The annual Post-School Survey is open June 1–November 1. Guidance for educators, guidance for students/families, and state-level data reports are available on the CCTS website.
- As part of OSPI’s Inclusionary Practices Professional Development Project, CCTS is supporting partnerships between Special Education and Career Technical Education (CTE) classrooms. Visit our Inclusionary Practices page to learn more.
- Subscribe to our newsletter for details on upcoming CCTS trainings and events.
- Join our Transition Network on Basecamp to connect with special education stakeholders across the state.

eLearning for Educators
The eLearning for Educators Project offers affordable online courses and no-cost mini-trainings designed to support educators in serving students with disabilities. Educators statewide can access the online offerings anytime, anywhere to meet their professional development needs. They are offered continuously which means there are no registration deadlines. The mini-training modules are designed to address common training needs arising from corrective action plans in the Special Education Citizen Complaint (SECC) process. Developed in collaboration with OSPI, the modules—designed for group or individual access—provide an option for school districts looking for vetted training in response to a SECC decision.

Return to Top
Enhancing Capacity for Special Education Leadership (ECSEL)
The ECSEL program located at the University of Washington Bothell prepares candidates interested in administering special education programs through a non-degree program that leads to the required Washington State Resident Program Administrator Certification.

Special Education Technology Center (SETC)
The Special Education Technology Center (SETC) provides training, consultation, technology loans, and resource information to help school districts and families implement assistive technology (AT) interventions to address the learning needs of children with disabilities across all environments. SETC is equipped to provide training and consultation on Universal Design for Learning, AT best practices, Accessible Education Material (AEM), accessibility features across technology and learning platforms, as well as augmentative and alternative communication for students with complex communication needs.

SETC FREE FALL Webinar Series

SETC FREE Book Studies
Comprehensive Literacy for All: Teaching Students with Significant Disabilities to Read

Literacy skills are a strong indicator of student success in school and beyond, yet we lack ways to engage our most complex students in literacy instruction. How do we apply evidence-based literacy instruction to students with complex communication needs or those with cognitive differences? This book study is full of both research and practical strategies on this very topic! Strategies will be applied to remote learning environments.

Book Study: The New Assistive Tech: Making Learning Awesome for ALL

Are you wondering how to increase engagement and create an accessible learning environment? Join educators across WA State for this interactive book study. FREE Book available for first 20 participants

Return to Top
Special Education Support Center (SESC)

The Special Education Support Center (SESC) is a Special Education State Needs Projects funded by OSPI in partnership with the Washington Education Association (WEA). Our purpose is to provide face-to-face and online training opportunities for all special education stakeholders including educators (both general and special education personnel), school administrators, paraprofessionals, ESA staff, parents and community members. The Special Education Support Center has a cadre of 50 trainers throughout the state, including special education staff, general education staff, administrators, and parents. Our mission is for our state to receive high-quality trainings led by stakeholders that are leaders in the field. We provide trainings that empower, increase skills, support inclusive practices, and lead to better knowledge about serving our students with disabilities.

Washington Sensory Disabilities Services (WSDS)

WSDS supports individuals aged birth to 21 who are deaf, hard of hearing, blind, visually impaired or deaf-blind, by providing assessment services, training and other support to children, school districts, families and service providers.

WSDS is currently pleased to offer Open Hands, Open Access (OHOA) online modules, which are a national resource designed to increase awareness, knowledge, and skills related to intervention for students (ages 3 through 21) who are deaf-blind and being served in educational settings. Training modules are free, self-paced, and offer clock hours - Registration for OHOA is Now Open!

Who Should Participate:
- Paraeducators
- Interveners
- Teachers, TVIs and TODs
- Administrators responsible for paraeducator training for children with complex needs
- Parents of children with complex needs, including hearing and vision loss
- OTs, PTs, SLPs

Modules offered in fall 2020:
- Welcome & Orientation Module - September 14 - 20, 2020
- An Overview of Deaf-Blindness and Instructional Strategies (Module 1) - September 14 - October 4, 2020
- The Sensory System, the Brain, and Learning (Module 2) - October 5 - 25, 2020
- The Role of Interveners in Educational Settings (Module 3) - October 26 - November 15, 2020
- Availability for Learning (Module 5) - November 16 - December 6, 2020

To request child-specific consultation re: students who are deafblind, see the “request support” button on the WSDS website.

