Stanwood-Camano School District No. 401
Methodology for Supplement not Supplant

The district has a process in place for distributing state and local funds. During the budget process, the district allocates funding based on student FTE. Teaching is allocated by grade level, according to class size (for elementary) and by grade level, class size and sections (at secondary levels). See attached charts for building level allocations.

Local and State Funds

Building MSOC allocations: These are allocated, based on student FTE. In addition, an allowance is given for postage for normal day to day school mailings. At the discretion of the Business Office, a building adjustment to MSOC allocations may happen after October student count (i.e. significant enough increase in student FTE that would warrant additional MSOC allowance).

Allocations that Remain at the District-Level:
- Curriculum purchases
- Translation services
- Instructional Professional Development
- Instructional Technology – such as hardware, software, licensing costs

Federal and Like Source Funds

Federal and Like Source Funds are not considered when allocating local and state resources to buildings.

English Language Learners (ELL): This population generates an allocation in the State Bilingual Program and the Title III funding. These resources are assigned and based on the ELL population and student need. Funding follows the students that generate these funds.

Learning Assistance Program (LAP): The allocation of other state funding, such as LAP, is in addition to the instructional classroom staffing allocation. LAP funds are used to target K-4 literacy at all 5 of our elementary schools. Additionally, Hi-Poverty LAP funds are allocated specifically for Lincoln Academy, our alternative middle school.

Title I, Part A Funds: The allocation of Title I, Part A funds is in addition to the instructional classroom staffing allocation. The methodology for allocating these funds is based on a “per pupil” expenditure in relationship to each eligible school’s free and reduced population percentage (three elementary schools). These schools are identified as Title I schools based on their free and reduced (rank and allocation) status. Title I, Part A funds are used to help supplement the K-4 literacy at those schools. Staffing and MSOC funds are tied back to servicing identified Title I students. Another use of Title I, Part A funds is to fund our McKinney Vento Liaison and that program’s other identified set asides.
The School Board has established the following guidelines for budget development:

- Students are the most important part of our schools. Effective student learning is attained best through the smallest class size possible. Therefore, the maintenance of a high quality education through reasonable class sizes in the individual classroom is of paramount importance.

- Instruction and learning are our highest priorities.

- Increased levels of academic achievement will be sought for every student.

- The categorical programs, Food Service, Pupil Transportation and other specially funded programs will operate as close as possible to their revenue base.

- The District’s Strategic Plan, including vision and mission statements, guides all key decisions.

- Adequate cash reserves will be maintained for emergencies and unforeseen circumstances.

- Instruction materials, purchases, and operation services will reflect funding realities.

- Legal mandates and contractual obligations will be observed.

- Levy commitments will be supported.

- No new program commitments will be made without a reallocation of resources.

- The extracurricular program contributes to future student success and complements academic learning. Such programs at elementary and secondary levels will receive equitable resources not to undermine support for academic programs.

- Develop and implement equitable resource allocation models.

| Teaching – targeted class size | Kindergarten Class Size 19  
2nd Grade Class Size 21  
3rd Grade Class Size 21  
4th Grade Class Size 25  
5th Grade Class Size 25 |
| Learning Resources | See Specialists |
| Specialists: Allocations by grade span | Staffed at approximately .16 specialists per class section. Each elementary school provides the minimum stated below. Some students go beyond the minimum on a rotating basis by quarter by having a rotating Wednesday. Minutes balance out over the course of a school year.  
Kindergarten:  
Music - 30 minutes per week  
Librarian – 30 minutes per week  
Tech – 30 minutes per week  
PE - 60 minutes per week  
1st Grade:  
Music - 30 minutes per week  
Librarian – 30 minutes per week  
Tech – 30 minutes per week  
PE - 60 minutes per week  
2nd Grade:  
Music - 30 minutes per week  
Librarian – 30 minutes per week  
Tech – 30 minutes per week  
PE - 60 minutes per week  
3rd Grade:  
Music - 30 minutes per week  
Librarian – 30 minutes per week  
Tech – 30 minutes per week  
PE - 60 minutes per week  
4th Grade:  
Music - 30 minutes per week  
Librarian – 45 minutes per week  
Tech – 30 minutes per week  
PE - 90 minutes per week  
5th Grade:  
Music - 30 minutes per week  
Librarian – 45 minutes per week  
Tech – 30 minutes per week  
PE - 90 minutes per week |
| Guidance & Counseling: Allocations by grade span and student characteristics | Each elementary is staffed with approximately a .5 counselor. The exceptions are: Stanwood Elementary School, which has a 1.0 due to high level of behavioral/emotional student need. |
| Supervision (Administrative): Allocations based on grade span | 1 Principal per building |
| Health Related Services: Allocations based on school model and student characteristics | Nursing Schedule: Based on student population (i.e. medically fragile, health conditions). 1 Health Room Assistant (HRA) per building |
| Communications: Allocations by school type (elementary) | Per Building: Postage allowance of $1,138/year |