Parent Communication-Support and Strengthening

Parents have always been an integral part of the special education process and parent participation in the process has never been more crucial than now. Partnerships for Action, Voices for Empowerment (PAVE) offers the following guidance to support and strengthen parent communication.

- Communicate and connect with families in their primary language and use multiple modalities. Make relationships with families and students a priority.

To schedule a consultation or training with SETC contact: Kristin Leslie at kristin.leslie@cwu.edu or Sarah Kinsella at sarah.kinsella@cwu.edu.
• If you are a special education director or school leader, be actively involved in communicating and connecting with families who have been the hardest to reach in the last few months and create space to hear and address concerns.
• Learn from past mistakes. Assess how the school closure period went—what went well and what did not, centering the experiences of students and families hardest to reach and support - in case school facilities closure happens again.
• Be prepared to plan with families to address the needs of individual students through their Individualized Education Program (IEP) and their continuous learning plans for Fall 2020–2021.
• Prepare families to meaningfully engage in the planning process for re-opening school facilities for 2020–2021. Be as transparent as possible in the planning process and the decisions that are made. Center the experiences of families and students with the most institutionalized barriers and plan with families, students and community partners.

Red flags for potential problems with parent participation:
• The district, local education agency, school doesn't change any approaches to family engagement.
• Lack of transparency, engagement, and communication with families and community partners.
• The district, local education agency, school fails to center the experiences of students and families experiencing the most institutionalized barriers in planning for Fall 2020–2021.

### News from the Professional Educator Standards Board (PESB)

**What is required for the 2020-21 school year?**

School districts are required to provide two days (14 hours) of training on the Fundamental Course of Study to their paraeducators.

Paraeducators who received two days (14 hours) of training in the 2019-20 school year, and two days (14 hours) of training in the 2020-21 school year will complete the FCS requirement. Training for the 2020-21 school year may begin July 1, 2020.

Districts will request reimbursement through iGrants form package 918; the same from the 2019-20 school year. Districts will submit reports on December 15, 2020, June 30, 2021, and September 1, 2021. Districts will receive reimbursement for the 2020-21 school year in September 2021.

**Professional Learning Grants Available**

The Professional Educator Standards Board (PESB) is offering grants of up to $15,000 to support educator retention through learning communities using professional growth plans (PGPs). Applications are due Wednesday, August 19. Priority will be given to grantees who are:

- Supporting educators from underrepresented groups
- Equipping educators to provide trauma-sensitive support to students from marginalized communities
- Creating learning communities that include paraeducators

**Who should apply?**

- Washington State school districts, ESDs, approved clock hour providers, and higher education institutions. If individual educators are interested in participating in this grant, they should communicate their interest to one of these organizations.

Visit the PESB website to learn more and apply.
Opportunities from the US Department of Education

**Fiscal Year 2020 Education Innovation and Research Competition**
The Department is pleased to announce the FY 2020 EIR Competition.

On July 29, 2020, the Department published in the Federal Register, a notice inviting applications for the Education Innovation and Research Program's Early-phase competition.

**Timeline for Early Phase Competition**
- Deadline for Notice of Intent to Apply: August 18, 2020
- Deadline for Transmittal of Applications: September 10, 2020
- Deadline for Intergovernmental Review: November 10, 2020

A pre-recorded pre-application webinar, as well as other competition-related updates and resources, can be found on the FY 2020 Competition page.

You may direct questions to the following: EIR email, or EIR phone: 202-453-7122.

If you choose not to submit a grant application and will not participate in any other application to this year's competition, you may be interested in being a peer reviewer.

**State Personnel Development Grants**
The purpose of this program is to assist State educational agencies (SEAs) in reforming and improving their systems for personnel preparation and professional development in early intervention, educational, and transition services in order to improve results for children with disabilities. Applications are due September 10, 2020.

**Demonstration Grants for Indian Children and Youth**
This program supports projects to develop, test, and demonstrate the effectiveness of services and programs to improve education opportunities and achievement of Indian children and youth. This competition has a competitive preference priority for rural. Applications are due August 31, 2020.

**IES Posts on Demand Webinars for Funding Opportunities**
The Institute of Education Sciences (IES) posted a series of on-demand webinars for those interested in Fiscal Year 2020 funding opportunities and learning more about IES. These pre-recorded webinars are hosted by the National Center for Education Research and the National Center for Special Education Research. You can access them on the IES Webinar Series website.

**Additional Grant Opportunities**
The Department's Discretionary Grant Applications page contains a list of competitions currently open.
